FOREWORD

PAGCOR’s regulatory role is essential to the vision of the country taking a place among the world’s top gaming jurisdictions. In principle, PAGCOR aims to:

- Ensure a level playing field among industry proponents;
- Maintain an orderly and predictable regulatory environment;
- Enforce license terms and conditions;
- Promote fairness and integrity in the conduct of games;
- Provide an underlying platform for responsible gambling;
- Disallow access to gaming venues by minors and financially vulnerable persons; and,
- Prevent licensed gaming venues from being used for illegal activities.

Regulations and standards must be formulated in order to meet these objectives. Mature gaming jurisdictions around the world, especially those from the North American and Asian continents, appear to be appropriate models to emulate. Relevant regulations and standards from New Jersey, Nevada and Singapore were adapted to fit in Philippine setting. Moreover, all PAGCOR licensees were consulted in the preparation of this Casino Regulatory Manual.

This Casino Regulatory Manual shall be read in conjunction with and is intended to supplement the Provisional License and Authority to Operate.

DEFINITION OF TERMS

“ancillary area” means any of the following areas within the casino premises:

(a) major aisles, the maximum area of which shall not exceed such limit within any part of the casino premises as PAGCOR may, from time to time, specify;
(b) back-of-house facilities;
(c) any reception or information counter;
(d) any area designated for the serving or consumption of food and beverages;
(e) any retail outlet;
(f) any area designated for performances;
(g) any area designated for aesthetic or decorative displays;
(h) staircases, staircase landings, escalators, lifts and lift lobbies;
(i) toilets;
(j) such other area not intended to be used for the conduct or playing of games or as a gaming pit as PAGCOR, when defining the boundaries of the casino premises or on the application of the Licensee, may allow.

“appeal” as regards patron disputes, means an appeal to PAGCOR against an earlier decision of the PAGCOR Monitoring Team (PMT).

“approved game” means a game approved by PAGCOR for play in a casino.

“approved game rules”, in relation to an approved game, means the rules which have been approved by PAGCOR for the game.

“approved gaming equipment” means gaming equipment of a class approved by PAGCOR for use in a casino.
“associate” of a licensed junket promoter or an applicant for a junket promoter license is a person who:

(a) holds or will hold any relevant financial interest, or is or will be entitled to exercise any relevant power (whether in right of the person or on behalf of any other person) in the business of the licensed junket promoter or applicant, and by virtue of that interest or power, is able or will be able to exercise a significant influence over or with respect to the management or operation of the business of the licensed junket promoter or applicant; or

(b) holds or will hold any relevant position, whether in right of the person or on behalf of any other person, in the business of the licensed junket promoter or applicant.

“automated shuffler” means an electronic product that has the capability to rearrange the playing cards to completely eradicate any prior pattern(s) introduced to the playing cards.

“Auxiliary Table Game System” means a dealer-operated electronic system that:

(a) utilize random number generators to determine game outcomes; and/or,

(i) Sic Bo/Big and Small

1. Gaming Table
(i) Each Sic Bo/Big and Small table shall have a drop box and a tip box where necessary, attached to it with the location of said boxes on the same side of the gaming table, but on opposite sides of the dealer.

(ii) Each Sic Bo/Big and Small table shall have an electrical device which, when the numeric value of each die has been entered, shall cause the winning combinations to be illuminated.

- The Sic Bo/Big and Small table shall have an area, which depicts all permissible wagers as indicated in the Sic Bo/Big and Small Game Rules and Mechanics approved by PAGCOR.

- Each combination shall have the capability to be illuminated, if it is a winning combination, after the numeric value of each die has been entered into the electrical device by the dealer.

(iii) Sic Bo/Big and Small shall be played with a sealed container, called as a “Sic Bo shaker”, which shall be used to shake the dice in order to arrive at the winning combinations.

- A manual Sic Bo shaker shall have a compartment to secure the three dice and a separate cover which conceals the dice while the dealer is shaking the Sic Bo shaker.

  - The compartment to secure the three dice shall be transparent and the cover which conceals the dice shall be opaque.

  - The Sic Bo shaker shall have the capability of being sealed or locked in order to ensure the integrity of the dice contained therein.

  - The Sic Bo shaker shall have the name of the licensee or the identifying logo imprinted or impressed thereon.

  - The Sic Bo shaker shall be secured to the Sic Bo table when the table is open for gaming activity.

- An automated Sic Bo shaker may be used provided that the shaker meets the requirements...
of the manual Sic Bo shaker as stated above, except that a separate opaque cover shall not be used. The shaker, its location on the Sic Bo table and the procedures for shaking the dice shall be submitted to PAGCOR.

2. Gaming Table Layout

(i) The name of the licensee or brand name of the casino offering the game.

(ii) Specific areas designated for the placement of the wagers as contained in the Sic Bo/Big and Small Game Rules and Mechanics approved by PAGCOR.

(iii) The payout odds currently being offered.

A sample image of a Sic Bo/Big and Small gaming table layout is shown below:

(j) Poker (player-to-player)

1. Gaming Table

   (i) Poker shall be played on a usually fairly oval-shaped table with up to ten (10) players sitting around a curve of the table with a dealer facing them in an indented area of the table made specifically for the dealer.

   (ii) The edge of the table called the “rail” shall be padded and raised slightly for the players to rest their arms.

   (iii) Each poker table shall have a rake drop box with a rake slide and a jackpot drop box where necessary, attached
to it with the location of said boxes on the same side of
the gaming table, but on opposite sides of the dealer.

2. Gaming Table Layout

(i) It shall be covered with felt, or speed cloth, a teflon-
coated fabric that helps the cards slide easily across the
surface.

(ii) The center of the table layout shall feature the name/logo

Section 13. Table Game Conversion

Provided that the table game rules and mechanics are pre-approved by
PAGCOR, the Licensee may make table game conversions by submitting a
duly accomplished Change in Table Games Notification Form (Form 7) to
GLDD and the PAGCOR Monitoring Team prior to implementation.

Section 14. Gaming Table Swapping

(a) The Licensee may swap gaming tables in between pits or zones by
submitting a duly accomplished Movement of Gaming Tables
Notification Form (Form 3) to GLDD and the PAGCOR Monitoring
Team at least one (1) business day prior to implementation.

(b) The Licensee and PAGCOR shall conduct stress tests on the swapped
gaming tables in order to ensure that gross gaming revenues, potential
gaming losses and shortages associated with a particular table are
accurately recorded, calculated and reported.

(c) The operation of the swapped gaming tables shall be subject to the
favourable results of the stress tests conducted.

Section 15. Free Hands

(a) Unlimited Free Hands in Junket and High Roller Tables

A Licensee may offer unlimited free hands over the course of a shoe
subject to the following:

1. Unlimited free hands shall apply to Baccarat and Baccarat-
derivative table games only;

2. Unlimited free hands shall only be offered in junket and high
roller gaming tables.
(b) **Free Hands in Non-High Roller Tables**

A Licensee may offer free hands in non-high roller gaming tables subject to the following:

1. Free hands shall apply to Baccarat and Baccarat-derivative table games only;

2. A maximum of six (6) free hands shall be allowed over the course of a shoe regardless of how many periods of inactivity the gaming table experiences.

---

**Section 16. Progressive Wagering**

The Licensee shall seek the approval of PAGCOR with regard to the following:

(a) **Table Game Progressive Wagering Systems**

1. Duly accomplished Table Games Progressive Wagering System Request and Approval Form (Form 8);

2. Implementing Rules and Guidelines for the table game progressive wagering system containing at a minimum the following:

   (i) Game rules;
   (ii) Odds and payouts;
   (iii) Seed amount;
   (iv) Percentage increments;
   (v) Gaming equipment and paraphernalia to be used;

3. Certification from an independent gaming laboratory duly recognized by PAGCOR.

(b) **Poker Progressive Jackpots**

1. Progressive jackpots that are funded by players’ money shall follow the guidelines in paragraph 2 below covering a particular jackpot, including, but not limited to, safekeeping of funds, qualifications, disqualifications, payouts, validation and payout procedure, disposal of funds in case of closure of poker clubs, etc.

2. Poker Jackpot Guidelines

   (i) Jackpot Rake Rules
• The Jackpot Rake is the amount collected from every eligible poker game pot to fund the Jackpot Amounts and is separate from and in additional to the Rake.

• The Jackpot rake from every game shall be 10% of each eligible poker game pot up to a maximum of Php50.00 only. However, the Licensee may collect lower or varying (based on table blind limits) jackpot rake amounts which they deem more suitable to their operations.

• The Jackpot Rake shall not be placed in or near the rake circle, in the rake drop box, or co-mingled with gaming revenue from poker games, but in the jackpot drop box on the opposite side (left) of the table and is separate from the Rake.

• The amount of the progressive jackpot shall be conspicuously displayed in the poker room.

• At least once a day, the posted jackpot amounts shall be updated to reflect the current amounts.

• The Jackpot Drop Box will be collected and counted in the same manner as the House Drop Box.

• The Jackpot Rake is collected only once during a hand.

• The seed money for the starting jackpot shall be funded by the Licensee.

• The No Flop, No Drop policy shall be enforced.

• From the total daily jackpot rake collection:

  ➢ **Thirty percent (30%)** shall be retained by the Licensee as jackpot administrative fee. The applicable PAGCOR license fee rate shall apply. The administrative fee shall be reflected on the daily rake collection report which includes the total rake collected for the day and total tournament entry fees, if any.

  ➢ **Seventy percent (70%)** shall go to the progressive bad beat jackpot fund broken down as follows:
Main Jackpot Fund | 70%
---|---
Reserved Jackpot Fund | 30%

- If a Licensee who is currently offering a bad beat jackpot promotion has existing 1st and 2nd reserved jackpot funds, the 2nd reserved jackpot fund shall be divided in such a way that 1/3 shall go to the reserved jackpot fund and 2/3 shall go to the main jackpot fund.

- A Licensee who wishes to make its bad beat jackpot promotion more attractive to players may seed the reserved jackpot after the main jackpot is hit.

- The Licensee shall update the progressive jackpot amount after each daily Jackpot rake count. The basis for the Progressive Jackpot award will be the current updated amount after adding the increments of the daily Jackpot rake collection to the previous amount posted. If the Jackpot has been hit prior to posting, the total prize will be adjusted to the updated amount.

(ii) Jackpot Mechanics

- Qualifying hands for a Bad Beat Jackpot must be Aces Full of Tens or better beaten by Quads or better.

- Both the winning and losing hands must be the player’s best possible combination of five cards.

- Both hole cards in each player’s hand must play (both hole cards must be part of the five (5) cards being played) and must go to a SHOWDOWN.

- Both hole cards in each player’s hand must be used in making the best possible five-card hand (If Four-of-a-Kind is beaten, either two of the four, or one of the four plus the kicker which plays must be in the player’s two-card private hand).

- The pot must be at least twenty (20) times the big blind, and house and jackpot rake are included in the total pot prize.

- A player’s Kicker must play and beat the board. There is no Jackpot if the Kicker ties the board.
- If there are more than two (2) hands involved in a Bad Beat Jackpot, then the two (2) highest hands will be considered for the jackpot. The highest hand being the WINNING HAND and the second highest hand being the BAD BEAT HAND. The others will qualify got the table share.

- If Aces Full of Tens is beaten to qualify, at least one of the cards in the losing player’s two-card private hand must be an Ace (meaning that three Aces on the board combined with a pair in a player’s hand does not qualify for the bad beat jackpot).

- A player must be dealt in the hand to qualify for a forty percent (40%) table share.

- There must be a minimum of five (5) active participants dealt in at the table to qualify for a Bad Beat Jackpot.

- All players at the winning table shall be required to show photo IDs in order to get paid.

- The one player to a hand rule shall be strictly enforced. Violation of this rule will disqualify the hand for the Bad Beat Jackpot.

- At the discretion of PAGCOR, the winning of the Bad Beat Jackpot may be voided due to any of the following:
  - Discussion of hands during play by players
  - Violation of the one player to a hand rule

(iii) Jackpot Payout

- All poker room tables that collect the same jackpot rake amount shall pay equal (100%) jackpot payouts for any jackpot hit.

However, those that collect varying jackpot rake amounts shall pay a proportionate payout based on the maximum jackpot rake amount.

For example:

Assumption: Maximum jackpot rake amount is P50.00
• The Main Jackpot Fund will be offered as the prize for the bad beat. In case the jackpot is hit, then the whole or a percentage of the reserved jackpot fund proportionate to the jackpot payout will go up to the main jackpot fund (i.e. if the jackpot payout is only 40%, then only 40% of the reserved jackpot fund shall go up the main jackpot).

• The total payable jackpot payout shall be divided among the following:

<table>
<thead>
<tr>
<th>Payout Percentage</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Losing Hand</td>
<td>40%</td>
</tr>
<tr>
<td>Winning Hand</td>
<td>20%</td>
</tr>
<tr>
<td>Other players dealt in</td>
<td>40%</td>
</tr>
</tbody>
</table>

➢ Jackpot payout shall be made within seventy-two (72) hours from the time the jackpot was hit.

➢ A twenty percent (20%) withholding tax shall be deducted from individual payouts exceeding P10,000.

➢ Security disclaimers such as fouled deck, switched cards, unverifiable hand, etc. will disqualify the hand for a Bad Beat Jackpot.

➢ Immediate sorting of the deck used shall be effected. CCTV coverage shall be reviewed prior to paying-out of prizes.

(iv) Standards for Progressive Jackpots

• All funds contributed by players into the jackpots shall be returned when won in accordance with the posted rules, subject to a thirty percent (30%) administrative fee.

• Rules governing progressive jackpots including the following shall be conspicuously posted:

<table>
<thead>
<tr>
<th>TABLE JACKPOT RAKE AMOUNT</th>
<th>JACKPOT PAYOUT</th>
</tr>
</thead>
<tbody>
<tr>
<td>20</td>
<td>40% of the main jackpot</td>
</tr>
<tr>
<td>30</td>
<td>60% of the main jackpot</td>
</tr>
<tr>
<td>40</td>
<td>80% of the main jackpot</td>
</tr>
<tr>
<td>50</td>
<td>100% of the main jackpot</td>
</tr>
</tbody>
</table>
The amount of funds to be contributed from each pot;

The type of hand it takes to win the jackpot (e.g., What constitutes a “Bad Beat”?);

How the promotional funds will be paid out;

How/when the progressive jackpot rake is added to the posted jackpot; and

The amount/percentage of progressive jackpot rake allocated to primary and secondary jackpots, if applicable.

- Progressive jackpot rake shall not be placed in or near the rake circle, in the rake drop box, or co-mingled with gaming revenue from poker games, but in the progressive jackpot rake drop box.

- The amount of the progressive jackpot shall be conspicuously displayed in the poker room.

- At least once a day, the posted progressive jackpot amounts shall be updated to reflect the current amounts.

- All decrements to the progressive jackpot amounts must be properly documented, including the reason for the decrement.

(v) Progressive Jackpot Rake Maintenance

- Progressive jackpot rake shall be placed in a locked drop box.

- Persons authorized to transport the locked drop box shall be precluded from having access to the contents keys.

- The contents key shall be maintained by the PAGCOR Monitoring Team.

3. At least once a day, the locked jackpot rake drop box shall be removed by two persons employed by the Licensee, one of whom is not a poker room personnel, and transported directly to the count room or other secure room to be counted, recorded, and verified, prior to depositing said funds to the Licensee’s Treasury.
4. Funds accumulated from any progressive jackpot as approved by PAGCOR shall be forfeited in favor of PAGCOR in the event of revocation of the Provisional License of the Licensee who implemented such.

6. such other transactions that will affect the determination of Gross Gaming Revenues.

For licensees with casino management systems and Ticket-In-Ticket-Out systems, the scope of stress test of electronic gaming machines are listed in Section 3 (d) under Regulation 6 of this Casino Regulatory Manual.

(f) PAGCOR reserves the right to reject or disapprove the operation of an electronic gaming machine if:

1. an independent testing laboratory has identified non-conformance to prescribed technical standards;
2. stress test yielded unfavorable test results;
3. electronic gaming machine parameter settings are found to be non-compliant with the parameter settings approved by PAGCOR.

(g) PAGCOR may from time to time, by notice in writing given to the Licensee require that gaming machines or any class of gaming machines used in the casino comply with certain requirements, including but not limited to, internationally accepted requirements as to bet limits, game fairness or security.

Section 3. **Minimum return to player percentage**

(a) The return to player (RTP) percentage of a slot machine used in a casino shall be from ninety percent (90%) to less than ninety five percent (95%)

(b) The minimum RTP may be set at lower than 90% if a slot machine is equipped with a feature that could trigger a maximum RTP of 95% or higher.

(c) The RTP percentage of electronic gaming machines or slot machines shall be determined by the Licensee within the range as described in subsection (a) above.

(d) A Licensee shall submit to the Gaming Licensing and Development Department (GLDD) the Electronic Gaming Machine Parameter Settings Notification Form (Form 10) duly accomplished by the Licensee’s authorized signatory, indicating the electronic gaming machines' parameter settings including the RTP percentages of the
base games and link games of each gaming machine prior to its commercial operations.

(e) A Licensee shall not make any change to the parameter settings including RTP percentage of each electronic gaming machine unless it has notified PAGCOR in writing at least one (1) business day prior to implementation.

(f) The change to the parameter settings including RTP percentage of each electronic gaming machine shall be covered in the Electronic Gaming Machine Parameter Settings Notification Form (Form 10) submitted to GLDD.

Section 4. Odds, payouts and house advantage

(a) The odds, payouts and house advantage of electronic table games shall be similar to those of their live table equivalent games, and which Licensee shall notify PAGCOR prior to commercial operations by submitting to GLDD the Electronic Gaming Machine Parameter Settings Notification Form (Form 10) duly accomplished by the Licensee’s authorized signatory.

(b) A Licensee shall not make any change to the parameter settings including RTP percentage of each electronic table games unless it has notified PAGCOR in writing at least one (1) business day before making the change.

(c) The change to the parameter settings including RTP percentage of each electronic table games shall be covered in the Electronic Gaming Machine Parameter Settings Notification Form (Form 10).

Section 5. Modification of electronic gaming machines

(a) No person shall modify, or permit any modification of, any gaming machine approved by PAGCOR, unless PAGCOR has been properly notified of the intended modification. For procedures involving the opening of logic doors, a joint meter reading with the PAGCOR Monitoring Team (PMT) shall be conducted prior to breaking of seal. Inspection of the meters shall likewise be jointly conducted with the PMT once re-sealing of logic doors has been effected.

(b) The Licensee shall notify PAGCOR of any change to the gaming machine, operating system or game previously approved by PAGCOR. For game conversions, the Licensee shall submit to GLDD a duly accomplished Electronic Gaming Machine Game Conversion Notification Form (Form 11) at least one (1) business day prior to game conversion.
(c) All undertakings involving modification of electronic gaming machines shall be carried out in close coordination with the Compliance Monitoring and Enforcement Department and the PMT.

(d) Any person who contravenes subsection (a) shall be subject to disciplinary action.

Section 6. Revocation of approval of electronic gaming machines

(a) Where any approved electronic gaming machine has been modified without notifying PAGCOR, PAGCOR shall, subject to subsection (b), revoke the approval of the gaming machine for use in a casino.

(b) PAGCOR shall not revoke the approval of the electronic gaming machines unless:

1. where a direction has been given to the Licensee requiring corrective action to be taken, such action has not been taken to the satisfaction of PAGCOR within the period specified in the notice; or

2. in any other case, PAGCOR has first served on the Licensee a notice in writing giving the Licensee an opportunity to show cause within a specified period why the approval should not be revoked.

(c) PAGCOR may, after considering any submissions made by a Licensee, revoke the approval of gaming machines which shall be limited only to the machines affected and give the Licensee written notice thereof.

(d) Any revocation of approval of gaming machines under this regulation shall take effect when the notice under subsection (c) is given or on such later date as may be specified in the notice.

Section 7. Duty of Licensee in relation to electronic gaming machines

(a) It shall be the duty of every Licensee to ensure that it does not use or permit to be used in its casino:

1. any gaming machine sourced from a non-accredited supplier;

2. any gaming machine which does not comply with Section 2; or

3. any gaming machine which is not approved by PAGCOR or the approval of which has been revoked subject to the procedural requirements on revocation under Section 6 above;
4. any gaming machine which has been modified without the prior permission of PAGCOR.

(b) A Licensee which contravenes subsection (a) shall be subject to disciplinary action.

Section 8. Final tax on player’s jackpot winnings from electronic gaming machines

(a) The Licensee shall withhold the final tax on player’s jackpot winnings from electronic gaming machines exceeding PhP10,000.00.

(b) The Licensee shall remit the final income taxes withheld on player’s winnings in accordance with existing revenue regulations.

(c) Licensee has the option to shoulder the final tax on player jackpot winnings stated in subsection (a) above although remittance should still be in accordance with existing revenue regulations.

Section 9. Stock Inventory Level for Electronic Gaming Machines

A Licensee may import such quantity of electronic gaming machines to maintain a stock inventory level no more than ten percent (10%) of the total allowed quantity of electronic gaming machines under the EGMs ratio stipulated under Part 1 Section 1 of Regulation 4.

Section 10. Movement of Electronic Gaming Machines in the Gaming Area

A Licensee shall notify PAGCOR of any intended movement of electronic gaming machines in the gaming area by submitting the Movement of Electronic Gaming Machines Notification Form (Form 12) to GLDD.

PART II
LINKED JACKPOTS

Section 1. Details of linked jackpots

(a) Linked jackpots should be properly communicated to PAGCOR prior to operation.

(b) Information submitted to PAGCOR pertaining to linked jackpots shall contain:

1. a detailed description of the manner in which the linked jackpots operate, including the game rules and parameters, return to
player percentage and treatment of accumulated money upon
termination of the linked jackpots;

2. a description of all the linked jackpot equipment to be used in
connection with the linked jackpots;

3. the location of all the linked jackpot equipment, and detailed
information on the location, layout and access controls of any
room to be used for monitoring of the linked jackpot
arrangement;

Section 2. Linked jackpots notification

(a) A person shall not, without properly notifying PAGCOR, install or cause
to be installed any linked jackpots.

(b) No linked jackpots between a casino in the Philippines and any place
outside the Philippines shall be allowed;

(c) Any person who contravenes subsection (a) shall be liable to
disciplinary action, in the case of a Licensee or a licensed gaming
employee.

Section 3. Prohibited linked jackpot arrangement

(a) A linked jackpot arrangement which is operated and administered by
any person other than a Licensee is prohibited.

(b) A linked jackpot arrangement is operated and administered by a
person if that person has control over the operation, maintenance or
use of the linked jackpot equipment used in connection with the linked
jackpot arrangement.

PART III
OTHER PROVISIONS

Section 1. Power of the PAGCOR Monitoring Team to stop the game, etc.,
until corrective action taken

(a) Where the PAGCOR Monitoring Team knows or reasonably suspects
that any electronic gaming machine in a casino:

1. being a gaming machine is not approved by PAGCOR or does
not comply with technical standards;

2. has been modified without the prior permission of PAGCOR; or
3. has failed to function in the manner in which it was designed and programmed to function or in accordance with the technical standards or any other requirements in notices given by PAGCOR in relation to that electronic gaming machine or class of electronic gaming machine, the PAGCOR Monitoring Team may:

(i) stop the use of, or stop any game that uses, the gaming machine/equipment, for such time as may be required to investigate the matter or until the PAGCOR Monitoring Team is satisfied that corrective action has been taken in respect of that gaming equipment; and

(ii) if necessary for the purpose of investigating any suspected contravention of any provision of these Regulations made herein, seize the gaming machine/equipment or any part thereof.

(b) PAGCOR may, order the Licensee:

1. to take such corrective action (including replacement, repair or re-certification by a reputable and independent testing laboratory) as may be necessary to ensure that the electronic gaming machine referred to in subsection (a) complies with these Regulations, within a specified period; and

2. to cease the use of such gaming machine until such corrective action is taken or the direction is revoked.

Section 2. Directions to Licensee

(a) PAGCOR may give to a Licensee a written direction that relates to the conduct, supervision or control of operations in the casino and the Licensee shall comply with the direction as soon as it takes effect.

(b) The direction takes effect when the direction is given to the Licensee or on a later date specified in the direction.

(c) The power conferred by this section includes a power to give a direction to a Licensee to adopt, vary, cease or refrain from any practice in respect of the conduct of casino operations.

(d) A direction under this section shall not be inconsistent with the conditions of the casino license.

(e) Any Licensee who fails to comply with a direction under this section, after due process, shall be liable to disciplinary action.
(f) Where a Licensee has been subject to disciplinary action under subsection (f) and continues to fail to comply with the direction of PAGCOR after due process, such failure shall constitute a fresh ground of disciplinary action for every day or part thereof that the failure continues after the first disciplinary action.
PERIPHERAL GAMING EQUIPMENT

“Peripheral gaming equipment” in these regulations does not include electronic gaming machines. All gaming equipment shall be designed and manufactured to allow operations of the casinos to be conducted in a manner that is honest, secure, reliable and auditable.

PART I
GENERAL PROVISIONS

Section 1. Gaming Equipment to comply with technical standards and other requirements

(a) The Licensee shall procure gaming equipment only from suppliers who have passed accreditation under the accreditation process as defined under Regulation 11 of this Casino Regulatory Manual.

(b) All gaming equipment intended for use in a casino shall be certified by a reputable and independent gaming laboratory to have passed the prescribed technical standards relating to that gaming equipment.

(c) As of the date of these regulations, the names of independent gaming laboratories duly recognized by PAGCOR are listed in Annex A.

(d) Where there has been a revision to the technical standards, PAGCOR may, by notice in writing in any particular case, require a Licensee to make such modifications to any gaming equipment as may be necessary to comply with any of the revised technical standards.

(e) PAGCOR may from time to time, by notice in writing given to a Licensee, require that any gaming equipment for use in any casino shall comply with certain requirements, including but not limited to, requirements as to additional testing or reporting to be carried out on the gaming equipment.
Section 2. Modification of gaming equipment

(a) No person shall modify, or permit any modification of, any approved gaming equipment, unless the prior permission of PAGCOR has been obtained for the modification.

(b) The Licensee shall seek the approval of PAGCOR on any modification of the gaming equipment previously approved by PAGCOR by submitting a request with an attached certification from an independent gaming laboratory on the modified gaming equipment.

(c) Any person who contravenes subsection (a) shall be subject to disciplinary action.

Section 3. Revocation of approval of gaming equipment

(a) Where any approved gaming equipment has been modified without the prior permission of PAGCOR, PAGCOR shall, subject to subsection (b), revoke the approval of the gaming equipment for use in a casino.

(b) PAGCOR shall not revoke the approval of the gaming equipment unless:

1. where a direction has been given to the Licensee requiring corrective action to be taken, such action has not been taken to the satisfaction of PAGCOR within the period specified in the notice; or

2. in any other case, PAGCOR has first served on the Licensee a notice in writing giving the Licensee an opportunity to show cause within a specified period why the approval should not be revoked.

(c) PAGCOR may, after considering any submissions made by a Licensee, revoke the approval of the gaming equipment and give the Licensee written notice thereof.

(d) Any revocation of approval of gaming equipment under this regulation shall take effect when the notice under subsection (c) is given or on such later date as may be specified in the notice.

Section 4. Duty of Licensee in relation to gaming equipment

(a) It shall be the duty of every Licensee to ensure that it does not use or permit to be used in its casino:

1. any gaming equipment which is not approved by PAGCOR or the approval of which has been revoked;
2. any gaming equipment found to be non-compliant with set technical standards as contained herein; or

3. any approved gaming equipment which has been modified without the prior permission of PAGCOR.

(b) A Licensee which contravenes subsection (a) shall be subject to disciplinary action.

PART II
TECHNICAL STANDARDS

Section 1. Auxiliary Table Game Systems

These standards apply to auxiliary table games\(^1\).

For the avoidance of doubt, table game systems that automate the functions of accepting wagering instruments as well as making of payouts are not auxiliary table game systems and are not subject to the requirements of these standards.

(a) Every auxiliary table game system shall contain a proven and robust mechanism which has the capability to internally authenticate that program files and/or support files had not been corrupted or altered prior to use or loading. Such mechanisms shall prevent further operation of any auxiliary table game system if unexpected data or inconsistencies are found.

(b) If a Random Number Generator (“RNG”) is present and used to determine game outcomes, the RNG shall comply with the Random Number Generator requirement under the technical standards for Electronic Gaming Machines.

(c) If the system simulates an existing live table game, the RNG shall comply with the Live Game Correlation requirement under the technical standards for Electronic Table Games.

(d) Prior to the effectivity of the Philippine Standards for Electronic Table Games, PAGCOR shall accept certifications from independent gaming laboratories on electronic table games which have been tested and passed any of the following electronic table games technical standards:

1. GLI-24: Electronic Table Game Systems
2. GLI-25: Dealer Controlled Electronic Table Games
3. Singapore

\(^1\)Auxiliary Table Game System definition see Regulation 1.
(e) If the system assists in the tracking of bets wagered, winnings and losses, the system shall contain a mechanism to allow the review and reconstruction of the gaming activity of at least five (5) previous games.

(f) Role Based Access Control whereby users are only allowed access to programs and menu items related to their job functions, shall be supported.

PAGCOR reserves the right to require test report(s) from a recognized independent testing laboratory to demonstrate compliance with any or all of the requirements in these standards.

Section 2. Non-Electronic Card Shoes

(a) Every non-electronic card shoe shall bear the name or logo of the licensee, or any form of artwork that would indicate that the non-electronic card shoe belongs to a particular licensee.

(b) The lip of the non-electronic card shoe shall be designed with bristles.

(c) The body of the card shoe and the card shoe lid shall be constructed using solid material that is opaque, with no loose panel that may conceal any hidden compartment.

(d) The roller shall be constructed using solid material, with no loose panel that may conceal any hidden compartment. Any wheel on the roller shall be able to move freely.

(e) The roller shall be designed so that when positioned at the top of the ramp, it will roll to the bottom of its own accord.

(f) The card shoe shall be designed to facilitate the dealing of cards without revealing their face value.

(g) The card shoe shall not leave any marking on the cards that may assist, help or otherwise allow any person to predict or project the outcome of a game.

(h) The card shoe shall be secured to preclude the possibility of viewing the cards.

Section 3. Electronic Card Shoes

(a) Every electronic card shoe shall bear, at a minimum, the following information:

1. the name of manufacturer;
2. a unique serial number; and

3. the model number.

(b) The body of the card shoe and the card shoe lid shall be constructed using solid material that is opaque, with no loose panel that may conceal any hidden compartment.

(c) The roller shall be constructed using solid material, with no loose panel that may conceal any hidden compartment. Any wheel on the roller shall be able to move freely.

(d) The roller shall be designed so that when positioned at the top of the ramp, it will roll to the bottom of its own accord.

(e) The card shoe shall be designed to facilitate the dealing of cards without revealing their face value.

(f) The card shoe shall not leave any marking on the cards that may assist, help or otherwise allow any person to predict or project the outcome of a game.

(g) The card shoe shall be secured to preclude the possibility of viewing the cards.

(h) There shall be mechanisms and controls in place to prevent the tampering of any card loaded into the electronic card shoe.

(i) If the electronic card shoe is capable of recognizing rank and suit, it shall:

1. Ensure accuracy in the card recognition technology;

2. Not provide any information that may be used to compromise the game.

(j) If the electronic card shoe is capable of displaying the game results, the displayed results shall be accurate.

(k) In the event of error, there shall be an appropriate indicator to signify the presence of an error. If an LCD screen is present, an error message shall be displayed.

(l) Program files shall be stored in non-alterable memory devices, or if not, write protection shall be in place.

(m) Every electronic card shoe shall contain a proven and robust mechanism which has the capability to internally authenticate the program files and/or support files have not been corrupted or altered.
prior to use or loading. Such mechanism shall prevent further operation of the card shoe if unexpected data or inconsistencies are found.

Section 4. Electronic Shufflers

(a) The shuffler shall be identifiable at a minimum with the following information:

1. Name of manufacturer;
2. Unique serial number; and
3. Model number.

(b) The shuffler shall have the ability to grip the playing cards and shall not leave any marking that may assist, help or otherwise aid any person to predict or project the outcome of a game.

(c) The shuffler shall be secured to preclude the possibility of viewing of cards being shuffled.

(d) During shuffling, the shuffler shall have mechanisms and controls to prevent the tampering of any playing card loaded to the shuffler.

(e) There shall be mechanisms in place to detect the opening of shuffler during operation, upon which the shuffling and dealing processes shall stop.

(f) Any change in the password access shall be made by authorized personnel.

(g) Program files including the Random Number Generator (RNG) algorithm, shall be stored in:

1. Non-alterable memory devices;
2. Memory devices with the implementation of write protection; or,
3. Memory devices with sufficient proprietary controls and mechanisms set in place by manufacturer to restrict modification access.

(h) Every shuffler shall contain a proven and robust mechanism which has the capability to internally authenticate the program files and/or support files have not been corrupted or altered prior to use or loading. Such mechanism shall prevent further operation of the shuffler if unexpected data or inconsistencies are found.
(i) If the shuffler is capable of recognizing rank and suit, it shall:

1. Ensure 99.99% accuracy in its card recognition technology;

2. Not provide real time information that can be used to aid in projecting the outcome of the game, tracking of the cards played and cards remaining to be played, analyzing the probability of the occurrence of an event relating to the game, or analyzing the strategy for playing or betting to be used in the game; and,

3. Restrict access to the history of game(s) played only to authorized casino personnel.

(j) If the shuffler is capable of card counting, it shall ensure 99.99% accuracy in the counting mechanism.

(k) If the shuffler is capable of hand formation, it shall ensure the correct number of playing cards per hand.

(l) In the event of an error, the shuffler shall cease operation and there shall be an appropriate indicator to notify the casino personnel. If an LCD screen is present, a message describing the type of error shall be displayed.

(m) The shuffler shall be designed to completely eradicate any pattern(s) introduced to the playing cards.

(n) If the shuffler has dealing capability, it shall ensure all hands dealt are random.

(o) The use of an RNG shall result in shuffling outcomes that are proven, via the application of recognized statistical tests, to be:

1. Statistically independent;

2. Uniformly distributed over their range; and,

3. Unpredictable.

(p) The RNG shall be cycled continuously between shuffles.

(q) The method of seed generation shall ensure that:

1. The same sequence of random numbers is never used in more than one shuffler at the same time;

2. The shuffle is not predictable; and,
3. The seeding and re-seeding shall be randomly determined and shall not be under operator control.

(r) The range of values produced by the RNG shall be adequate to provide sufficient precision and flexibility required by the mechanical implementation of the shuffler.

(s) Numbers generated from the RNG shall be scaled down to usable values required by the mechanical implementation of the shuffler, while maintaining the randomness of the number sequence over the new range.

Section 5. Dice

(a) The weight of the dice shall be equally distributed throughout the dice and no side shall be heavier or lighter than any other side.

(b) The dice shall be in the shape of a cube where all edges have equal dimensions and all corners are identical.

(c) Each side of the dice shall be perfectly flat with identical texture and finish.

(d) The markings on each side of the dice shall be perfectly flushed with the area surrounding them, with no other indentation or embossing.

(e) Dice to be handled by patrons shall be transparent.

(f) The dice shall bear a unique identifying feature of a Licensee or any other form of artwork that would indicate that the dice belongs to a particular Licensee.

(g) The dice should also contain a unique “set” number to identify a complete 5 die set for use on Craps game.

Section 6. Money Wheels

(a) The money wheel shall have its weight distributed throughout.

(b) The money wheel shall be made of non-magnetic substances to prevent interference from magnetic sources.

(c) The design of the money wheel, the number of different symbols and the number of compartments shall be based on the game rules.
Section 7.  Pai-Gow Tiles

(a) Each Pai-Gow tile shall be in the shape of a rectangular block and shall be made of a non-transparent black material.

(b) The dimensions of each tile shall be identical to every other tile in the set.

(c) Each side of each tile, with the exception of the front side, shall be identical in terms of surface, texture and finish as all the other sides.

(d) The font side of each tile shall contain dots that are identical, except in terms of colour, as every other dot.

(e) The dots on the front of the tiles shall either be red or white or both.

(f) Each tile within a set shall not contain any additional markings, symbols or design on the back and sides that will enable identification of the tile.

Section 8.  Roulette Wheels

(a) The roulette wheel shall have its weight distributed evenly throughout.

(b) The roulette wheel and ball shall be made of non-magnetic substances to prevent interference from magnetic sources.

(c) The cylinder shall be constructed and designed to rotate and move freely of its own accord but all affixed parts of the roulette wheel shall be secure and free from movement.

(d) The ball pockets or compartments on the ring shall be designed so that any individual compartment shall:

1. Be precisely the same as every other compartment in terms of dimensions;

2. Be evenly spaced; and,

3. Enable a roulette ball to land and rest easily and smoothly within the compartment.

(e) The design of the roulette wheel and the number of compartments shall be based on the game rules.

(f) The roulette wheel shall bear the name or logo of a Licensee or any other form of artwork that would indicate that the wheel belongs to a particular Licensee.
PART III
OTHER PROVISIONS

Section 1. Power of the PAGCOR Monitoring Team to stop the game, etc., until corrective action taken

(a) Where the PAGCOR Monitoring Team knows or reasonably suspects that any gaming equipment in a casino:

1. being gaming equipment, is not approved gaming equipment or does not comply with set standards; or

2. has been modified without the prior permission of PAGCOR;

the PAGCOR Monitoring Team may stop the use of, or stop any game that uses, the gaming equipment, for such time as may be required to investigate the matter or until the PAGCOR Monitoring Team is satisfied that corrective action has been taken in respect of that gaming equipment.

(b) PAGCOR may, order the Licensee:

1. to take such corrective action (including replacement, repair or re-certification by a recognized independent testing laboratory) as may be necessary to ensure that the gaming equipment referred to in subsection (a) complies with these Regulations, within a specified period; and

2. to cease the use of such gaming equipment until such corrective action is taken or the direction is revoked.

Section 2. Directions to Licensee

(a) PAGCOR may give to a Licensee a written direction that relates to the conduct, supervision or control of operations in the casino and the Licensee shall comply with the direction as soon as it takes effect.

(b) The direction takes effect when the direction is given to the Licensee or on a later date specified in the direction.

(c) The power conferred by this section includes a power to give a direction to a Licensee to adopt, vary, cease or refrain from any practice in respect of the conduct of casino operations.

(d) A direction under this section shall not be inconsistent with the conditions of the casino license.

(e) Any Licensee who fails to comply with a direction under this section shall be subject to disciplinary action.
CASINO MANAGEMENT SYSTEM

Section 1. Components of a Casino Management System

(a) A casino management system has two major components:

1. **Table Game Accounting, Monitoring and Control System.** This system is primarily tasked with accurately calculating and reporting the win associated with table games and identifying potential losses and shortages. The system also highlights table profitability on a near to real-time basis to assist in the identification of table game fraud and unusual player losses that may warrant player support. The system consists of a central server or servers along with their associated databases and a number of terminals (i.e. gaming table terminals, pit terminals, cage terminals, etc.) connected to the server via a local area network.¹

2. **Slot Machine Online Monitoring and Control System.** This system is a game management system that continuously monitors each electronic gaming machine via a defined communication protocol by either a dedicated line, dial-up system, or other secure transmission method. The system is primarily tasked to provide logging, searching and reporting of gaming significant events, collection of individual electronic gaming machine financial and meter data, reconciliation of meter data against hard and soft counts, and system security.²

¹ Section 2.1.1 Table Game Accounting, Monitoring and Control Systems Defined and Section 2.2 Graphical Overview of Table Game Accounting, Monitoring and Control Systems in Casinos Standard Revision 1.2 dated April 14, 2009 by Jonathan Searcy. Said Standard was produced by E-Genting Sdn.Bhd in conjunction with Gaming Laboratories International, Inc.

(b) The following casino management system modules shall not be subject to these regulations:

1. Membership and player tracking; and,

2. Marketing and promotions system or solution (management of bonus points, coupons and rewards for redemption, complimentary and loyalty programs, etc.), the functionality of which is to enable casino operators to identify, differentiate and reward target players with promotional items based on a number of pre-defined criteria such as game play metrics, and then monitor and analyze the effectiveness of these promotions to identify player preferences, determine optimal criteria and maximize results.

provided that the aforementioned shall not in any way affect the determination and reporting of Gross Gaming Revenues.

Section 2. Casino Management System to be provided by the Licensee

(a) The Licensee shall determine the casino management system to be used in the Casino for purposes of accounting, monitoring, control and reporting of transactions of cage, chip bank, table games and electronic gaming machines/slot machines.

(b) The Licensee shall notify PAGCOR in writing of the name and version of the casino management system which the Licensee has elected to use in the Casino, and submit a certification from an international gaming laboratory duly recognized by PAGCOR stating that the particular name and version of the casino management system has passed prescribed technical standards. The Licensee shall inform PAGCOR of the target shipment date of the casino management system.

(c) Until PAGCOR has formulated the Philippine technical standards for casino management systems, the following standards shall be implemented:

1. GLI-13 Standards for Online Monitoring and Control Systems (MCS) and Validation Systems in Casinos;
2. GLI-16 Standards for Cashless Systems in Casinos; and,
3. Table Game Accounting, Monitoring and Control Systems in Casinos.

(d) The casino management system shall be approved by PAGCOR prior to implementation.
(e) The casino management system shall be capable of recovering from an outage or loss of service and shall utilize, at a minimum, the following:

1. Data redundancy of 99.99% up time which permits the complete and prompt recovery of both controlled data\(^1\) and critical data\(^2\) and unimpeded operations of the casino management system.

2. Backup capability that enables the Licensee to create periodic copies of both controlled data and critical data on a storage device which shall be separate from the device containing the controlled and critical data.

A Licensee shall install a master server and slave servers. Slave servers shall be replicas of the master server transactions and shall likewise function as reporting servers for reports generation. The Licensee shall determine the quantity of slave servers depending on the size of casino operations.

3. Environmental protection designed to protect critical hardware\(^3\) from a disaster.

(f) A Licensee shall ensure that it is capable of recovering both critical data and controlled data after a disaster and has a disaster recovery plan.\(^4\)

(g) The casino management system software shall not permit critical data to be altered unless the casino management system software provides a record of the modification. The record shall include, at a minimum:

1. The authorized user who made the adjustment;
2. The date of the adjustment;
3. The reason and description of the adjustment; and,
4. The result of the adjustment.

The default system setting of a modification of critical data shall be in a “disabled” mode.

**Section 3. Pre-operational requirements for the implementation of the Casino Management System in a Casino**

---

\(^1\) controlled data definition see Regulation 1.
\(^2\) critical data definition see Regulation 1.
\(^3\) critical hardware definition see Regulation 1.
\(^4\) disaster recovery plan definition see Regulation 1.
(a) The Licensee shall conduct the following activities to the satisfaction of PAGCOR, with the end in view of obtaining a good understanding of the Casino Management System features and functionalities for purposes of determining and monitoring Gross Gaming Revenues:

1. onsite product demonstration and overview;
2. onsite comprehensive training, simulation and walk-through; and,
3. such other activities as may be required by PAGCOR.

(b) PAGCOR shall attend all of the pre-operational activities stated in subsection (a) above.

(c) The Licensee shall submit the following to PAGCOR for reference:

No later than thirty (30) days prior to the conduct of activities stated in subsection (a) above:

1. Manuals:
   (i) Product Manual, if available;
   (ii) Name and Position/Title of the designated System Administrator; and
   (iii) User and/or Operations Manual;

2. Network Infrastructure Diagram showing the Licensee’s network infrastructure connected to the Casino Management System including servers, applications, databases and the description and use of each client/node.

3. Written confirmation from the Licensee stating that it has a System Security Plan in place for the network and applications including hardware and software used for use.

No later than three (3) days after the conduct of activities stated in subsection (a) above:

1. Inventory list of Information and Communications Technology (ICT) equipment including all servers used for the Casino Management System containing the following information:

   (i) device type;
   (ii) brand/model;
   (iii) device serial number;
   (iv) description and use; and,
   (v) physical location.

PAGCOR reserves the right to inspect the Casino’s data center with prior written notice to the Licensee.
2. Inventory list of Licensee’s Casino Management System subscriptions to data communication lines and internet containing the following information:

(i) name of provider;
(ii) bandwidth;
(iii) description and use; and
(iv) origin and destination (for point-to-point connections)

3. List of Casino Management System Access Commands for use by the PAGCOR Monitoring Team for monitoring purposes, including but not limited to the following:

(i) Chip bank status display. This shows the status of current and ongoing (requested or initiated but not completed or cancelled) inventory tray issues and returns, fills and credits, drop box issuances and collections.

(ii) Cashier status display. This summarizes the financial position of each of the head cashier locations.

(iii) Log on. This allows the user to log in to the system.

(iv) Incident log. This allows the user to access the incident log.

(v) Audit log. This shows the log ons and log offs and commands executed.

(vi) Number of open tables display. This shows the number of open and trading tables in the Casino floor.

(vii) System highlights display. This shows the most unusual gaming tables with respect to drop, win and recently requested fills.

(viii) Cash inventory report. This report lists the amounts of coins, chips, each denomination of local currency and each type of other commodity (i.e. bet certificates) entered into the casino management system for each drop box.

(ix) Master game report. This shows the daily win/loss amounts for each gaming table, which includes the following:

- Drop;
- Opening table inventory;
- Fills;
- Credits;
- Ending table inventory;
- Win/loss;
- Win/drop percentage; and,
- Error reconciliation.

The master game report has three types:

- Estimated master game report. This shows the daily win/loss amount prior to encoding the drop box soft count.
- Soft count master game report. This report incorporates the drop box soft count figures. This report may be subject to adjustments subject to the confirmation of the soft count data.
- Final master game report. This report is generated after the confirmation of the soft count data.

(x) Seal register report. This report shows the list of seal numbers assigned to drop boxes.

(xi) Bill collection inventory report. This displays the breakdown of total bills collected and counted.

(xii) Chip bank financial report. This report reconciles the total amount of fills and credits during the chip bank trading day vis-à-vis the total value of fills and credits on the Master Game Report during the table trading day

(xiii) Chip Reconciliation Report. This lists the closing table and chip bank inventories and calculates unredeemed chips by chip set and denomination.

(xiv) Turnover meters report (See Regulation 23);

(xv) Cash flow meters report (See Regulation 23);

(xvi) Actual cash flow report (See Regulation 23); and,

(xvii) Modifications log (See Regulation 23).

(d) Stress tests shall be conducted by PAGCOR on the casino management system for the purpose of ensuring that all transactions relating to gross gaming revenue determination are recorded and reported by the casino management system. The Licensee shall provide a test environment to be used by PAGCOR for such purpose. Stress tests shall cover the following scope:

1. Table Games:
(i) Drop box issuance, change, and collection;
(ii) Table Opening;
(iii) Fills;
(iv) Credits;
(v) Table Closing;
(vi) Computation of win/loss per gaming table;
(vii) Generation of a master game report and the validation of all test transactions against the master game report;
(viii) Table limits;
(ix) Progressive table games; and,
(x) such other transactions that will affect the determination of Gross Gaming Revenues.

2. Electronic Gaming Machines:

(i) Return-to-player settings;
(ii) Pay Table verification;
(iii) Bill test;
(iv) Ticket-In Ticket-Out (TITO) functionalities;
(v) Beginning and ending meter readings and meter validation of:

- TO - turnover
- AP - automatic prize
- JP - jackpot
- CR - credit
- CC - cancelled credit
- EI - electronic cash in/ticket in/voucher in
- EO - electronic cash out/ticket out/voucher out
- BD - bill drop

(vi) Betting on minimum and maximum limits;
(vii) Credit transfers from electronic gaming machine to player’s card and vice versa.
(viii) Generation of turnover meters report, cash flow meter report and actual cash flow report, and validation against actual electronic gaming machine meter readings; and,
(ix) such other transactions that will affect the determination of Gross Gaming Revenues.

3. Cage:

(i) Soft count of drop boxes and bill stackers;
(ii) Cash inventory report;
(iii) Fills;
(iv) Credits;
(v) Table capital/float issuances and receipts;
(vi) Beginning and ending chip bank inventory/financial reporting;
(vii) Gaming chip exchanges (from cash to gaming chip and vice versa) at the Cage;
(viii) Generation of reports and tallying of reported figures under items i. to vi. with Table Games and Electronic Gaming Machines transactions reports as listed under items 1 and 2 above; and,
(ix) such other transactions that will affect the determination of Gross Gaming Revenues.

(e) For operational casinos where stress tests shall be conducted in a live environment, the Licensee shall perform a database back-up prior to the commencement of the stress test.

(f) Implementation of the casino management system in the Casino shall be allowed by PAGCOR subject to the favorable results of the stress tests being conducted as mentioned in subsection (d) above.

Section 4. Casino Management System Version Upgrade

(a) A Licensee may conduct a version upgrade of the casino management system subject to the Licensee’s obtaining the approval of PAGCOR on the proposed version upgrade.

(b) Licensee shall submit a letter seeking PAGCOR’s approval for the version upgrade stating the new version it wishes to implement in the Casino with the following attachments:

1. Certification from an independent gaming laboratory duly recognized by PAGCOR stating that the particular name and version of the casino management system complies with prescribed technical standards.

2. Warranty or certification from the Licensee that the intended revision or upgrade will not alter Gross Gaming Revenue computation.

3. Report/write-up on the Overview of the version upgrade including the features and functionalities of the new version; and,

(c) The following activities shall be undertaken in order for PAGCOR to evaluate the proposed version upgrade:
1. Lecture by the Licensee on the overview of the version upgrade highlighting the differences in features and functionalities between the new and current versions.

2. Parallel run of reports under the new and current versions shall be performed by the Licensee and PAGCOR, and which shall cover the following activities:

(i) Reports generation (daily, weekly/cumulative weekly and monthly) under the current and new versions of the following:

Table Games:
- Master game report;
- Progressive Costs report;

Electronic Gaming Machines:
- Turnover meters report;
- Cash flow meters report; and,
- Actual cash flow report;

Cage:
- Chip bank financial report;
- Bill collection Inventory report;
- Cash Inventory report;

(ii) Comparison of the generated reports under the current and new versions as listed above ensuring that all transactions relating to gross gaming revenue determination are recorded and reported by the casino management system;

(iii) Identification and resolve of variances, if any, pertaining to the computation of Gross Gaming Revenue.

(d) PAGCOR shall grant the Licensee approval to install the new version if the reports generated under the new and current versions as described in paragraph 2.(i) above resulted in a zero variance.

(e) The Licensee shall furnish PAGCOR with a checklist of migration activities from the current version to the new version. PAGCOR may witness said migration activities.

(f) Prior to the installation, change or upgrade of the casino management system hardware and software, the Licensee shall ensure that it has the ability to revert back to the previous state without impacting the integrity of any critical data and system software.
(g) The Licensee shall perform database back-up procedures prior to full switchover from current version to new version.

(h) PAGCOR reserves the right to perform post-audit of the transactions under the new version.

Section 5. Emergency Software patch due to software bug

(a) Given a situation that the Casino Management System failed under critical system failure and required an emergency software patch to put the system back online, the Licensee shall notify the PAGCOR Monitoring Team immediately.

(b) The Licensee shall submit reports to Gaming Licensing and Development Department (GLDD) and Compliance Monitoring and Enforcement Department (CMED) outlining the incident and the rectification steps taken.

(c) The Licensee shall facilitate GLDD and CMED in testing the modified or "patched" system in compliance with Section 4 (c) above.

Section 6. Remote Access to the Casino Management System (CMS)

(a) A Licensee may provide remote access to its casino management system to its CMS provider or vendor (the “remote access user”), provided that:

1. The Licensee has established a method to validate the identity of such remote access user.

2. The remote access connection has been established using a methodology that prevents unauthorized access to the systems or to the data transmitted between the remote access user and the casino management system.

3. A firewall of equivalent device is used by the Licensee in conjunction with the remote access connection;

4. User access shall be temporary in nature. A remote access user may be issued an account provided that the password is changed or the account is disabled after every use.

5. User access shall not adjust, add, delete or modify controlled data.

6. The Licensee shall maintain a remote access record documenting at a minimum:
The date and time access was initiated and terminated;

The user account used during the remote session;

The name of the Licensee’s IT department employee who granted access;

The reason for the access; and,

Description of what was modified, if applicable.

(b) The Licensee shall furnish PAGCOR with pertinent information on the requirements under subsection (a) 1. to 6.

(c) PAGCOR reserves the right to witness the remote access activity.
SURVEILLANCE

Section 1. Surveillance Plan for casino premises

(a) A Licensee shall install, operate and maintain a casino surveillance plan for its casino premises.

(b) No Licensee shall conduct or permit the conduct of any operations in its casino premises unless there is a surveillance plan for the casino premises, confirmed by PAGCOR in the Licensee’s submission of its Casino Operational Rules and Guidelines; and

(c) The confirmed surveillance plan for the casino premises shall remain in force until a surveillance plan that is to replace it is communicated to PAGCOR via submission of the Change in Surveillance Plan Notification Form (Form 14) seven (7) business days prior to implementation.

(d) It is the responsibility of the Licensee to ensure that its surveillance plan is used to accomplish the stated purpose under these regulations and is not used in an improper manner which would bring discredit to the industry.

Section 2. Approval of surveillance plan

(a) A surveillance plan submitted to PAGCOR in respect of any casino premises shall comprise the following documents:

1. Design Report which shall include the following:

   Part 1. Introduction
   1.1 General
   1.2 System Configuration

   Part 2. Video Surveillance System
   2.1 General
   2.2 System components
2.3 Camera Components (should indicate number of fixed and PTZ cameras per table per game, per EGM bank, per Cage window, Count Room, shuffling room, etc.)
2.4 Ceiling Heights
2.5 Video transmission system (should indicate description and quantity of components and adjuncts to be installed)
2.6 Surveillance Data Network (should indicate description and quantity of components and adjuncts to be installed)
2.7 Monitoring and Control Rooms (should indicate quantity of video monitors, wall mounted monitors, pc workstations, desktop keyboard/Joystick for each operator)
2.8 Digital Video Recording (should indicate the number of digital video recording to be installed)
2.9 Network and Image Protection
2.10 System interfaces

Part 3. Support Infrastructure
3.1 General
3.2 Power supply
3.3 Centralized mechanical plant and equipment
3.4 General building power
3.5 Emergency Generator back-up
3.6 Uninterruptible power supply
3.7 IDF Equipment Rooms
3.8 Network cabling protection

Part 4. Appendices
4.1 Surveillance block schematic
4.2 Typical camera coverage
4.3 Control Room Layout
4.4 System equipment
4.5 Equipment specifications

Part 5. Glossary

The Design Report shall clearly indicate all surveillance requirements (description and quantity) to be used by PAGCOR as basis for granting clearance to import this equipment.

2. As built CCTV cabling, detailed camera blueprints or diagrams and layout of the casino premises, indicating:

(i) the areas within the casino premises to be monitored by the casino surveillance system (including the areas designated for entry into, and exit out of, the casino premises);
(ii) a description of all installations, devices and equipment (whether electronic or otherwise) to be used for the casino surveillance system;

(iii) a description of the activities to be monitored by the casino surveillance system; and

(iv) drawings which map the placement of installations, devices and equipment (whether electronic or otherwise) comprising the casino surveillance system, in relation to the activities to be monitored;

3. sample screenshots and/or visual presentations of the activities to be monitored by the casino surveillance system;

4. a description of the procedures for the installation, operation and maintenance of the casino surveillance system;

5. schedule of activities covering the installation and commissioning of the surveillance system of the casino;

6. complete list/inventory of all CCTV equipment and paraphernalia actually installed in the casino with corresponding specifications (model/brand) for each equipment per floor (e.g. casino 1st floor; casino 2nd floor, etc.);

7. a statement by the person in charge of the casino surveillance system that:
   (i) the casino surveillance system shown in the surveillance plan satisfies the performance requirements applicable to it; and,
   (ii) the surveillance plan complies with the requirements in these Regulations;

8. such other documents as PAGCOR may, from time to time, require to determine whether the casino surveillance system satisfies the performance requirements applicable to it.

(b) PAGCOR shall not confirm any surveillance plan for any casino premises unless it is of the opinion that the surveillance plan adequately demonstrates that the casino surveillance system satisfies or will satisfy all the performance requirements applicable to it.

(c) PAGCOR may:

1. confirm a surveillance plan for any casino premises subject to such conditions as it may impose; or

2. refute the surveillance plan if any part of it does not satisfy any of the performance requirements applicable to it or does not
Section 3. Replacement of approved surveillance plan

If a Licensee, in installing the casino surveillance system for any casino premises, intends to deviate from the confirmed surveillance plan for those premises, it shall submit to PAGCOR a new surveillance plan to replace the existing surveillance plan (which shall comprise the documents specified in Section 2(a)1Parts 1 to 5 showing the proposed deviations).

Section 4. Change to approved surveillance plan

(a) A Licensee which intends to make any change to its casino surveillance system that will deviate from the confirmed surveillance plan (other than a change required by PAGCOR under Section 2 (c) shall notify PAGCOR of the intended change by submitting to GLDD the Change in Surveillance Plan Notification Form (Form 14) at least seven (7) days before the date of the intended change, or within such shorter period as PAGCOR may allow.

(b) Every application to PAGCOR under subsection (a) shall contain:

1. details of the intended change, date and time of the intended change, reasons for the intended change, location of the intended change and the period for which any part of the casino premises will be closed to make the intended change;

2. sample screenshots or visual presentations indicating how the activities to be monitored by the casino surveillance system may be affected by the proposed change; and

3. a statement by the person in charge of the casino surveillance system that the casino surveillance system shown in the surveillance plan after the proposed change will satisfy the performance requirements applicable to it.

(c) PAGCOR may, in addition, by a written notice, require the Licensee to submit a revised surveillance plan within seven (7) days of the date of the notice.

(d) A Licensee shall ensure that the change to the casino surveillance plan is made in accordance with the intended change as communicated to PAGCOR under this regulation.
Section 5. Minimum Requirements for Surveillance System

(a) The surveillance system shall be interfaced with a security and access control system to allow the surveillance system to be configured to switch camera inputs, assign monitors, trigger PTZ dome pre-set positions, bookmark digital recording streams and cause automatic archiving of recorded video streams.

(b) The surveillance system shall either be a hybrid Digital/Analogue solution incorporating an analogue matrix switching and control system together with a digital recording system or a fully digital system. The basic system architecture shall consist of a combination of fixed position and maneuverable PTZ cameras, video transmission system, digital video recorders, operator workstations and desktop CCTV controllers and joysticks.

(c) The system shall be capable of allowing authorized surveillance staff to switch any of the cameras to any of the video monitors in a full cross matrix configuration.

(d) The system also allows positional control of PTZ cameras via system workstations or the CCTV keyboards.

(e) The surveillance system of the Licensee shall be established and thereafter, maintained, so that a failure of any part or component will not result in the cessation of more than 50% of the surveillance coverage of the gaming area.

Section 6. Surveillance Room and Equipment

(a) The surveillance system shall be maintained and operated from a surveillance room.

(b) The entrance to the surveillance room shall be located so that it is not readily accessible to either casino employees who work primarily on the casino floor or the general public.

(c) Access to a surveillance room shall be limited to surveillance personnel, key employees and other personnel authorized in accordance with the Licensee’s policy as set forth in its written surveillance system plan.

(d) The PAGCOR Monitoring Team may access the Licensee’s surveillance room provided that prior consent of the Licensee is obtained, which consent shall not be unreasonably withheld.

(e) Surveillance room equipment shall have total override capability over all other satellite surveillance equipment located outside the surveillance room.
(f) In the event of power loss to the surveillance system, an auxiliary or backup power source shall be available and capable of providing immediate restoration of power to all elements of the surveillance system that enable surveillance personnel to observe the table games remaining open for play and all areas covered by dedicated cameras.

(g) The surveillance system shall include date and time generators which possess the capability to display the date and time of recorded events on video tape recordings. The displayed date and time shall not significantly obstruct the recorded view.

(h) The surveillance room shall be attended at all times by personnel trained in the use of the equipment, knowledge of the games and house rules.

(i) There shall be at least one person on duty at the casino premises at all times with a working knowledge and the ability to operate the surveillance equipment, and who can provide immediate access to the secured location to the PAGCOR Monitoring Team.

(j) Each video camera required in these regulations shall be installed in a manner that will prevent it from being readily obstructed, tampered with or disabled by patrons or employees.

(k) The Licensee’s employees shall not intentionally obstruct surveillance system equipment.

(l) Where a PTZ camera is used to observe gaming and gaming-related activities, the camera shall be placed behind a smoked dome, one-way mirror or similar materials that conceal the camera from view.

(m) Each video camera required in these regulations shall possess the capability of having its picture displayed on a video monitor and recorded. The surveillance system shall include sufficient numbers of monitors and recorders to simultaneously display and record multiple gaming and count room activities, and record the views of all dedicated cameras and motion activated dedicated cameras.

(n) Reasonable effort shall be made to repair each malfunction of surveillance system equipment required by these standards within seventy-two (72) hours after the malfunction is discovered. In addition, the Licensee shall immediately inform the PAGCOR Monitoring Team of such malfunction. If a malfunction is not repaired within 3 days after it is discovered causing the Licensee to be in non-compliance with these regulations, the Licensee shall immediately notify the PAGCOR Monitoring Team of such malfunction.

(o) In the event of a dedicated camera malfunction, the Licensee shall immediately provide alternative camera coverage or other security measures, such as additional supervisory or security personnel, to
protect the subject activity. If other security measures are taken, the Licensee shall immediately inform the PAGCOR Monitoring Team which will determine whether the other security measures are adequate.

Section 7. Minimum Requirements for Surveillance Coverage

(a) Electronic Gaming Machines

1. The electronic gaming machines area shall be monitored by dedicated camera(s) to provide coverage of:

   (i) all patrons and employees at the electronic gaming machine;
   (ii) A facial view of all gaming patrons with sufficient clarity to allow identification of the patron;
   (iii) A view of bill validators with sufficient clarity to determine the bill value and the amount of credits obtained; and,
   (iv) the face of the electronic gaming machine, with sufficient clarity to identify the payout line(s) and observe the game results of the machines.

   The requirement under (iii) and (iv) above do not apply to an electronic gaming machine monitored by a linked, on-line progressive computer system which has been previously approved by PAGCOR.

2. The surveillance system shall possess the capability to monitor and record a general overview of the activities occurring in the slot machine area.

3. Minimum camera requirements:

   (i) One (1) fixed camera viewing each machine bank aisle and is typically located at each alternate end of machine banks; plus,
   (ii) at least one (1) PTZ dome camera in each lane for general surveillance coverage and specific surveillance tasks.

4. An electronic gaming machine or a group of electronic gaming machines whether stand alone or link, with a jackpot of at least Fifty Thousand Pesos (PhP50,000.00) shall be monitored by a dedicated fixed camera.

(b) Table Games

1. The surveillance system shall possess the capability to monitor and record:
(i) Each table game area, with sufficient clarity to identify patrons and dealers; and

(ii) Each table game surface, with sufficient coverage and clarity to simultaneously view the table float, chips, card shoes, shuffle machines, roulette wheel, dice cup, and determine the configuration of wagers, card values, card suites, dice and game outcome.

2. Table games with progressive jackpot(s) shall be recorded and monitored by dedicated cameras that provide coverage of:

(i) The table surface, sufficient that the card values, card suites, chips, bets, card dispenser, roulette wheel, dice cup, chip float and table number can be clearly identified; and

(ii) An overall view of the entire table with sufficient clarity to identify patrons and dealer.

(iii) A view of the progressive meter jackpot amount. If several tables are linked to the same progressive jackpot meter, only one meter need be recorded.

3. Minimum camera requirements:

(i) Grind/Mass Market Area:

**(vi) Poker Room Tables:**

One (1) dedicated camera for each poker room table and one (1) PTZ camera for every four (4) poker room tables.
(c) Casino Cage and Vault

1. The surveillance system shall possess the capability to monitor and record a general overview of activities occurring in each casino cage and vault area, with sufficient clarity to identify employees within the cage and patrons and employees at the counter areas.

2. The casino cage or vault area in which fills and credits are transacted shall be monitored by a dedicated camera or motion-activated dedicated camera that provides coverage with sufficient clarity to identify chip values and the amounts on the fill and credit slips. Controls provided by a computerized fill and credit system will be deemed an adequate alternative to viewing the fill and credit slips.

3. Minimum camera requirements:

   (i) Each cage window shall be fitted with at least one (1) fixed position overhead camera configured to view the transaction area; plus,

   (ii) At least one (1) PTZ dome camera per two cage windows to enable monitoring of other activities within the cage areas.

(d) Count Rooms and Chip Banks

1. The surveillance system shall possess the capability to monitor and record all areas where bills and coins may be stored or counted, including the hard count room, all doors to the hard count room, all scales and wrapping machines and all areas where uncounted bills and coins may be stored during the drop and count process.

   (i) Coverage of scales shall be sufficiently clear to view any attempted manipulation of the recorded data.

   (ii) The table games drop box storage rack or area shall be monitored by either a dedicated camera or a motion-detector activated camera.

2. The surveillance system shall possess the capability to monitor and record the soft count room, including all doors to the room, all drop boxes, safes, and counting surfaces, and all count team personnel. The counting surface area shall be continuously monitored by a dedicated camera during the soft count. For count rooms utilizing currency counters and currency sorters, the surveillance system shall possess the capability to monitor and record all areas where currency is sorted, stacked, counted, verified or stored during the count process. Coverage of the
currency counting machines and currency sorting machines shall be sufficiently clear to view the currency input, output and reject areas.

3. The surveillance system shall audibly and visually record the soft count and the hard count process.

4. Minimum camera requirements:

   (i) At least one (1) fixed position overhead camera configured to view every transaction area; plus,

   (ii) At least one (1) PTZ dome camera to enable monitoring of other activities within the count room and chip bank areas.

(e) Card Storage and Pre-shuffling Room

1. Card storage and other sensitive gaming equipment storage areas shall be fitted with fixed position cameras.

2. Pre-shuffle card rooms shall be fitted with fixed cameras over shuffling areas and PTZ dome cameras to enable monitoring of other activities within these rooms.

(f) Security Offices

The casino surveillance system shall possess the capability to monitor and record, in both audio and video, the area of any security office or other room in which persons may be detained by casino security personnel. A notice shall be posted in the security office or other room advising all persons that the area is under video and audio surveillance. When a person is detained by casino security personnel in the casino security office, the detention and any questioning, shall be recorded. A person is considered to be detained when the person has been detained by casino security personnel and confined in the casino security office in such a manner as to deprive him of the ability to leave voluntarily.

(g) Entrances and Exits

Each entrance and exit point to the casino premises shall be fitted with a combination of fixed position cameras and PTZ dome cameras in order to record persons entering and leaving the casino premises.

(h) Lifts and Escalators

1. Each elevator car within the casino premises shall be fitted with a fixed position camera located in a position to monitor persons entering and leaving the lift, and to monitor the lift control panel.
2. Each escalator within the casino premises shall be fitted with a fixed position camera located at the exit point of the escalator to enable monitoring of patron and staff movements.

(i) Service Areas

Critical service areas including computer rooms, IT hub rooms and other service areas deemed critical to the operation of the casino shall be fitted with fixed position cameras to monitor and record activities in the areas.

(j) General Public Areas

A number of PTZ dome cameras shall be installed throughout general public areas to enable monitoring and tracking of patrons and staff without the need to divert gaming specific cameras.

(k) Back of House Areas

A combination of fixed and PTZ dome cameras shall be installed throughout the back of house areas to monitor the activities and track the movements of staff, contractors and visitors.

(l) Cash, Chips and Cards Delivery Routes

All delivery and transfer routes for cash, gaming chips and playing cards shall be fitted with a combination of fixed and PTZ dome cameras to monitor deliveries and transfers.

(m) Car parks, Roadways and External Areas

A combination of fixed and PTZ dome cameras shall be installed throughout car parks, Porte cochere and other external areas of the casino premises in order to monitor traffic movements and other activities in these areas.

(n) Other Aspects for Surveillance Coverage

The surveillance system shall be capable of providing a reasonably clear coverage of all of the following:

1. Activity by players and employees that may constitute cheating or stealing.

2. Failure of employees to follow proper procedures and internal controls.

3. Treatment of disorderly persons.

5. Arrests and evictions.

6. Treatment of ill or injured patrons.

7. Activities of detainees in a temporary holding area.

Section 8. Minimum Requirements for Video Transmission System

The transmission system for camera video signals shall be a combination of traditional base band video transmission for live viewing and MPEG-4 video streaming across the surveillance data network for digital recording purposes.

Section 9. Minimum Requirements for Surveillance Data Network

(a) An extensive ethernet data network consisting of multiple data switching units and high speed fibre optic data links shall be installed between each of the IDF equipment rooms and the surveillance server room.

(b) The data network shall be dedicated to the transmission of the surveillance system video and control signals.

(c) Data switching units shall include multi-level redundancy and load sharing redundant interconnecting links for a high speed, high capacity, robust and fault tolerant video transmission network.

Section 10. Minimum Requirements for Surveillance Monitoring and Control Rooms

(a) Licensee’s Surveillance Monitoring and Control Room

For Casinos with at least 100 gaming tables plus at least 200 electronic gaming machines:

1. The Surveillance Monitoring and Control Room shall consist of:

   (i) Fifteen (15) Operator consoles
   (ii) Five (5) Supervisor consoles
   (iii) One (1) console configured for review purposes

2. The Security Control Room shall consist of:

   (i) Operator consoles
   (ii) Supervisor consoles
3. Each Operator console shall consist of the following equipment:

(i) Five (5) x 22" Video Monitors
(ii) Four (4) x 32" Wall Mounted Monitors
(iii) One (1) x Operator PC Workstation
(iv) Two (2) x CCTV Desktop keyboard/joystick
(v) Telephone handsets and radios

For Casinos with 1 to 99 gaming tables plus 1 to 199 electronic gaming machines:

1. The Surveillance Monitoring and Control Room shall consist of:

(i) Three (3) Operator consoles
(ii) One (1) Supervisor consoles
(iii) One (1) console configured for review purposes

2. The Security Control Room shall consist of:

(i) Operator consoles
(ii) Supervisor consoles

3. Each Operator console shall consist of the following equipment:

(i) Three (3) x 22" Video Monitors
(ii) Two (2) x 32" Wall Mounted Monitors
(iii) One (1) x Operator PC Workstation
(iv) One (1) x CCTV Desktop keyboard/joystick
(v) Telephone handsets and radios

(b) PAGCOR Monitoring Team Monitoring and Control Room

1. The Licensee shall provide the PAGCOR Monitoring Team with a special monitoring room solely dedicated for such purpose with the capability to observe, monitor and record activities within and in the immediate vicinity of any casino premises, and such installation, device or equipment shall be under the control of PAGCOR and is equipped with surveillance equipment and adjuncts that are compliant with the minimum requirements stated in these regulations.

2. The Monitoring Room shall comply with the following requirements:

(i) Room size:

For Casinos with at least 100 gaming tables plus at least 200 electronic gaming machines:
Room size shall be at least thirty-five (35) square meters, fully air-conditioned with comfort room and pantry.

For Casinos with at 1 to 99 gaming tables plus at 1 to 199 electronic gaming machines:

Room size shall be at least twenty (20) square meters, fully air-conditioned with comfort room and pantry.

(ii) CCTV Equipment and Paraphernalia:

For Casinos with at least 100 gaming tables plus at least 200 electronic gaming machines:

- Three (3) control panels complete with peripherals and adjuncts, to monitor the Non-High Roller, High Roller and Junket gaming areas.
- One (1) control panel complete with peripherals and adjuncts, to monitor Cages, cashier booths, chip banks and soft count room.
- Three (3) video recorders (DVR or NVR) for every 1 control panel. The video recorders must have at least 3 Terabyte recording storage.
- Two (2) units of 42” colored monitor for every 1 control panel, with capability to provide six (6) workspace (16-channel per workspace), capable to input ninety-six (96) cameras.
- 1 digital and 1 analog keyboards for every 1 control panel.
- Three (3) units of 19” colored master monitors for every 1 control panel (for live viewing and patching of incident viewing).
- 1 unit of computer desktop for every 1 control panel, for monitoring of Fill and Credit transactions and other surveillance coverage.
- 1 unit of computer desktop with internet access for surveillance administrative work and for communication and storage of important reports/incidents.
- 1 video printer for printing images.
- 1 computer printer with copier/scanner.

For Casinos with at least 1 to 99 gaming tables plus 1 to 199 electronic gaming machines:

- One (1) control panels complete with peripherals and adjuncts, to monitor the Non-High Roller, High Roller and Junket gaming areas.
The document outlines the requirements for digital video recording systems in a casino setting, including the following items for each control panel:

- One control panel complete with peripherals and adjoints, to monitor Cages, cashier booths, chip banks and soft count room.
- One video recorder (DVR or NVR) for every 1 control panel. The video recorders must have at least 3 Terabyte recording storage.
- One unit of 42" colored monitor for every 1 control panel, with capability to provide six (6) workspace (16-channel per workspace), capable to input ninety-six (96) cameras.
- 1 digital and 1 analog keyboards for every 1 control panel.
- Three (3) units of 19" colored master monitors for every 1 control panel (for live viewing and patching of incident viewing).
- 1 unit of computer desktop, for monitoring of Fill and Credit transactions and other surveillance coverage.
- 1 unit of computer desktop with internet access for surveillance administrative work and for communication and storage of important reports/incidents.
- 1 video printer for printing images.
- 1 computer printer with copier/scanner.

(iii) Other Logistical Requirements:

- AMANO Electronic Time Recorder.
- Automatic Voltage Regulators (AVRs) sufficient for the equipment in the PAGCOR Monitoring Room.
- Independent power supply for the equipment in case of brown out or power outage.
- 1 unit Emergency Light.
- Communication lines:
  - Quantity of telephone lines as required by the PAGCOR Monitoring Team; and,
  - 1 unit Fax machine with landline.

Section 11. Minimum Requirements for Digital Video Recording

(a) All Digital Video Recording (DVR) equipment and systems shall:

1. Be capable of recording and thereafter, being viewed, at a minimum of 30 images per second, full screen, in real time.

2. Have visual resolution of sufficient clarity in 4CIF resolution.
3. Maintain for a period of not less than fourteen (14) days, all images obtained from the video cameras and video recordings prior to being overwritten.

4. Have a failure notification system that provides an audible, as well as a visual notification of any failure in the surveillance system or the DVR media storage system.

5. Have a media storage system that is configured so that a failure of any single component will not result in the loss of any data from the media storage system.

6. For areas where gaming is conducted, cameras not specifically addressed by the minimum surveillance requirements in these regulations shall provide a minimum of seven and one half (7.5), full screen frames per second.

(b) No less than one-half of the video input channels of a DVR shall be open as back-up inputs in case of failure so that Licensees can switch video inputs instantly to avoid losing any recording time. For instance, no more than eight (8) cameras shall be required in the first stage of concentration for a sixteen (16) channel DVR, unless the Licensee has a fault tolerant or redundant system so there is no loss of data in the event of a failure of a single first stage of concentration. Similarly, no more than four (4) cameras shall be used in an eight-channel DVR to attain redundancy.

(c) Access, or the ability to access, a surveillance system using DVRs, from any location outside of the surveillance room, shall be disclosed to PAGCOR. The Licensee shall set forth the location and to whom access is being provided, other than surveillance personnel and key employees, and shall certify that the transmission is encrypted, fire walled on both ends and password protected.

(d) All digital video disks or other storage media produced from the DVR system shall contain the data with the time and date it was recorded superimposed, the media player that has the software necessary to view the DVR images, as well as a video verification encryption code (also known as a watermark).

(e) A video verification encryption code (watermark), shall be submitted to PAGCOR, at no cost to PAGCOR, before PAGCOR’s inspection and approval of the DVR system.

(f) Any failure of a DVR storage media system, shall be repaired or replaced within eight (8) hours of the failure.

(g) All DVR equipment shall be located in the surveillance room. The Licensee shall be ultimately responsible for its proper operation and maintenance.
(h) The Licensee shall immediately provide written notification to PAGCOR if any portion of its surveillance system is changed from an analog to a DVR format, setting forth what the change will be, when the change will occur, and how the change will affect the surveillance system as a whole.

(i) PAGCOR, in its sole discretion may waive one or more of the requirements of this section upon good cause shown.

Section 12. Minimum Requirements for Surveillance Records

(a) All video recordings of coverage shall be retained for a minimum of fourteen (14) days, except for recordings of detentions and questioning by security personnel, which shall be retained for a minimum of thirty (30) days.

(b) Each Licensee shall include in its written surveillance system plan and comply with a procedure for the storage and identification of all video recordings it is required to retain.

(c) The video recording of a recorded event shall be provided to PAGCOR upon request. At the request and expense of the Licensee, a copy of the event will be provided to the Licensee by PAGCOR.

(d) Licensees shall have the capability to produce a still copy or photograph of the images depicted on a video recording, which shall be provided to PAGCOR upon request. This may be accomplished using a video printer, still camera or other available means.

(e) Each Licensee shall maintain a log that documents each malfunction and repair of the surveillance system (as defined in this standard). The log shall state the time, date and nature of each malfunction, the efforts expended to repair the malfunction and the date of each effort, the reasons for any delays in repairing the malfunction, the date the malfunction is repaired and where applicable, any alternative security measures that were taken. The log should also reference, by date and time, any communication with the PMT concerning any malfunction or corrective action. The log shall be retained for a minimum of 1 year after the date of the last entry in it.

Section 13. PAGCOR may request for recordings

(a) A Licensee shall, immediately upon request by the PAGCOR Monitoring Team:
1. provide a copy of any recorded image or video recording by the casino surveillance system, in a digitized and compressed DVD format disc; and

2. if required to do so, attend before the PAGCOR Monitoring Team and answer such questions or provide such information with respect to the recorded image or video recording as the inspector may consider necessary.

(b) PAGCOR may keep the copy of any recorded image or video recording provided to it under subsection (a).

Section 14. Logs to be maintained at the Licensee’s Surveillance Monitoring and Control Room

(a) The Licensee shall maintain a daily surveillance log and a visitors log inside the Surveillance Monitoring and Control Room.

(b) The daily surveillance log shall:

1. Be continuously maintained and updated by surveillance personnel for every shift;
2. Be chronological;
3. Contain at a minimum the following information:

   (i) Identity of the surveillance personnel each time they enter or depart the Surveillance Monitoring and Control Room, and the reason for such entry or departure;
   (ii) The date and time of each activity logged;
   (iii) Name and position of the surveillance personnel making the log;
   (iv) Summary of the activity being logged;
   (v) Detailed description of the surveillance record covering the activity;
   (vi) Notification of any maintenance or repair of any gaming equipment or paraphernalia or money handling equipment;
   (vii) Drop box exchanges;
   (viii) Electronic gaming machines drop exchanges;
   (ix) Movement or transfer of cash, chips, tokens, playing cards or dice.
   (x) Any detention or questioning of patrons or employees by the Security department, including the identity of the patrons or employees and the Security department personnel involved;
   (xi) The beginning, end, and any interruption of the soft count;
(xii) The beginning, end and any interruption of the hard count;
(xiii) An observed violation of any of PAGCOR regulations or of the Licensee’s internal control policies, guidelines and procedures;
(xiv) Observed criminal activity;
(xv) A significant telephone call or radio transmission;
(xvi) An emergency activity;
(xvii) Other logs as may be deemed necessary by the surveillance personnel.

(c) The visitors log shall:

1. Indicate the name and signature of a person other than the surveillance personnel who accesses the Surveillance Monitoring and Control Room;

2. State the department or company the visitor represents;

3. State the reason for access to the Surveillance Monitoring and Control Room; and

4. Record the date and time of arrival and departure from the Surveillance Monitoring and Control Room.

Section 15. PAGCOR has the power to require temporary installation or removal of surveillance installation, device or equipment

(a) PAGCOR may, by a written direction, require a Licensee to:

1. install or remove any surveillance installation, device or equipment or make any other change to any part of the casino surveillance system for a specified period; and

2. within seven (7) days from the date the direction is given, submit to PAGCOR a revised surveillance plan (comprising the documents referred to in regulation III showing the installation, removal or other change required to be made, and the Licensee shall comply with such direction.

(b) Regulation (a) 2 shall not apply to a Licensee to the extent that it complies with a direction given by PAGCOR under subsection (a) 1 for the specified period.

(c) An approved surveillance plan shall be revised for the specified period to the extent that any revised surveillance plan is submitted under subsection (a) 2.
Section 16. No tampering with the Licensee’s Surveillance System and PAGCOR’s Surveillance System

(a) No person shall tamper with or do anything so as to compromise or adversely affect any image or video recorded by, or the proper functioning of, any part of the casino surveillance system or PAGCOR’s surveillance system.

(b) Any person who contravenes subsection (a) shall be subject to disciplinary action.

Section 17. Duties of licensed gaming employee in relation to the Surveillance System and approved surveillance plan

(a) It shall be a condition of a gaming employee license that a licensed gaming employee shall not:

1. do anything to cause the casino surveillance system to fail to satisfy the performance requirements applicable to it;

2. make any change to the casino surveillance system or to the approved surveillance plan without the authorization of the Licensee; or

3. being a person in charge of the casino surveillance system, make, authorize or permit any change to the casino surveillance system or the approved surveillance plan without first obtaining the approval of PAGCOR for the change.

(b) Any licensed gaming employee who contravenes subsection (a) 1, 2 or 3 shall be liable to disciplinary action.

Section 18. Power of the PAGCOR Monitoring Team to stop the game or casino operations until corrective action taken

Where the PAGCOR Monitoring Team knows or reasonably suspects that:

(a) an offence under Section 15 (a) has been committed;

(b) there is a malfunction or fault in any part of the casino surveillance system;

(c) any part of the casino surveillance system does not satisfy the performance requirements applicable to it; or

(d) any part of the casino surveillance system is not in accordance with the approved surveillance plan, the PAGCOR Monitoring Team may stop any game or any operations of a casino the effective monitoring or
accurate recording of which has been, or may be, compromised or adversely affected until the PAGCOR Monitoring Team is satisfied that the necessary corrective action has been taken.

Section 19. Power to give directions and take disciplinary action

(a) If any Licensee, not acting under a direction referred to in Section 14:

1. installs, operates or maintains a casino surveillance system other than in accordance with the approved surveillance plan; or

2. makes any change to the casino surveillance system or to the approved surveillance plan without first obtaining the approval of PAGCOR for the change in accordance with these Regulations, PAGCOR may give the Licensee such written directions concerning the casino surveillance system as it thinks fit, including:

   (i) in a case where the casino surveillance system nevertheless satisfies the performance requirements applicable to it, a direction to submit a revised surveillance plan for approval or an application for approval of the change, as the case may be, without delay;

   (ii) in a case where the casino surveillance system fails to satisfy the performance requirements applicable to it, a direction to reinstate the casino surveillance system in accordance with the approved surveillance plan without delay; or

   (iii) in a case where there has been tampering with, or a malfunction or fault in, any part of the casino surveillance system, a direction to take such corrective action (including replacement or repair) as may be necessary to rectify the malfunction, fault or alteration within a specified period, and the Licensee shall comply with such direction.

(b) Without prejudice to the right of PAGCOR to give directions under subsection (a), any Licensee which:

1. contravenes Section 1, 2, 3 or 4 (except where the contravention occurs by virtue of the Licensee complying with a direction under Section 14);

2. fails to comply with a request of PAGCOR under Section 14; or

3. contravenes subsection (a) or Section 14 by failing to comply with a direction given by PAGCOR thereunder, shall be liable to disciplinary action.
GAMING CHIPS AND PLAQUES

Section 1. Approval of gaming chips and plaques

(a) Artworks for gaming chips and plaques shall be submitted to PAGCOR for approval prior to purchase.

(b) Artworks for gaming chips and plaques, and modifications to previously-approved chips or plaques shall be submitted to PAGCOR for approval. The Licensee shall submit a duly accomplished Gaming Chips and Plaques Request and Approval Form (Form 15) to GLDD. Each application shall include, in addition to such other items or information as PAGCOR may require:

1. Gaming Chips:

   An exact drawing, in color, of each side and the edge of the proposed chip, drawn to actual size or drawn to larger than actual size and in scale, and showing the words, designs, graphics, measurements of the proposed chip in each dimension, and the security features contained on the gaming chip;

2. Gaming Plaques:

   An exact drawing/detailed schematic, in color, of the proposed gaming plaque depicting the actual size and, as appropriate, location of the following:

   (i) Each face;
   (ii) The edge; and
   (iii) Any colors, words, designs, graphics and security features contained on the gaming plaque;

3. Written specifications for the proposed chips or plaques;

4. The name and address of a manufacturer or supplier accredited
by the Licensee under PAGCOR-approved accreditation standards and guidelines under Regulation 11;

5. The Licensee’s intended use for the proposed chips or plaques;

6. A certification under oath or notarized affirmation, executed by an authorized signatory of the gaming chip or plaque manufacturer, that it has a written system of internal control that describes in detail the current administrative, accounting and security procedures which are utilized in the manufacture, storage and shipment of the gaming chips, plaques and related materials.

7. A copy of the written internal control system, which shall include at a minimum, a detailed, narrative description of the procedures and controls implemented to ensure the integrity and security of the manufacturing process, from design through shipment.

8. A certification from the Licensee stating that it has conducted due diligence on and is satisfied with the gaming chip/plaque manufacturer’s system of internal control including but not limited to those procedures and controls designed specifically to:

   (i) Provide for the secure storage or destruction of all pre-production prototypes, samples, production rejects and other nonsalable product.

   (ii) Provide security over the finished artwork, hubs, plates, dies, molds, stamps and other related items which are used in the manufacturing process.

   (iii) Prevent the unauthorized removal of product from the production facility through the utilization of security devices such as metal detectors, and surveillance cameras.

   (iv) Restrict access to raw materials, work-in-process, and finished goods inventories to authorized personnel.

   (v) Establish procedures for documenting approval of production runs.

   (vi) Establish and maintain a perpetual inventory system which adequately documents the flow of materials through the manufacturing process.

   (vii) Establish procedures which reconcile the raw material used to the finished product on a job-by-job basis. Significant variances are to be documented, investigated by management personnel, and immediately reported to
PAGCOR and to the Licensee who authorized the manufacturer to produce the chips or plaques.

(viii) Provide for quarterly physical inventory counts to be performed by individual(s) independent of the manufacturing process which are reconciled to the perpetual inventory records. Significant variances are to be documented, investigated by management personnel, and immediately reported to PAGCOR.

(ix) Establish a framework of procedures which provide for the security and accountability of products and materials sent to or received from subcontractors or satellite production facilities.

(x) Document controls over the shipment of finished product, and,

(xi) Provide such other or additional information as PAGCOR may require.

9. Items 5, 6, 7 and 8 are required for the initial purchase order only. These items need not be submitted for repeat orders.

(c) PAGCOR may in writing approve variations from the specific requirements of this regulation if in the opinion of PAGCOR the alternative controls and procedures meet the objectives of this regulation.

(d) Any application submitted pursuant to this Section shall be signed by the Licensee’s authorized signatory.

(e) Gaming chips and plaques should be unique to a specific casino site.

(f) A Licensee shall not issue any gaming chips or plaques for use in its casino, or redeem any such plaques or chips, unless the plaques or chips have been approved in writing by PAGCOR. A Licensee shall not issue any plaques or chips for use in its casino, or redeem any such plaques or chips, that are modifications of plaques or chips previously approved by PAGCOR, unless the modifications have been approved in writing by PAGCOR.

(g) If, after receiving and reviewing the items and information described by this regulation, PAGCOR is satisfied that the proposed chips, plaques and related information conform to the requirements of this regulation, PAGCOR shall notify the Licensee in writing and the Licensee shall provide a sample of the proposed plaques or chips in final, manufactured form or a denatured sample of such. If PAGCOR is satisfied that the sample conforms with the requirements of this regulation and with the information submitted with the Licensee’s
application, PAGCOR shall approve the proposed chips or plaques and notify the Licensee in writing. PAGCOR may retain the sample chips and plaques submitted pursuant to this subsection.

(h) The Licensee shall submit to PAGCOR internal control procedures which document the distribution, redemption, receipt and inventory of gaming chips and plaques.

Section 2. Specifications for gaming chips and plaques

(a) Gaming Chips and plaques shall be designed, manufactured, and constructed so as to prevent counterfeiting of the chips and plaques to the extent reasonably possible. Chips and plaques shall not deceptively resemble any current or past coinage of the Philippines or any other nation.

(b) In addition to such other specifications as PAGCOR may approve:

1. The name of the issuing Licensed Casino shall be inscribed on each side of each chip and plaque;

2. The value of the chip or plaque shall be inscribed on each side of each chip and plaque, other than chips used exclusively at roulette and other similar games as may be decided by the Licensee;

3. Each chip shall be designed so that when stacked with chips and tokens of other denominations and viewed on closed-circuit television, the denomination of the chip can be distinguished from that of the other chips and plaques in the stack.

Specifications for gaming chips

Unless PAGCOR approves otherwise, chips shall be disc-shaped, shall be at least 0.130 inch (3.3 millimeters) thick, and shall have a diameter within the following range:

1. Philippine Peso Cash Chips:
   - 38 mm to 45 mm for Php5 to PhP50,000
   - 43 mm to 50 mm for Php100,000 to PhP500,000
   - 45 mm to 50 mm for Php1,000,000 and up.

2. Philippine Peso Non-Negotiable Chips:
   - 38 mm to 45 mm for Php5 to PhP50,000
   - 43 mm to 50 mm for Php100,000 to PhP500,000
   - 45 mm to 50 mm for Php1,000,000 and up.
3. **Hong Kong Dollars Cash Chips:**
   - 39 mm to 45 mm for HKD1 to HKD10,000
   - 45 mm to 50 mm for HKD50,000 and up

4. **Hong Kong Dollars Non-Negotiable Chips:**
   - 39 mm to 45 mm for HKD1 to HKD10,000
   - 45 mm to 50 mm for HKD50,000 and up

5. **United States Dollars Cash Chips:**
   - 39 mm to 43 mm for US$.25 to US$500
   - 43 mm to 50 mm for US$1,000 to US$10,000

6. **United States Dollars Non-Negotiable Chips:**
   - 39 mm to 43 mm for US$.25 to US$500
   - 43 mm to 50 mm for US$1,000 to US$10,000

**Specifications for gaming plaques**

1. Each gaming plaque shall be a solid, one-piece object constructed entirely of plastic or any other comparable material and shall have no more than ten, and at least two, smooth, plane surfaces. At least two of the plane surfaces, each to be known as a "face," shall be opposite and parallel to each other and identical in shape, which shall be a square, rectangle or ellipse. All other surfaces of a gaming plaque shall be known collectively as the "edge."

2. Each face of a square gaming plaque shall measure no smaller than six square inches. Each face of a rectangular or elliptical gaming plaque shall measure no smaller than two and a half inches in length by one and a half inches in width. In the case of an elliptical gaming plaque, the length and width of the plaque shall be measured at its axes.

3. Each gaming plaque issued by a casino licensee shall be designed and manufactured with sufficient graphics or other security measures so as to prevent, to the greatest extent possible, the counterfeiting of such gaming plaque.

4. Each Licensee shall be authorized to issue and use gaming plaques in such quantities as the Licensee may deem proper to conduct gaming in its casino. Each gaming plaque of a specific denomination utilized by a Licensee shall be in a shape and of a
size, as approved by PAGCOR, which is identical to the shape and size of all other gaming plaques of that denomination issued by that Licensee. The size and shape of each denomination of gaming plaque issued by a Licensee shall be readily distinguishable from the size and shape of every other denomination of gaming plaque issued by that Licensee.

5. Each gaming plaque issued by a casino licensee shall contain certain identifying characteristics which shall appear at least once on each face of the gaming plaque and shall be applied in a manner which ensures that each such characteristic shall be clearly visible and remain a permanent part of the gaming plaque. These characteristics shall, at a minimum, include:

(i) The denomination of the gaming plaque, expressed in numbers of no less than three-eighths inch in height;
(ii) The name of the issuing Licensed Casino, which shall be applied in such a manner so as to be visible to surveillance employees using the closed circuit television system; and
(iii) A unique serial number.

Section 3. Use of gaming chips and plaques

(a) Chips and plaques are solely representatives of value which evidence a debt owed to their custodian by the Licensee that issued them and are not the property of anyone other than that of the Licensee.

(b) The Licensee that uses chips or plaques at its casino shall:

1. Comply with all applicable statutes, regulations, an policies of PAGCOR pertaining to plaques or chips;
2. Issue plaques and chips only to patrons of its casino and only at their request;
3. Promptly redeem its own plaques and chips from its patrons by cash or its equivalent as may be requested by its patron;
4. Post conspicuous signs at its establishment notifying patrons that:
   (i) It is prohibited to take or bring plaques and chips out of the casino premises; and
   (ii) That the plaques and chips issued by the Licensee are the sole property of the Licensee.
5. Take reasonable steps, including examining plaques and chips and segregating those issued by other Licensees to prevent the
issuance to its patrons of plaques and chips issued by another Licensee.

(c) A Licensee shall not accept plaques or chips as payment for any goods or services offered at the Licensee’s casino with the exception of the specific use for which the plaques or chips were issued, and shall not give plaques or chips as change in any other transaction.

(d) A Licensee shall not knowingly issue, use, permit the use of, or redeem plaques or chips issued by another Licensee. A Licensee shall cause to be posted and remain posted in a prominent place on the front of the cashiers’ cage or any satellite cage a sign that reads as follows:

"Gaming chips or plaques issued by another casino shall not be used, exchanged or redeemed in this casino."

(e) A Licensee may remove a set of gaming chips in use from circulation whenever it has reason to believe the casino has accepted counterfeit chips or whenever any other impropriety or defect in the utilization of that set of chips makes removal of the chips in circulation necessary. An approved back-up set of value chips or non-value chips shall be placed into circulation whenever a gaming chip in circulation is removed.

(f) Whenever gaming chips in circulation are removed from play, the Licensee shall immediately notify PAGCOR and the reason for removal.

(g) A Licensee shall ensure that at all times there is adequate security for all gaming chips and plaques in its possession.

Section 4. Redemption of discontinued gaming chips and plaques

(a) A Licensee that permanently removes from use or replaces approved plaques or chips at its Casino, or that ceases operating its casino because of closure of the establishment or any other reason, shall prepare a plan for redeeming discontinued plaques or chips that remain outstanding at the time of discontinuance. The Licensee shall submit the plan in writing to PAGCOR not later than thirty (30) days before the proposed removal, replacement, or closure, unless the closure or other cause for discontinuance of the plaques or chips cannot reasonably be anticipated, in which event the Licensee shall submit the plan as soon as reasonably practicable. PAGCOR may approve the plan or require reasonable modifications as a condition of approval. Upon approval of the plan, the Licensee shall implement the plan as approved.

(b) In addition to such other reasonable provisions as PAGCOR may approve or require, the plan shall provide for the:
1. Redemption of plaques or chips at the premises of the casino;

2. Conspicuous posting of notices regarding the discontinuance of the plaques or chips and of the redemption and the pertinent times at the Casino; and,

3. Destruction or such other disposition of the discontinued plaques or chips as PAGCOR may approve or require.

Section 5. Promotional and tournament chips

(a) As used in this section, “promotional chip” means a chip-like object issued by a Licensee for use in promotions or tournaments at the Licensee’s casino.

(b) The physical characteristics of promotional chips shall be sufficiently distinguishable from approved design specifications of any gaming chip issued by any Licensee so as to reasonably ensure that such promotional chips will not be confused with authorized gaming chips. At a minimum, promotional chips shall:

1. Be unique in terms of size or color;
2. Bear no edge designs unique to gaming chips;
3. Bear the name of the issuing Licensed Casino; and,
4. Each side of each chip shall conspicuously bear the inscription “No Cash Value”.

(c) A Licensee shall not use any promotional and tournament chips in its casino unless the chips have been approved in writing by PAGCOR. A Licensee shall not use any chips in its casino that are modifications of chips previously approved by PAGCOR, unless the modifications have been approved in writing by PAGCOR. The requirements for approval under Section 1 shall likewise apply to promotional and tournament chips.

(d) Promotional chips shall not be used, and Licensees shall not permit their use, in transactions other than the promotions or tournaments for which they are issued; and,

(e) The provisions of Section 4 (Redemption of discontinued gaming chips and plaques) shall not apply to promotional chips.

Section 6. Other instrumentalities

Other instrumentalities with which gaming is conducted shall be designed, manufactured, approved, used, discontinued, destroyed, or otherwise disposed of in accordance with the provisions of this regulation applicable to
plaques and chips, except as follows:

(a) Such other instrumentalities shall be of such shape, size, and design and have such other specifications as PAGCOR may approve or require; and

(b) PAGCOR, in its sole and absolute discretion, may deny approval of instrumentalities other than plaques and chips or may grant approval subject to such conditions as it considers appropriate.

Section 7. Inventory, Security and Storage of Gaming Chips and Plaques

(a) After checking the gaming chips or plaques received, the Licensee shall cause to be recorded in a chip inventory ledger the denomination of the value chips and gaming plaques received, the number of each denomination of value/cashable chip and gaming plaque received, the number and description of all non-value chips received, the date of any such receipt, and the signatures of the employees who checked any such chips and plaques. If the gaming chips are not put into circulation, the ledger shall also identify the storage location.

(b) Any gaming chips not in circulation shall be stored in any of the following storage areas:

1. The casino vault; or,
2. The cashiers' cage;

(c) Whenever any gaming chips or plaques are taken from or returned to a storage area, the following information shall be recorded in the chip inventory ledger together with the date and signatures of the employees involved:

1. The number and amount for each denomination of value chip or gaming plaque removed or returned;
2. The number and description of the non-value chips removed or returned; and,
3. The specific storage area being entered;

(d) At the end of each trading day, a Licensee shall compute and record the unredeemed amount for each denomination of value chips and gaming plaques. At least once every 30 days, at a minimum, each Licensee shall inventory all sets of value chips and gaming plaques in its possession and shall record the result of such inventory in the chip inventory ledger. The procedures to be utilized to compute the unredeemed amount and to inventory value chips and gaming plaques shall be submitted to PAGCOR. A physical inventory of value chips and gaming plaques not in circulation shall only be required annually if the inventory procedures incorporate the sealing of the locked compartment.
Section 8. Counterfeit Gaming Chips and Plaques

(a) The Licensee shall assume full responsibility for any counterfeit gaming chips and plaques that are used, accepted or redeemed in the casino.

(b) Any loss resulting from such counterfeit gaming chips and plaques shall be solely for the account of and shouldered by the Licensee. PAGCOR shall not share in such loss. For the avoidance of doubt, the counterfeit gaming chips and plaques shall be treated as a sum received from the conduct of gaming and shall form part of Gross Gaming Revenues.
Section 1. Minimum Requirements for Playing Cards

(a) Playing cards shall be unique to a specific casino site.

(b) The playing cards for table games shall have dimensions of 3.5 inches (height) by 2.5 inches (width), or its equivalent in millimetres.

(c) The numbers, figures and all artworks in the front and back of a playing card shall be printed in portrait mode.

(d) The cut of each playing card shall be identical to every other playing card in the same deck.

(e) The front of each playing card shall indicate clearly the value of the card even when only a third of the card is visible.

(f) The back of each playing card shall be designed in such manner so as to diminish as far as possible the ability of any person to place concealed markings thereon.

(g) The back of each playing card shall bear the name or logo of the Licensee, or any other form of artwork that would indicate that the playing card belongs to a particular Licensee.

(h) The manufacturer’s name or a distinctive logo or other mark identifying the manufacturer shall be inscribed on the Ace of Spades.

(i) Each playing card shall be made of a material that, to the extent possible, does not result in: (a) multiple playing cards being bunched or stuck together; or (b) a person removing more than one playing card at a time from a card shoe when the stack is dealt.

(j) The material of each playing card shall allow the playing cards to be stacked and placed on a flat surface without the playing cards falling from the stack.
The material of each playing card shall be material which allows the smooth shuffling or dealing of cards whilst in any approved shuffler or card shoe respectively, and shall not cause the approved shuffler or card shoe to jam or malfunction.

The suit and value of each playing card shall be clearly visible and identifiable to casino employees (including when viewed using any surveillance system of a Licensee).

All decks of cards shall be one (1) complete standard deck of 52 cards in 4 suits. The 4 suits shall be hearts, diamonds, clubs, and spades. Each suit shall consist of all of the following numerical cards:

1. Two (2) to ten (10).
2. A jack.
3. A queen.
4. A king.
5. An ace.
6. In the hearts suit, the hearts shall be a burgundy red color.
7. In the diamonds suit, the diamond pips shall be a burgundy red color.
8. In the spades suit, the spades shall be a black color.
9. In the clubs suit, the trefoil-shaped figure shall be a black color.

The build quality of playing cards should be good enough to withstand at least six (6) cycles of use.

Except for pre-shuffled playing cards as may be allowed by PAGCOR, all finished card decks are to be packaged using a cellophane or shrink wrap in single deck boxes that have a tamper-resistant security seal and a tear band.

Section 2. Approval of playing cards

A Licensee shall not use any playing card in its casino premises, unless the playing card has been approved in writing by PAGCOR.

Artworks for playing cards shall be submitted to PAGCOR for approval prior to purchase.
Applications for approval of artworks of playing cards and modifications to previously-approved artworks for playing cards shall be submitted by the Licensee to PAGCOR. Each application shall include, in addition to such other items or information as PAGCOR may require:

1. Playing Cards Request and Approval Form duly accomplished by the Licensee’s authorized signatory (Form 16);

2. Artwork of the playing card showing the exact drawing, in color, of each side of the proposed playing card, drawn to actual size or drawn to larger than actual size and in scale, and showing the measurements of the proposed playing card in each dimension (height and width);

3. Written specifications for the proposed playing card;

4. The name and address of the manufacturer or supplier accredited by the Licensee under PAGCOR-approved accreditation standards and guidelines under Regulation 11;

5. The intended use for the proposed playing card;

6. A certification under oath or notarized affirmation, executed by an authorized signatory of the playing card manufacturer, that it has a written system of internal control that describes in detail the current administrative, accounting and security procedures which are utilized in the manufacture, storage and shipment of the playing card and related material;

7. A copy of the written internal control system, which shall include at a minimum, a detailed, narrative description of the procedures and controls implemented to ensure the integrity and security of the manufacturing process, from design through shipment; and

8. A certification from the Licensee stating that it has conducted due diligence on and is satisfied with the playing card manufacturer’s system of internal control including but not limited to those procedures and controls designed specifically to:

   (i) Provide for the secure storage or destruction of all pre-production prototypes, samples, production rejects and other nonsalable product.

   (ii) Provide security over the finished artwork, hubs, plates, dies, molds, stamps and other related items which are used in the manufacturing process.

   (iii) Prevent the unauthorized removal of product from the production facility through the utilization of security
devices such as detectors, and surveillance cameras.

(iv) Restrict access to raw materials, work-in-process, and finished goods inventories to authorized personnel.

(v) Establish procedures for documenting approval of production runs.

(vi) Establish and maintain a perpetual inventory system which adequately documents the flow of materials through the manufacturing process.

(vii) Establish procedures which reconcile the raw material used to the finished product on a job-by-job basis. The playing card manufacturer shall document and investigate significant variances, and shall immediately report these to PAGCOR and to the Licensee who authorized the manufacturer to produce the playing cards.

(viii) Provide for quarterly physical inventory counts to be performed by individual(s) independent of the manufacturing process which are reconciled to the perpetual inventory records. Significant variances are to be documented, investigated by management personnel, and immediately reported to PAGCOR.

(ix) Establish a framework of procedures which provide for the security and accountability of products and materials sent to or received from subcontractors or satellite production facilities.

(x) Document controls over the shipment of finished product.

(d) Any application submitted pursuant to this Section shall be signed by the chief executive officer, or other signatories as may be authorized by the Licensee.

(e) If, after receiving and reviewing the items and information described by this regulation, PAGCOR is satisfied that the proposed playing card and related information conform to the requirements of this regulation, PAGCOR shall affix its approval in the Request for Approval of Playing Cards Form.

(f) The Licensee shall provide PAGCOR two (2) decks of playing cards in final, manufactured form. The samples provided to PAGCOR should be marked with a security feature which shall void it from play. PAGCOR shall retain the sample playing cards submitted pursuant to this subsection.

(g) PAGCOR reserves the right to reject the proposed playing card in final,
manufactured form, if defects are found during physical inspection thereof.

(h) The Licensee shall submit its internal control procedures to PAGCOR which document the distribution, redemption, receipt and inventory of playing cards.

Section 3. Changes to playing cards

(a) A Licensee shall not use playing cards that are modifications of playing cards previously approved by PAGCOR, unless the modifications have been approved in writing by PAGCOR.

(b) Each request for approval under subsection (a) of a proposed change to the artwork or design of the playing card shall contain:

1. A duly accomplished Playing Cards Request and Approval Form (Form 16);
2. details of revisions that would have to be made on the approved playing card;
3. Revised artwork of the playing card showing the exact drawing, in color, of each side of the proposed playing card, drawn to actual size or drawn to larger than actual size and in scale, and showing the measurements of the proposed playing card in each dimension (height and width);
4. Written specifications for the proposed revised playing card.

Section 4. Utilization of Playing Cards

(a) Save for playing cards used at automated shuffle machines, under no circumstance should a Licensee use a deck of playing cards more than six (6) times.

(b) Except for pre-shuffled playing cards, card inspection shall be performed by the dealer prior to its use to ensure correctness and completeness of number and suits of cards in the deck. Card inspection shall entail the following:

1. Counting of cards in a deck
2. Sorting according to sequence and suits
3. Inspecting the front and back of each card for markings (i.e., flawed, scratched or marked)

(c) All cards (i.e., used, unused, damaged cards) to be removed from the casino floor shall be placed in a sealed carrier labelled with the table
number, date, and time and shall be signed by the dealer and Pit Supervisor assigned to that table/pit/area. 

(d) Playing cards may be removed at any time during the day if there is any indication of tampering, flaws, scratches, marks or other defects that might affect the integrity or fairness of the game.

Section 5. Pre-shuffled Playing Cards

(a) The Licensee’s use of pre-shuffled decks of cards in its casino operations shall be subject to PAGCOR’s approval.

(b) In addition to the submission requirements listed in Section 2, the Licensee shall submit a certification stating that it has conducted due diligence on and is satisfied with the playing card manufacturer’s system of randomness generator and internal control system and procedures for pre-shuffled playing cards.

(c) Pre-shuffled playing cards are to be packaged using a cellophane or shrink wrap in boxes that have a tamper-resistant security seal and a tear band.

(d) The Licensee shall assume full responsibility for any anomaly or irregularity that may arise from the use of such pre-shuffled decks of cards.

(e) In the event that said anomaly or irregularity mentioned in subsection (d) above results in a loss, the Licensee shall solely shoulder all resulting losses. PAGCOR shall not share in such losses.

Section 6. Inventory and Storage of Playing Cards

(a) As stated in Regulation 10, Section 4, new playing cards received shall be inspected and a physical inventory shall be conducted by the Licensee and a representative from the PAGCOR Monitoring Team (PMT).

(b) The Licensee shall cause to be recorded in a playing card inventory log/ledger, the quantity of new playing cards per color/artwork design, date of such receipt, reference Commercial Invoice and the signature of employees who checked any such playing cards.

(c) The Licensee shall likewise keep a separate record of all playing card movements/activity to and from the card vault which record shall contain the following:

1. Beginning Inventory
2. Received from the card vault
3. Distributed to casino floor
4. Used card from the casino floor
5. Destroyed
6. Ending Inventory

Movement of playing cards from/to card storage room/vault and card room shall be witnessed by Security personnel and shall be covered by Surveillance at all times.

(d) When returned to storage, all collected used and unused cards shall be inspected for tampering, marks, alterations, missing or additional cards or anything that might indicate unfair play. Evidence of tampering, marks, alterations, missing or additional cards or anything that might indicate unfair play discovered at any time, will be reported to Table Games, Surveillance, Casino Accounting and Internal Audit.

(e) The procedures for inspecting all decks shall, at a minimum, include:

1. Sorting cards sequentially by suit
2. Inspecting the sides of the cards for crimps, bends, cuts and shaving
3. Inspecting the front and back of all cards for consistent shading and coloring

(f) If during the inspection procedures required in the above subsection, one or more cards in a deck are determined to be unsuitable for continued use, said cards shall be placed in a sealed carrier and a Card Discrepancy Report shall be completed.

(g) Upon completion of the inspection procedures required above, each deck of cards which is determined suitable for continued use shall be placed in sequential order, repackaged, and returned to the pit stand for subsequent use. If a deck has any missing cards, the individual who repackages the cards shall indicate the need for the appropriate replacement cards.

(h) New and used playing cards shall be stored in a secure location (i.e., card vault) requiring dual key access and shall only be accessed by designated accountable casino key personnel from the card room and security. A system of internal control shall be employed by the Licensee for the handling and control of keys.

(i) Excess decks issued to the casino floor shall be placed in a designated secure location. Keys to said location shall be in possession of an accountable casino key employee (e.g., Pit Manager, Operations Manager).

(j) The daily documentation on the cards movement to/from card vault/storage to the casino floor shall be submitted to Casino Accounting for daily verification and retention.
(k) On a quarterly basis, a physical count shall be conducted by key casino personnel, in the presence of security, of all cards in the card vault/storage. The physical count shall be reconciled and verified against the cards distributed, the cards destroyed and cancelled, and the cards returned to the card vault/storage.

(l) Security personnel involved in the card handling procedures under this Section shall affix their signature in the card reconciliation sheets:

1. Upon issuance of decks of cards for opening;

2. Upon receipt of used and unused decks of cards at closing;

3. Upon unused decks of cards being delivered to the vault;

4. Upon used decks of cards being delivered to the reconciliation room; and,

5. After decks of cards are sorted for shredding.

(b) The Pull-out and Storage of Equipment Notification Form shall be signed by the Licensee’s authorized signatory.

(c) CMED shall conduct an inspection and inventory of the gaming equipment prior to the scheduled pull-out and transfer. The Licensee shall coordinate the schedule with the PAGCOR Monitoring Team at
least ten (10) calendar days prior to the scheduled inspection and inventory.

(d) The Licensee shall maintain a log of all gaming equipment pulled out and transferred from the gaming area to the Licensee's authorized storage area. The log shall contain the same information indicated under subsection (b) of Section 2 of this Regulation.

(e) No later than the 10th day of the following month, the Licensee shall submit the following to GLDD and CMED a log report of all gaming equipment pulled out and transferred from the first day up to the last day of the calendar month.

(f) On or before January 10 of the succeeding year, the Licensee shall submit an Annual Inventory Report of all gaming equipment pulled out from the gaming area and stored in the Licensee’s authorized storage area. The annual inventory report shall contain the information mentioned in subsection (b) under Section 2 of this Regulation.

Section 4. Pullout of Gaming Equipment from a casino licensee for transfer to another casino licensee

(a) A gaming equipment may be transferred from one casino licensee to another casino licensee provided that the casino licensee transferee shall henceforth assume full responsibility and accountability for the gaming equipment.

(b) The pull-out and transfer of a gaming equipment to and from various properties of a Licensee, as may be applicable, shall be subject to the guidelines under this section.

(c) Prior to the movement of a gaming equipment, the following shall seek first the approval of PAGCOR before effecting such movement:

1. Licensee causing such gaming equipment to be transported or moved (“transferor”); and,
2. Licensee transferee (“transferee”) receiving the gaming equipment.

(d) The Licensee transferor shall submit a duly accomplished Section A of the Pull-Out and Transfer Clearance Request and Approval Form (Form 20) to GLDD at least ten (10) calendar days prior to the scheduled pull-out and transfer.

Section A of the Pull-Out and Transfer Clearance Request and Approval Form shall contain the following information:

1. name of Licensee;
2. casino location;
3. type of gaming equipment to be transferred (i.e. gaming tables, EGMs, surveillance equipment, bill validator/acceptor, slot machine signages, casino management system hardware, shufflers, roulette wheel, money wheel, auxiliary table games and other gaming equipment);

4. list of equipment to be transferred with the following details:
   (i) manufacturer of the gaming equipment to be transferred;
   (ii) description of gaming equipment to be transferred;
   (iii) PAGCOR inventory tag number of the gaming equipment;
   (iv) EGM serial number;
   (v) EGM game name/theme; and
   (vi) quantity of gaming equipment to be transferred.

5. expected date of pull-out and transfer from the Licensee transferor casino location;

6. reason for pull-out and transfer;

7. name of Licensee transferee;

8. casino location;

9. Licensee transferor’s undertaking that it shall coordinate with the Compliance Monitoring and Enforcement Department for the conduct of inspection and inventory prior to the pull-out and transfer of the gaming equipment.

(e) The Pull-out and Transfer Clearance Request and Approval Form shall be signed by the Licensee’s authorized signatory.

(f) Upon GLDD’s receipt of the Pull-Out and Transfer Clearance Request and Approval Form with Sections A and B duly accomplished by the Licensee transferor and transferee respectively, a reference serial number of the Pull-Out and Transfer Clearance Request and Approval Form shall be provided by GLDD upon approval of the request. GLDD shall furnish CMED with a copy of the duly approved Form.

(g) GLDD may reject the Pull-Out and Transfer Clearance Request and Approval Form if the information contained in the Form is incomplete or incorrect.

(h) CMED shall conduct an inspection and inventory of the gaming equipment on the following occasions:

1. prior to the Licensee transferor’s scheduled pull-out and transfer; and,
2. upon delivery of the gaming equipment to the Licensee transferee.

The Licensee shall coordinate the schedule with the PAGCOR Monitoring Team at least ten (10) days prior to the scheduled pull-out/delivery of the gaming equipment.
(i) The Licensee transferor and transferee shall comply with the inventory guidelines under Section 4 paragraphs (d)2. and (d)3. of Regulation 10.

Section 5. Pullout of Gaming Equipment from a Licensee for transfer to a supplier

(a) A gaming equipment may be returned by a Licensee to supplier’s warehouse in the Philippines provided that the supplier:

1. has a valid Certificate of Affiliation to possess gaming equipment and paraphernalia; and

2. assumes full responsibility and accountability for the gaming equipment.

(b) The pull-out of a gaming equipment from a Licensee for transfer to a supplier shall require the prior approval of PAGCOR. The Licensee shall submit a duly accomplished Pull-Out and Transfer to Supplier of Gaming Equipment Notification Form (Form 21) to GLDD at least one (1) business day prior to the scheduled pull-out and transfer.

Section A of the Form shall contain the following information:

1. name of Licensee;
2. casino location;
3. type of gaming equipment to be transferred (i.e. gaming tables, EGMs, surveillance equipment, bill validator/acceptor, slot machine signages, casino management system hardware, shufflers, roulette wheel, money wheel, auxiliary table games and other gaming equipment);
4. list of equipment to be transferred with the following details:
   (i) manufacturer of the gaming equipment to be transferred;
   (ii) description of gaming equipment to be transferred;
   (iii) PAGCOR inventory tag number of the gaming equipment;
   (iv) EGM serial number;
   (v) EGM game name/theme; and
   (vi) quantity of gaming equipment to be transferred.

5. expected date of pull-out and transfer from the Licensee;
6. reason for pull-out and transfer;
7. name of Supplier;
8. Licensee’s undertaking that it shall coordinate with the Compliance Monitoring and Enforcement Department for the conduct of inspection and inventory prior to the pull-out and transfer of the gaming equipment.

Section B of the Form contains the following:
1. confirmation by the supplier of its responsibility and accountability upon receipt of the gaming equipment; and,
2. the supplier’s office/warehouse is available to PAGCOR for inspection and inventory of gaming equipment at anytime that may be deemed necessary by PAGCOR.

(c) Section A of the Pull-out and Transfer to Supplier of Gaming Equipment Notification Form shall be signed by the Licensee’s authorized signatory. Section B shall be signed by the supplier’s authorized signatory.

(d) A reference serial number of the Pull-Out and Transfer to Supplier of Gaming Equipment Notification Form shall be provided by GLDD upon approval of the request. GLDD shall furnish CMED with a copy of the duly approved Form.

(e) CMED shall conduct an inspection and inventory of the gaming equipment prior to the scheduled pull-out and transfer.

The Licensee shall coordinate the schedule with the PAGCOR Monitoring Team at least ten (10) days prior to the scheduled pull-out of the gaming equipment.

(f) The Licensee shall comply with the inventory guidelines under Section 4 paragraphs (d)2. and (d)3. of Regulation 10.

Section 6. Pullout of Gaming Equipment from the Licensee’s gaming area or authorized storage area for ship out

(a) A gaming equipment may be shipped by a Licensee out of Philippine territory.

(b) The ship-out of a gaming equipment shall require the prior approval of PAGCOR. The Licensee shall submit the following to GLDD at least fourteen (14) business days prior to the scheduled ship-out:

1. duly accomplished Ship-Out Clearance Request and Approval Form (Form 22). The Form shall contain the following information:

   (i) name of Licensee;
   (ii) casino location;
   (iii) type of gaming equipment to be shipped out (i.e. gaming tables, EGMs, surveillance equipment, bill validator/acceptor, slot machine signages, casino management system hardware, shufflers, roulette wheel, money wheel, auxiliary table games and other gaming equipment);

- manufacturer of the gaming equipment;
- description of gaming equipment;
- PAGCOR inventory tag number of the gaming equipment;
- EGM serial number;
- EGM game name/theme; and
- quantity of gaming equipment to be transferred.

The Licensee may attach an additional sheet containing the list of equipment.

(v) pull-out location i.e. gaming area or Licensee’s authorized storage area;

(vi) expected date of pull-out and ship-out from the Licensee;

(vii) reason for pull-out and ship-out;

(viii) mode of ship-out (i.e. by air or by sea)

(ix) port of exit;

(x) name of recipient;

(xi) exact address of recipient

(xii) country of destination;

(xiii) Reference importation Commercial Invoice/Pro-forma Invoice number;

(xiv) Name and contact number of designated customs broker; and

(xv) Licensee’s undertaking that it shall coordinate with the Compliance Monitoring and Enforcement Department for the conduct of inspection and inventory prior to the pull-out and ship-out of the gaming equipment.

2. Copy of reference importation Commercial Invoice or Pro-forma Invoice on gaming equipment to be shipped out.

(c) The Licensee shall designate only one (1) broker who shall be responsible for securing the permit to ship-out (as authorized by PAGCOR) from the Department of Finance or the Special Economic Zone Authority or other government agencies as may be applicable, and actual transporting of gaming equipment to the port.

(d) The Ship-out Clearance Request and Approval Form shall be signed by the Licensee’s authorized signatory.

(e) A reference serial number of the Ship-Out Clearance Request and Approval Form shall be provided by GLDD upon approval of the request. GLDD shall furnish PAGCOR Procurement Department and CMED with a copy of the duly approved Form.
(f) GLDD may reject the Ship-Out Clearance Request and Approval Form if the information contained in the Form is incomplete or incorrect or if the reference Commercial Invoice or Pro-forma Invoice is not attached.

(g) For casinos whose importations availed of PAGCOR’s customs and duties tax exemptions, PAGCOR shall seek approval from the Department of Finance on the proposed ship-out. For casinos whose importations are covered by an Import Permit filed with a Special Economic Zone Authority, it shall be the responsibility of the Licensee to seek approval on the proposed ship-out.

(h) CMED shall conduct an inspection and inventory of the gaming equipment prior to the scheduled pull-out and ship-out. The Licensee shall coordinate with the PAGCOR Monitoring Team at least ten (10) days prior to the scheduled pull-out of the gaming equipment. A copy of the Inspection and Inventory Report shall be submitted by CMED to GLDD.

(i) The Licensee shall comply with the inventory guidelines under Section 3 paragraphs (d)2. and (d)3. of Regulation 10.
PERMANENT DECOMMISSIONING AND DISPOSAL OF GAMING EQUIPMENT AND GAMING PARAPHERNALIA

Section 1. Permanent decommissioning of electronic gaming machines

(a) A Licensee may permanently decommission its electronic gaming machines (EGMs) provided that it has rights over the EGMs and subject to the guidelines and procedures in this Regulation. Otherwise, the Licensee shall ship-out the EGMs in accordance with the guidelines and procedures under Regulation 12.

(b) For casinos whose importations availed of PAGCOR’s customs and duties tax exemptions:

1. The Licensee shall inform the Gaming Licensing and Development Department (GLDD) of the planned permanent decommissioning of EGMs by submitting the Permanent Decommissioning of EGMs Notification Form (Form 23) at least two (2) business days prior to the intended date of decommissioning. In addition to such other items or information as PAGCOR may require, the notification form shall be accompanied by the following:

   (i) Copies of the following shipment documents covering the EGMs to be permanently decommissioned:

   - Previously issued Endorsement letter from the Department of Finance (DOF) – Revenue Express Lane to the Commissioner of Customs, Manila, granting customs and duties taxes exemption on the shipment;
   - Bureau of Internal Revenue – Customs Declaration;
   - Assessment Notice;
2. GLDD shall verify the information contained in the Permanent Decommissioning of EGMs Notification Form against GLDD’s records of Compliance Monitoring and Enforcement Department’s (CMED) inspection and inventory report on the shipment of the EGMs.

3. PAGCOR shall submit an application with the Department of Finance (DOF) for the permanent decommissioning/disposal of EGMs.

4. Permanent decommissioning shall not be carried out unless PAGCOR has obtained a written approval from the DOF.

5. GLDD shall give the Licensee the go signal to proceed with the Permanent Decommissioning of EGMs as soon as it has obtained a written clearance from the DOF.

(c) For casinos whose importations are covered by an Import Permit filed with a Special Economic Zone Authority:

1. The Licensee shall inform GLDD of its planned permanent decommissioning of electronic gaming machines (EGMs). The notification shall comprise of, in addition to such other items or information as PAGCOR may require:

   (i) Permanent Decommissioning of EGMs Notification Form duly accomplished by the Licensee’s authorized signatory (Form 23);

   (ii) Copy of the following shipment documents covering the EGMs to be permanently decommissioned:

   - Commercial Invoice or Pro-forma Invoice;
   - Packing List and Bill of Lading or Airway Bill;

2. GLDD shall verify the information contained in the Permanent Decommissioning of EGMs Notification Form against GLDD’s records of CMED’s inspection and inventory report on the shipment of the EGMs.

3. GLDD shall process the proposed Permanent Decommissioning of EGMs subject to the Licensee obtaining the prior approval of the Special Economic Zone Authority for the permanent decommissioning/disposal of EGMs.

4. It shall be the Licensee’s responsibility to seek the prior written approval of the Special Economic Zone Authority for the
disposal/permanent decommissioning of EGMs. Permanent decommissioning shall not be carried out unless the Licensee submits a written approval from these authorities to GLDD and CMED.

(d) Upon clearing, GLDD shall furnish CMED the following:

1. Copy of the Permanent Decommissioning of EGMs Notification Form; and,
2. Copy of the covering Commercial Invoice and Packing List of the EGMs for permanent decommissioning.

(e) The Licensee shall notify CMED and the PAGCOR Monitoring Team (PMT) in advance of the EGMs permanent decommissioning schedule.

(f) The Licensee, along with representatives from the CMED and PMT, shall conduct an inspection and inventory of the EGMs for permanent decommissioning in order to (a) verify the identification of the EGMs and (b) determine the presence or absence of EGM component parts. A Certificate of Permanent Decommissioning of Electronic Gaming Machines (Form 24) shall be duly accomplished by Licensee’s authorized representatives and noted by CMED and PMT as witnesses.

The permanent decommissioning of EGMs shall be carried out with the presence of CMED and/or PMT.

(g) Inspection and inventory of EGM component parts shall be conducted and documented in the Inspection & Inventory Checklist of Component Parts of Electronic Gaming Machines for Permanent Decommissioning (Form 25). One form shall be used for each EGM. Inspected EGM component parts shall be noted as “found” and missing component parts shall be noted as “missing”. The Licensee shall submit to CMED a written explanation for such missing component parts.

(h) All EGM component parts including game and video EPROMs, operating system EPROMs, and Serial and Information Plate must be removed from the EGM cabinet.

(i) A legible and complete image/photocopy of each EGM Serial and Information Plate must be obtained, copies of which shall be furnished to GLDD and CMED.

(j) EGM component parts may be retained and salvaged for future use except for the following critical component parts which must be destroyed:

1. EGM cabinet
2. Serial and information plate
3. Game EPROM IC Chip/Compact Flash

4. Operating system EPROM IC Chip/Compact Flash

Other than the items mentioned above, the Licensee shall determine component parts which it shall salvage for future use and the same shall likewise be documented as “salvaged for future use” in the Inspection & Inventory Checklist of Component Parts of Electronic Gaming Machines for Permanent Decommissioning (Form 25).

(k) Salvaged EGM component parts are not for re-sale but shall be for the exclusive use of the Licensee.

(l) Salvaged EGM component parts shall be stored in a secure location within the casino premises, or other authorized areas. The storage location shall be indicated in the Inspection & Inventory Checklist of Component Parts of Electronic Gaming Machines for Permanent Decommissioning. The Licensee shall assume responsibility over the salvaged EGM component parts and shall monitor usage and inventory of the same.

(m) The total quantity of salvaged EGM component parts from permanently decommissioned EGMs shall be consolidated, summarized and accounted for by the inspection and inventory team in the Summary Inventory Report of Electronic Gaming Machines Component Parts Salvaged for Future Use (Form 26). The total quantity declared under said report shall be recorded as additions during the applicable quarter in the Quarterly Report on Usage and Inventory of Salvaged Electronic Gaming Machines Component Parts (Form 27).

(n) The Licensee shall submit the Quarterly Report on Usage and Inventory of Salvaged Electronic Gaming Machines Component Parts to CMED within ten (10) days of the month following the end of each quarter.

PAGCOR reserves the right to conduct inspection and inventory of these component parts with prior notification of ten (10) days to the Licensee.

(o) As mentioned in subsection (j) above, EGM critical component parts namely EGM cabinet, serial and information plate, game EPROM IC chip/compact flash and operating system EPROM IC chip/compact flash shall be destroyed.

(p) The inspection and inventory team shall accomplish the Checklist of Electronic Gaming Machines Component Parts for Destruction (Form 28) to document the list of EGM component parts to be destroyed. Other component parts which are not tagged as “salvaged items for future use” in the Inspection and Inventory Checklist of EGMs for
Permanent Decommissioning (Form 25) must be tagged as “for destruction” under said Form 28. Similar to Form 25, a “one form per EGM” policy shall be implemented for said Form 28.

(q) Game and video EPROMs, operating system EPROMs and Serial and Information Plate, and other component parts shall be destroyed by pounding, breaking, cutting or such other method that will prevent any possible reuse in the future. EGM cabinets shall be destroyed by dismantling and cutting into 12 inches x 12 inches, or such other method as may be deemed appropriate by the Licensee. Destroyed component parts may thereafter be disposed as scrap/junk.

(r) After permanent decommissioning, copies of the following shall be submitted by CMED to GLDD:

1. Certificate of Permanent Decommissioning of EGMs;
2. Legible image/photocopy of Serial and Information Plates

Copies of the following shall be retained by CMED:

1. Certificate of Permanent Decommissioning of EGMs;
2. Inspection and Inventory Checklist of Component Parts of Electronic Gaming Machines for Permanent Decommissioning;
3. Legible image/photocopy of Serial and Information Plates;
4. Summary Inventory Report of Electronic Gaming Machines Component Parts Salvaged for Future Use;
5. Checklist of Electronic Gaming Machines Component Parts for Destruction; and,
6. Quarterly Report on Usage and Inventory of Salvaged Electronic Gaming Machines Component Parts.

Section 2. Destruction of playing cards

(a) Cards deemed by the Licensee as unsuitable for further use in gaming operations shall be stored inside a dedicated and secure Card Disposal Room to await destruction.

(b) Cards may be stored in a disposal room duly designated by the Licensee for such purpose, for a minimum of twenty four (24) hours and up to a maximum of six (6) days, in case the cards are in dispute or Surveillance requests to view them.
(c) A record of all the cards in the disposal room at any given time or for a specific period shall be kept and maintained. The record shall contain, but is not limited to, the following information:

1. Opening Card Inventory of the Disposal Room;
2. All cards added to the inventory during the period covered;
   (i) Source Table
   (ii) Color
   (iii) Manufacturer/Supplier
3. All cards removed from the inventory during the period (destroyed or otherwise);
4. Closing Card Inventory of the Disposal Room

(d) Playing cards for destruction shall be completely destroyed by either of the following manner:

1. shredding;
2. grinding; or,
3. incineration, but subject to environmental standards.

(e) Members of the PMT as well as representatives from the Licensee shall witness the destruction procedure. The Licensee and PMT shall ensure that all cards are completely destroyed and rendered unusable for gaming operations.

(f) After destruction, the PMT shall accomplish and sign a Certificate of Used Playing Card Destruction Form (Form 30) to be acknowledged by representatives of the Licensee.

(g) On the first business day of the succeeding week, the Licensee shall submit to GLDD the Destruction of Used Playing Cards Notification Form (Form 29) together with the accomplished Certificates of Playing Card Destruction Form covering the previous week.

Section 3. Permanent decommissioning of dice

(a) A Licensee shall remove any dice for permanent decommissioning if there is an indication of any of the following:

1. The dice have been tampered with;
2. The dice is flawed; and
3. The dice is defective and the defect may affect the integrity or fairness of the game.

(b) The Licensee shall inform the PAGCOR Monitoring Team if and when there is an indication of tampering, flaw or defect on the dice. The Licensee shall remove the dice from the gaming table and place the dice in a sealed envelope signed by the Licensee’s Pit Manager. The
following information shall likewise be placed on the outside of the envelope:

1. The date and time the dice was removed from play.
2. The live gaming device name and serial number from which the dice was removed from play.
3. The characteristics that indicate that the dice was tampered with.
4. The name of all Licensee’s gaming employees at the live gaming device from which the dice or playing cards were removed, and the name of the Pit Manager, or his or her equivalent, who removed the dice from play.

If upon the Licensee’s investigation the dice is found to be tampered, defective or has flaws, the Licensee shall inform GLDD of its intent to destroy said dice by submitting the Destruction of Discontinued or Counterfeit Gaming Chips/Plaques and other Gaming Paraphernalia Notification Form (Form 31) at least one (1) day prior to the intended date of destruction.

(c) Destruction of dice shall not be carried out without the prior written notification to GLDD.

(d) Dice shall be completely destroyed by either of the following manner:

1. drilling a circular hole that is not less than 1/4 of an inch in diameter all the way through the center of the dice;
2. grinding; or,
3. incineration, but subject to environmental standards.

(e) Members of the PMT as well as representatives from the Licensee shall witness the destruction procedure. The Licensee and PMT shall ensure that the dice is completely destroyed and rendered unusable for gaming operations.

(f) After destruction, the PMT shall accomplish and sign a “Certificate of Gaming Chips/Plaques and Other Gaming Paraphernalia Destruction Form” (Form 32) to be acknowledged by representatives of the Licensee.

Section 4. Destruction of discontinued gaming chips and plaques

(a) The Licensee shall notify GLDD of its intent to destroy discontinued gaming chips and plaques. The notification shall include, in addition to such other items or information as PAGCOR may require:

1. Destruction of Discontinued or Counterfeit Gaming Chips/Plaques and other Gaming Paraphernalia Notification Form
duly accomplished by the Licensee’s authorized signatory (Form 31) indicating the following:

(i) date and the location at which the destruction will be performed;
(ii) denomination, number, and amount of value chips and plaques to be destroyed;
(iii) description and number of non-value chips to be destroyed; and,
(iv) a detailed explanation of the method of destruction.

(b) Destruction of discontinued gaming chips and plaques shall not be carried out without prior notification to GLDD.

(c) The destruction of discontinued gaming chips and plaques shall be carried out by the Licensee in the presence of the PMT. The Licensee shall ensure that the denomination, number, and amount of value chips, and the number and description of non-value chips, destroyed are recorded in the chip inventory ledger together with the signatures of the individuals carrying out the destruction and the date on which the destruction took place. The Licensee and PMT shall ensure that the discontinued gaming chips and plaques are completely destroyed and rendered unusable for gaming operations.

(d) After destruction, the PMT shall accomplish and sign a Certificate of Gaming Chips / Plaques and other Gaming Paraphernalia Destruction Form (Form 32) to be acknowledged by representatives of the Licensee.

(e) The denomination, number and amount of value chips and plaques or, in the case of non-value chips, the description and number so destroyed shall be recorded in the chip inventory ledger together with the signatures of the individuals carrying out such destruction, and the date on which the destruction occurred.

(f) Each Licensee shall record, in addition to such other information as PAGCOR may require, the names of the persons carrying out the destruction or other disposition on behalf of the Licensee. The Licensee shall also maintain a written log of the names and credential numbers of all casino personnel involved in each such destruction, and the names and employer of all non-casino personnel involved.

(g) Each Licensee shall maintain each record required by subsections (e) and (f) above for at least five (5) years, unless PAGCOR approves or requires otherwise.

Section 5. Destruction of counterfeit gaming chips and plaques

(a) As used in this section, “counterfeit chips or plaques” mean any chip-
or token-like objects that have not been approved pursuant to this regulation, including objects commonly referred to as “slugs.”

(b) Unless a law enforcement officer instructs or a court of competent jurisdiction orders otherwise in a particular case, the Licensee shall destroy or otherwise dispose of counterfeit chips/plaques and tokens discovered at their establishments in accordance with the guidelines and procedures and in the manner stated in Section 4.

(c) Each Licensee shall record, in addition to such other information as PAGCOR requires under Section 4:

1. The number and denominations, actual and purported, of the counterfeit chips and plaques destroyed or otherwise to be disposed of pursuant to this section;

2. The month during which they were discovered;

3. The names of the persons carrying out the destruction or other disposition on behalf of the Licensee. The Licensee shall also maintain a written log of the names and credential numbers of all casino personnel involved in each such destruction, and the names and employer of all non-casino personnel involved.

(d) Each Licensee shall maintain each record required by subsection (c) above for at least five (5) years, unless PAGCOR approves or requires otherwise.

2. The denominations of gaming chips and plaques to be distributed to a specific gaming table;
3. The quantity and total amount of gaming chips and plaques for each denomination;
4. The grand total amount of the fill transaction;
5. The table number to which the gaming chips and plaques are to be distributed; and,

6. The signatures of the assigned Dealer and Pit Supervisor, or if system generated, the identification code of the Dealer and Pit Supervisor.

(h) Used and unused Fill Slips shall be duly accounted for.

(i) Voided Fill Slips shall be marked “void” and shall be signed by the preparer and verified by the Pit Supervisor.

(j) Where the Request for Fill and Fill Slips are manually prepared, the following shall be observed:

1. Unused Requests for Fill and Fill Slips shall be stored in a secure dispenser;

2. Access to the Requests for Fill and Fill Slips shall be maintained and controlled at all times by casino employees responsible for the accounting and control for the used and unused Requests for Fill and Fill Slips, placing in and removing Requests for Fill and Fill Slips from the dispenser, on a periodic basis;

3. A Licensee shall maintain a logbook of used Fill Slips containing at least the following information:

   (a) Fill Slip serial number
   
   (ii) Date and time of fill
   
   (iii) Amount of fill
   
   (iv) Gaming Table number

4. An accounting of used and unused Fill Slips shall be conducted on a periodic basis. A cut-off report shall be prepared by casino employees responsible for the control and accounting of Fill Slips, containing the following information:

   (i) Date, time and shift of the preparation of cut-off report;
   
   (ii) Serial number and quantity of used Fill Slips;
   
   (iii) Serial number and quantity of unused Fill Slips; and,
   
   (iv) Serial number and quantity of Fill Slips marked “void”.

(k) Where the Request for Fill and Fill Slip are system-generated by a casino management system (CMS), the following shall be observed:
1. The CMS shall generate a summary report of Fill Slips containing at least the following information:

(i) Fill Slip serial number

(ii) Date and time of fill

(iii) Amount of fill

(iv) Gaming Table number

2. On a periodic basis, the CMS shall generate a cut-off report containing the following information:

(i) Date, time and shift of the preparation of cut-off report;

(ii) Serial number and quantity of used Fill Slips;

(iii) Serial number and quantity of unused Fill Slips; and,

(iv) Serial number and quantity of Fill Slips marked “void”.

3. Stored data in the Request for Fill and the Fill Slip shall not be susceptible to change or removal in any event and by any personnel, after the preparation of the Fill Slip.

(l) Security personnel shall compare the actual quantities, denomination and total amount of gaming chips and plaques with those contained in the Request for Fill and Fill Slip and sign the original copy of the Request for Fill maintained at the Cage and all copies of the Fill Slip before transporting the gaming chips and plaques to a specific gaming table.

(m) The gaming chips and plaques together with all copies of the Fill Slip shall be transported by the security personnel from the Cage to a specific gaming table.

(n) All copies of Fill Slip shall be signed, acknowledged and certified as being accurate by:

1. Cage cashier, upon preparation;

2. Security personnel transporting the gaming chips and plaques from the Cage to the gaming table, upon receipt from the Cage cashier of the gaming chips and plaques to be transported;

3. Dealer assigned to the particular gaming table, upon receipt of gaming chips and plaques at such table from the security personnel; and,
4. Pit Supervisor assigned to the particular gaming table, upon receipt of the gaming chips and plaques at such table.

(o) PAGCOR may witness a fill transaction and countersign in the Fill Slip.

(p) Upon completion of the procedures in subsection (n) above, the security personnel who transported the gaming chips and plaques shall:

1. Observe the immediate placement by the Dealer of the original copy of the Fill Slip and the duplicate copy of the Request for Fill into the drop box attached to the gaming table; and,

2. Return the duplicate copy of the Fill Slip to the Cage cashier where the duplicate copy of the Fill Slip and the original copy of the Request for Fill shall be kept together and controlled by the Cage cashier.

(q) Fill Slips marked void, void and error reports shall be forwarded to the Count Team. Upon removal from the drop box during the soft and hard counts, the Count Team shall tally the information contained in the original copy of the Fill Slip with that of the duplicate copy of the Request for Fill. After which, all documents are forwarded to accounting department.

Section 4. Removal of gaming chips and plaques from the gaming tables

(a) In order to facilitate the removal of gaming chips and plaques from a specific gaming table for return to Cage, a request for credit shall be prepared by the assigned Dealer and verified by Pit Supervisor of the Licensee by accomplishing a Request for Credit.

(b) The Request for Credit shall be pre-numbered and shall be in at least four (4) copies to be distributed as follows:

1. Copy 1 (original) - Cage cashier
2. Copy 2 (duplicate) - Drop box
3. Copy 3 (triplicate) - Drop box
4. Copy 4 (quadruplicate) - PAGCOR

(k) Used and unused Credit Slips shall be duly accounted for.

(l) Voided Credit Slips shall be marked “void” and shall be signed by the preparer and verified by the Pit Supervisor.

(m) Where the Request for Credit and Credit Slips are manually prepared, the following shall be observed:

1. Unused Requests for Credit and Credit Slips shall be stored in a secure dispenser;
2. Access to the Requests for Credit and Credit Slips shall be maintained and controlled at all times by casino employees responsible for the accounting and control for the used and unused Requests for Credit and Credit Slips, placing in and removing Requests for Credit and Credit Slips from the dispenser, on a periodic basis;
3. A Licensee shall maintain a logbook of used Credit Slips containing at least the following information:

   (i) Credit Slip serial number
(ii) Date and time of credit

(iii) Amount of credit

(iv) Gaming Table number

4. An accounting of used and unused Credit Slips shall be conducted on a periodic basis. A cut-off report shall be prepared by casino employees responsible for the control and accounting of Credit Slips, containing the following information:

(i) Date, time and shift of the preparation of cut-off report;

(ii) Serial number and quantity of used Credit Slips;

(iii) Serial number and quantity of unused Credit Slips; and,

(iv) Serial number and quantity of Credit Slips marked “void”.

(n) Where the Request for Credit and Credit Slip are system-generated by a casino management system (CMS), the following shall be observed:

1. The CMS shall generate a summary report of Credit Slips containing at least the following information:

   (i) Credit Slip serial number

   (ii) Date and time of credit

   (iii) Amount of credit

   (iv) Gaming Table number

2. On a periodic basis, the CMS shall generate a cut-off report containing the following information:

   (i) Date, time and shift of the preparation of cut-off report;

   (ii) Serial number and quantity of used Credit Slips;

   (iii) Serial number and quantity of unused Credit Slips; and,

   (iv) Serial number and quantity of Credit Slips marked “void”.

3. Stored data in the Request for Credit and the Credit Slip shall not be susceptible to change or removal in any event and by any personnel, after the preparation of the Credit Slip.
(o) All copies of Credit Slip shall be signed, acknowledged and certified as being accurate by:

1. Chip bank cashier, upon preparation;

2. Security personnel transporting the gaming chips and plaques from the gaming table to the chip bank, upon return of the gaming chips and plaques to the chip bank cashier;

3. Dealer assigned to the particular gaming table, upon receipt of the Credit Slip at such table from the security personnel; and,

4. Pit Supervisor assigned to the particular gaming table, upon receipt of the Credit Slip at such table.

(p) PAGCOR may witness a credit transaction and countersign in the Credit Slip.

(q) Upon completion of the procedures in subsection (n) above, the security personnel who transported the gaming chips and plaques shall:

1. Observe the immediate placement by the Dealer of the original copy of the Credit Slip and the duplicate copy of the Request for Credit into the drop box attached to the gaming table; and,

2. Return the duplicate copy of the Credit Slip to the chip bank cashier where the duplicate copy of the Credit Slip and the original copy of the Request for Credit shall be kept together and controlled by the chip bank cashier.

3. Furnish PAGCOR quadruplicate copies of the Request for Credit and the Credit Slip.

(r) Credit Slips marked void, void and error reports shall be forwarded to the Count Team. Upon removal from the drop box during the soft and hard counts, the Count Team shall tally the information contained in the original copy of the Credit Slip with that of the duplicate copy of the Request for Credit. Afterwhich, all documents are forwarded to accounting department.

Section 5. Closing of gaming tables

(a) Whenever a gaming table is closed, a Table Closer form shall be duly accomplished by the assigned Dealer and witnessed by the Licensee’s Pit Supervisor.

(b) The Table Closer form shall be pre-numbered and shall be in at least two (2) copies to be distributed as follows:
1. Copy 1 (original) - Drop box

2. Copy 2 (duplicate) - Table Float Tray

3. Copy 3 (triplicate) - PAGCOR

(c) The Table Closer form shall contain the following information:

1. date and start time the gaming table is closed;

2. gaming table number;

3. closing table inventory (if applicable) showing:

   (i) the quantity and total value of gaming chips and plaques for each denomination remaining at the gaming table; and,

   (ii) the total value of all gaming chips and plaques remaining at the gaming table.

4. name and signature of the assigned Dealer and Pit Supervisor.

(d) The gaming chips and plaques remaining at the gaming table shall be counted by the assigned Dealer and witnessed by the Licensee’s Pit Supervisor and both casino personnel shall sign and certify as being accurate, the information recorded at the time of closing, on the table inventory section of the Table Closer form.

(e) After subsection (d) has been complied with:

1. the closing inventory shall be deposited by the assigned Dealer in the chip float tray which shall then be locked; or,

2. if the gaming table shall be permanently closed for operation, the closing inventory shall be removed from the gaming table and returned to the chip bank cashier subject to applicable guidelines and procedures for credit transactions.

(f) The PAGCOR Monitoring Team may witness the conduct of the table closing inventory and sign in the Table Closer form. All closing transactions shall be performed in the presence of the PAGCOR Monitoring Team.

(g) At the start of every shift, the Pit Manager shall collect and consolidate all Table Closer forms and prepare a Pit Tables Inventory Report. The Pit Tables Inventory Report shall contain the following:

1. Date, time and shift of the preparation of the report;
2. Quantity and amount of gaming chips and plaques per denomination per gaming table number belonging to a particular gaming pit;

3. Total amount of gaming chips and plaques of a particular gaming pit; and,

4. Name and signature of the Pit Manager preparing the report.

(h) An accounting of used and unused Table Closer forms shall be conducted on a periodic basis. A cut-off report shall be prepared by casino employees responsible for the control and accounting of Table Closer forms, containing the following information:

1. Date, time and shift of the preparation of cut-off report;

2. Serial number and quantity of used Table Closer forms;

3. Serial number and quantity of unused Table Closer forms; and,

4. Serial number and quantity of Table Closer forms marked “void”.

Section 6. Opening, counting and recording contents of drop boxes

(a) A Licensee shall have soft and hard count rooms specifically designated for counting the contents of gaming table drop boxes, electronic gaming machines bill stackers and coin drop buckets.

(b) Security access devices shall be connected to the entrance of a Count Room that will notify the surveillance system whenever a door to the Count Room is opened. The Count Room doors shall be equipped with a mantrap that will prevent these doors from opening simultaneously.

(c) Count Room keys

1. Count Room keys shall be kept under the control of Cage cashier, and shall only be accessed by two (2) assigned personnel.

2. Count Room keys shall be kept in a lockable metered key cabinet and a logbook shall be maintained to record issuances of Count Room keys. Cage cashier personnel issuing the Count Room keys shall log in the date and time of the keys issuance, and the issuer and the assigned personnel recipient of the Count Room keys shall affix their signatures in the logbook.
3. Upon return of the Count Room keys, the Cage cashier personnel issuing the keys shall return the Count Room keys to the key cabinet and shall log in the date and time of the receipt of the keys and the issuer and the assigned personnel recipient shall affix their signatures in the logbook.

(d) Each Count Room shall have count tables constructed of clear glass or acrylic plastic.

(e) Drop box release keys

1. Drop box release keys shall be kept under the control of security personnel, and shall only be accessed by two (2) assigned casino personnel, each with a unique access code/key.

2. Drop box release keys shall be kept in a lockable metered key cabinet and a logbook shall be maintained to record issuances of drop box release keys. Security personnel issuing the drop box release keys shall log in the date and time of the keys issuance, and the issuer and the assigned casino personnel recipient of the drop box release keys shall affix their signatures in the logbook.

3. Upon return of the Drop box release keys, the security personnel issuing the keys shall return the Drop box release keys to the key cabinet and shall log in the date and time of the receipt of the keys and the issuer and the assigned casino personnel recipient shall affix their signatures in the logbook.

(f) Drop box contents keys

1. Drop box contents keys shall be kept under the control of Cage cashier, and shall only be accessed by a Soft Count Team member.

2. Drop box contents keys shall be kept in a lockable metered key cabinet and a logbook shall be maintained to record issuances of Drop box contents keys. Cage cashier personnel issuing the Drop box contents keys to the Soft Count Team member in the presence of a security personnel, shall log in the date and time of the keys issuance, and the issuer, the Soft Count Team member recipient and the security personnel shall affix their signatures in the logbook.

3. Upon return of the Drop box contents keys, the Cage cashier personnel issuing the keys shall return the Drop box contents keys to the key cabinet and shall log in the date and time of the receipt of the keys and the issuer, the Soft Count Team member recipient and the security personnel shall affix their signatures in the logbook.
(g) A Licensee shall notify PAGCOR in writing of the schedule at which the soft count of drop boxes shall be conducted. Soft counts are usually conducted at the end of the trading day.¹

(h) The opening, counting and recording of the contents of each of the drop boxes shall be performed in the presence of the PAGCOR Monitoring Team.

(i) Opening, counting or recording of drop box contents shall be suspended on an emergency or scheduled break.

(j) The Count Team shall consist of groups of three (3) people for three distinct job functions: recorder, counter and verifier. Count Team members are rotated on a periodic basis and will not be working with the same team members for more than a few days per week.

Only Count Team members and the PAGCOR Monitoring Team shall enter the Count Room.

(k) Each Count Team member shall wear as a full-length, one-piece pocketless outer garment with openings only for the arms, feet and neck.

(l) No person shall:

1. Carry any cellular phone or computer device, purse or any form of container into the count room; and,

2. Remove their hands from or return them to a position on or above the count table unless the backs and palms of the hands are first held straight out and exposed to the view of other Count Team members and the surveillance camera.

(m) All collected drop boxes shall be counted immediately. Drop boxes shall be arranged and counted in sequential order or Licensee may opt to count VIP drop boxes first to gauge revenue performance.

(n) Before the conduct of a drop box count, the doors to the Count Room shall be locked until the entire counting, recording and verification process is completed. Count procedures shall be witnessed by the PAGCOR Monitoring Team. Count Team members shall not be permitted to leave the Count Room except on an emergency or scheduled break.

¹ Trading day definition see Regulation 1.
(o) In case of an emergency or scheduled break, all Count Team members shall show their hands to the surveillance cameras and to each other to show that nothing is being taken out of the Count Room before they are allowed to leave the Count Room.

(p) As each drop box is placed on the count table, a Count Team member shall state the drop box number, gaming table number and shift for each drop box, in a volume to be heard by all persons present and to be recorded by a surveillance equipment audio recording device.

(q) Contents of each drop box shall be emptied into a tray placed on a count table, and the inside of the drop box shall be held up to the full view of a surveillance camera visible to the surveillance personnel viewing the count, to assure that all contents of the drop box have been removed. After which, the drop box shall be locked and placed in the Count Room storage area for empty drop boxes.

(r) Drop box contents placed in a tray shall be segregated by a Count Team member. Bills are stacked by denomination while documents are stacked by form.

(s) Each denomination of bills and currency shall be counted separately by a first Soft Count Team member who shall place bills of the same denomination on the count table in full view of a surveillance camera and to the surveillance personnel viewing the count. Bills and currency counted shall be recorded on a drop cash card.

(t) The bills shall be passed to a second Soft Count Team member who shall perform an aggregate count by denomination, and all supporting documents are verified against the drop verification report. The count procedures shall be in full view of a surveillance camera and to the surveillance personnel viewing the count.

(u) A currency counter or a bill counter may be used during the count procedures provided that this shall be in full view of a surveillance camera and to the surveillance personnel viewing the count.

(v) If the numbers and amounts of the first Soft Count Team member and the second Count Team member do not match, they shall perform a recount and agree on the numbers and amounts before they can proceed to open and count the next drop box.

(w) During the soft count, a Master Game Report (MGR) shall be prepared either manually by another Count Team member or generated by a CMS, containing the following information per drop box number and table number:

1. Amount of bills counted per denomination;
2. Total amount of bills counted per currency;

3. Total amount of bills counted;

4. Amount of beginning table inventory per Table Opener form;

5. Amount of ending table inventory per Table Closer form;

6. Total amount of fills with details of serial number and amount of each Fill Slip;

7. Total amount of credits with details of serial number and amount of each Credit Slip; and,

8. The computed win/loss for each gaming table and the grand total win/loss.

(x) Each Count Team member shall sign in the MGR to attest to the accuracy of the report.

(y) A Vault Supervisor shall enter the Count Room to perform an independent count of the drop box contents and resolve any difference, if needed.

(z) At the conclusion of the soft count:

1. All money removed from the drop boxes shall be forthwith turnover in the count room by a Count Team member to Cage cashier for deposit to the vault.

2. The Cage cashier shall, prior to having access to the MGR, count the money received either manually or with a bill or currency counter, and certify the correctness of bills counted and recorded in the MGR.

3. A designated Count Team Supervisor and the PAGCOR Monitoring Team shall sign the MGR to document that the Cage cashier and the Count Team Supervisor are in agreement with the amount of money counted.

4. The signed MGR together with the Requests for Fill, Fill Slips, Requests for Credit, Credit Slips, Table Opener form and Table Closer forms shall be transported by security personnel to the accounting department. Security personnel shall ensure that all of these documents shall not be made available to Cage cashier personnel.
(aa) The original and duplicate copies of the MGR, Requests for Fill, Fill Slips, Requests for Credit, Credit Slips, Table Opener forms and Table Closer forms shall on a daily basis, be:

1. Tallied by Licensee’s employees performing audit functions;
2. Reviewed for the appropriate number and propriety of signatures;
3. Accounted by serial numbers;
4. Tested for accuracy in calculation of mathematical formulas, summarization and recording of information; and,
5. Kept and controlled by the accounting department as permanent financial records of gross gaming revenues.

Section 7. Issuance, redemption and use of chips and chip purchase vouchers

(a) When chips and chip purchase vouchers may be issued or redeemed

Chips and chip purchase vouchers may only be issued and redeemed during the hours of operation of a casino.

(b) Payment for chips

A Licensee shall not issue, or cause or permit to be issued, any chips for gaming (other than complimentary chips) to any patron unless the chips are paid for to the value of the chips by one or more of the following methods of payment:

1. in cash;
2. in exchange for chip purchase vouchers issued by the Licensee;
3. by charging to the patron’s credit card, where a transaction involving a credit card is permitted under the regulations made thereunder;
4. by direct debit from the amount standing to the credit of the patron’s deposit account or cheque cashing account with the Licensee;
5. by an amount debited against the patron’s credit account with the Licensee, where the Licensee is permitted to issue chips on credit to the patron; or
6. by such other mode of payment as PAGCOR may approve.
(c) Payment for chip purchase vouchers

A Licensee shall not issue, or cause or permit to be issued, any chip purchase voucher to any patron unless the chip purchase voucher is paid for to the value of the chip purchase voucher by one or more of the following methods of payment:

1. by direct debit from the amount standing to the credit of the patron’s deposit account or cheque cashing account with the Licensee;

2. by an exchange of chip purchase vouchers issued by the Licensee; or

3. by such other mode of payment as PAGCOR may approve.

(d) Redemption of chips or chip purchase vouchers

A Licensee may redeem its chips or chip purchase vouchers from a patron, in exchange for the equivalent of any one of the following to the value of the chips or the amount shown on the chip purchase voucher, as the case may be:

1. cash;

2. a cheque issued by the Licensee payable to the patron or any other person named by the patron;

3. an amount transmitted by telegraphic or electronic funds transfer from the Licensee’s account to an account of the patron’s choice; or

4. an amount credited, in accordance with the patron’s instructions, into the patron’s or any other patron’s deposit account, cheque cashing account or credit account, with the Licensee.

(e) Chips to be used only for playing of games or tips in casino premises

1. Chips issued by a Licensee may be used by a patron only for:

   (i) the playing of games within the casino premises of the Licensee; or

   (ii) the giving of tips or gratuities to any person employed within the casino premises for any service provided by such person in the ordinary course of his duties.
2. Any person who uses chips for any purpose other than the purposes allowed under paragraph (1) shall be subject to disciplinary action.

Section 8. Conduct of table games

(a) Dealing and shuffling of playing cards

1. Subject to paragraph (2), the playing cards used by a Licensee for the playing of games in its casino shall:

   (i) prior to each use, have been shuffled using an electronic shuffler; and

   (ii) be dealt from a card shoe or other device or equipment approved by PAGCOR.

2. The Licensee may opt to have the cards manually shuffled in its High Roller areas. The manual shuffle should be conducted without compromising the security and integrity of gaming operations.

(b) Placing of wagers

1. Subject to paragraph (2), a wager on an approved game shall be made by placing chips and, if applicable, one or more match play coupons\(^1\) on the appropriate wagering areas of a gaming table.

2. A Licensee shall not accept any wager on an approved game:

   (i) placed on behalf of a patron who is not present in person at the gaming table by another person, or placed by a patron who is not so present using any communication device or equipment; unless otherwise provided in the approved operational guidelines;

   (ii) placed otherwise than by means of chips issued by the Licensee; or

   (iii) made without placing any chips on the gaming table, unless otherwise provided in the approved game rules.

\(^1\)Match play coupon definition see Regulation 1.
(c) Refusal of wagers

A licensed gaming employee of a Licensee conducting an approved game shall refuse a wager from a patron if:

1. the licensed gaming employee knows that a patron is incapable of making a decision in relation to a wager by reason of his state of intoxication, or has reasonable doubts as to the patron’s ability to do so; or

2. the wager is placed otherwise than in accordance with the approved game rules of the game.

(d) Winnings to be paid in gaming chips and/or plaques

Winnings on an approved game shall be paid to a patron only in gaming chips and/or plaques. In case of large jackpot wins, the patron may request to be paid through any means using any type of financial instrument acceptable to the Licensee.

(e) Payment of winnings in full

A Licensee shall pay every patron who wins a wager on any game played at a gaming table or on a gaming machine within its casino premises his winnings in full without deduction of any commission or fee, unless otherwise provided in the rules of the game.

(f) Refund of wagers and recovery of winnings when game is declared void.

1. A Licensee shall declare a game void if there is any malfunction or fault in, or interruption in the operation of, any part of any gaming machine or gaming equipment that affects the outcome of that game.

2. Without prejudice to paragraph (1), a Licensee may declare a game void if:

   (i) there is a force majeure event that disrupts that game;

   (ii) the Licensee knows or reasonably suspects that a patron is committing or has committed an offence in such a manner as may affect the outcome of that game; or

   (iii) the approved game rules of the game provide for other circumstances under which the game may be declared void and the declaration is done under those circumstances.
3. If a game being played at a gaming table or on a gaming machine is declared void under paragraph (1) or (2), the Licensee shall:

(i) clearly notify every patron playing that game that the game has been declared void; and,

(ii) refund all wagers made on that game.

4. Where a game is declared void under paragraph (1) or (2) (except on the ground of a force majeure event under paragraph (2)(a)), the Licensee may, in addition, recover the winnings of any or all patrons from that game, if:

(i) there is clear information provided to the players of the game or displayed prominently in the casino concerning the circumstances under which, and the means by which, winnings will be recovered when the game is declared void; and

(ii) the recovery of winnings is done in accordance with the information in sub-paragraph (i).

5. In paragraph (2)(i), “force majeure event” includes —

(i) fire or flood;

(ii) an act of God;

(iii) an act of war;

(iv) strikes, lock-outs or stoppages or restraints of labour;

(v) riots or civil commotions; or

(vi) any other event beyond the control of the Licensee that makes the continuation of the game impossible.

To constitute force majeure, all of the following elements must occur:

(i) the cause of the unforeseen and unexpected occurrence must be independent of the will of the Licensee;

(ii) it must be impossible to foresee the event that constitutes caso fortuito or, if it can be foreseen, it must be impossible to avoid;

(iii) the occurrence must be such as to render impossible for the game to be carried out in a normal manner; and,
(iv) the Licensee must be free from any participation in the aggravation of the injury or loss.

(g) Patrons to be notified of closure of gaming table or electronic gaming machine

1. Subject to paragraph (3), a Licensee shall ensure that reasonable notice is given to patrons before the closure of any gaming table or electronic gaming machine.

2. Without limiting the generality of paragraph (1), reasonable notice may be given by:

(i) displaying a notice of the impending closure of a gaming machine on the screen of the gaming machine for a reasonable period of time before the closure of the gaming machine; or

(ii) notifying patrons (orally or otherwise) at a gaming table prior to the commencement of the last round of play before the closure of the gaming table.

3. A Licensee may close a gaming table or gaming machine without notice where it has reasonable cause to believe that such closure is necessary:

(i) in the interest of public or private safety;

(ii) to ensure that gaming is conducted honestly; or

(iii) to maintain, repair or otherwise deal immediately with any gaming table, gaming equipment or gaming machine to ensure game security and integrity.

4. In this regulation, “closure”, in relation to a gaming table or a gaming machine, does not include a momentary stoppage of play from which the play can be resumed at the stage it was stopped.

(h) Gaming by intoxicated persons prohibited

A Licensee shall not permit a person who is in a state of intoxication to participate in any gaming activity within its casino premises. A “state of intoxication” means a state wherein a person’s speech, balance, coordination or behaviour is noticeably affected and there are reasonable grounds for believing this state to be induced by alcohol, narcotics or any intoxicating substance.
Duties of licensed gaming employees in relation to conduct of gaming on casino premises

1. A licensed gaming employee shall not:

   (i) advise a patron how to play a game, except to explain the rules of the game or to ensure the patron’s compliance with the relevant approved game rules;

   (ii) by himself or in conjunction with any other person, corruptly solicit or receive, or agree to receive, any tip, gratuity, consideration or other benefit for himself or for any other person as an inducement to or a reward for improperly influencing the outcome of a game;

   (iii) accept chips for any purpose other than those set out in Section 7(e); or

   (iv) permit a patron to participate in any gaming activity if the patron is in a state of intoxication.

2. Every licensed gaming employee authorized to issue, exchange or redeem chips or chip purchase vouchers shall do so only in accordance with Section 7(a) to (e).

3. Every licensed gaming employee authorized to conduct games shall:

   (i) deal and shuffle playing cards only in accordance with Section 8(a);

   (ii) accept, refuse or refund wagers only in accordance with Section 8(b), 8(c) and 8(f);

   (iii) pay or recover winnings only in accordance with Section 8(d), 8(e) and 8(f);

   (iv) declare a game void only in accordance with Section 8(f); and

   (v) give notice of the closure of a gaming table or electronic gaming machine in accordance with Section 8(g) where necessary.

4. It shall be a condition of a gaming employee license that the licensed gaming employee complies with:

   (i) paragraph (1) in every case; and
(ii) where applicable to the licensed gaming employee, paragraph (2) or (3) or both.

5. A licensed gaming employee who contravenes a condition of a gaming employee licence applicable to him under this regulation shall be liable to disciplinary action.

(j) Duties of Licensee

Any Licensee which:

1. issues, exchanges or redeems chips or chip purchase vouchers other than in accordance with Section 7(a) to 7(e);

2. allows the use of chips other than in accordance with Section 7(e);

3. uses or allows the use of playing cards other than in accordance with Section 8(a);

4. accepts, refuses or refunds wagers other than in accordance with Section 8(b), 8(c) and 8(f);

5. pays or recovers winnings other than in accordance with Section 8(d), 8(e) and 8(f);

6. declares a game void other than in accordance with Section 8(f); or

7. contravenes Section 8(g) or 8(h), shall be liable to disciplinary action.

Section 9. Emergency Drop Box

(a) A full or inoperable drop box that must be replaced outside of the table game drop box collection schedule shall be replaced with an empty emergency drop box. The use of a trolley may not be required when a drop box is replaced by an emergency drop box. The drop box shall be removed and transported directly to and secured in the count room by at least one casino security department member and one casino games supervisor as follows:

1. A casino security department member shall notify the surveillance department which shall monitor and record the transaction. If more than one drop box is to be removed, such notification shall include the order in which the boxes will be removed and replaced;

2. The security department member shall complete a three-part
emergency box form documenting the replacement of the drop box. The form shall include at a minimum:

(i) The date and time;
(ii) The pit and table number;
(iii) The reason for the removal; and
(iv) The signatures of the security department member and casino games supervisor participating in the process.

3. The casino security department member shall sign out the count room key, emergency box cabinet or padlock key and the key to remove the drop box from the gaming table. The keys are maintained and controlled by the casino security department. Access to these keys shall be limited to casino security supervisors and shall be controlled, at a minimum, by a sign-out and sign-in procedure described in the Licensee’s Minimum Internal Control Standards of the Casino Operational Rules and Guidelines approved by PAGCOR.

4. The casino security department member and a casino games supervisor shall obtain the emergency box from the count room, affix the original emergency drop box form to the emergency box and transport the box with the duplicate and triplicate emergency drop box form to the appropriate gaming pit.

5. The casino security department member shall remove the full or inoperable drop box from the table game and replace it with the empty emergency drop box in the presence of the casino supervisor. A member of the table games department shall deposit the duplicate into the emergency drop box after the box is attached to the table.

6. A security department member shall place the triplicate in a locked accounting box and furnish a photocopy within 24 hours to the PAGCOR Monitoring Team;

7. The drop box removed from the table game shall be transported by the casino security department member and casino supervisor to the count room. Thereafter, the drop box shall be secured in an emergency drop box cabinet or trolley;

8. For each full or inoperable drop box exchanged, the casino security department member or casino supervisor shall record on an emergency drop box log, to be maintained with the emergency drop box cabinet or trolley, the following:

(i) Date and time the drop box was secured in the cabinet or trolley;
(ii) Drop box pit and table number; and
(iii) Signatures of the casino security department member
and casino games supervisor participating in the emergency drop box process.

9. The keys shall be returned and signed in by a casino security department supervisor.

(b) Whenever a gaming table is to be moved, the Licensee shall remove and secure the drop box in the count room in accordance the emergency drop box procedures in (a) above except that the drop box shall not be replaced with an emergency drop box and the emergency drop box form shall not be completed.

(c) Drop boxes, when not in use during a shift, may be stored on the gaming tables provided that there is adequate security.

Section 10. Photograph and video coverage inside the casino premises

(a) No person shall be allowed by the Licensee to take photograph or video coverage inside the casino premises unless:

1. A Notification for Photograph and Video Coverage Form (Form 36) has been submitted by the Licensee to GLDD at least two (2) business days prior to actual activity; and

2. The activity is conducted in accordance with the guidelines set out in subsection (b) below.

(b) A Licensee or its authorized photographer/videographer may take photograph or video coverage inside the casino premises subject to the following:

1. No photo and/or video coverage of actual live gaming operations with customers playing on gaming tables and/or electronic gaming machines will be allowed.

2. For promotional purposes, photo and/or video coverage shall be allowed purely on “mock-up/production setup” where actors/actresses portray casino customers playing on gaming tables and electronic gaming machines (EGMs). The EGMs shall not be in play during the shoot.

3. Should tournament (i.e., baccarat, slot, poker, etc.) photos or videos be warranted, the Licensee shall seek first the approval of the concerned players and shall show the PAGCOR Monitoring Team proof of such.

4. When shooting photos or videos of non-gaming events inside the casino (e.g., concerts, documentaries, et. al.), camera(s)
shall not be allowed to focus at or point in the general direction of the gaming table and/or electronic gaming machine areas.

5. The use of camera/s other than that of the Licensee or its authorized photographer/videographer shall be prohibited.

6. The photo and/or video coverage shall not cause any disruption to casino operations.

7. The PAGCOR Monitoring Team shall witness and monitor all photo and/or video shoots. The Licensee shall notify the PAGCOR Monitoring Team at least forty-eight (48) hours prior to the intended schedule of said activity.

8. PAGCOR reserves the right to prohibit the commercial use of any photograph or video footage taken during the shoot as it deems warranted.

(c) A Licensee who contravenes this Section shall be subject to disciplinary action.
ADVERTISING

Section 1. General Rule

Advertising materials placed in any media published in the Philippines must be socially responsible. Said materials must not portray, encourage or condone gambling behavior that is socially irresponsible or could lead to financial harm, directed at children or feature people who are or who appear to be under 21 years old or suggest that gambling can be a solution to money problems.

Section 3. Content

(a) Mandatory Elements

1. Prohibition of under 21 years old logo
2. RG slogan – “Keep it Fun”
(b) Messages should not:

1. be directed to persons below 21 years old
   ➢ must neither catch the attention nor give interest to the viewing minors
2. imply that a player's skill can influence the outcome of a gambling activity
   ➢ discourage the thought that skill and talent can change the result of the game or can assure a win
3. give an impression that gambling is an accepted way to make money
   ➢ promote that gambling is more on entertainment, fun and leisure and not a money-making activity
   ➢ must not imply that gambling solves financial problems
4. include misleading statements about odds and prizes
   ➢ should not ensure winnings or prizes if not guaranteed

Section 4. Location of Billboards

Billboards that promote the licensees' facilities and its activities must be located not less than a 200 meter radius from schools and places of worship/churches. As defined in Licenses to Operate, schools are educational institutions duly registered with the Department of Education (DepEd) and Commission on Higher Education (CHED). Places of worship are sites predominantly used for regular worship.
CASINO PLAYER INCENTIVES

4. Close Trip Report Summary  

Section 2. Classification and take-up of Player Incentives  
   
(a) Any form of player incentive including but not limited to rebates, rolling commission, incentive commission, etc. shall be classified as an expense incurred in the course of casino operations and shall be accounted for separately as marketing expense of the Licensee.  
   
(b) Player incentive shall be solely for the account of and shouldered by the Licensee.  

Section 3. Player Incentives not gaming table losses  
   
For purposes of computing gross gaming revenues, any form of player
incentive including but not limited to rolling commission, rebates, etc., shall
not be declared as gaming table losses to be drawn from table capital, and
therefore shall not be included as a deduction in the computation of gross
gaming revenues.

Section 4. Offense and penalty

(a) Any Licensee who:

1. contravenes Sections 2 and/or 3; or

2. understates any gross gaming revenues by any amount of
player incentive; or,

3. gives any incorrect information in relation to any matter affecting
the Licensee’s ability to remit the License Fees,

shall be subject to disciplinary action.

(b) Any unpaid License Fees resulting from (a)1., (a)2. or (a)3. shall earn
interest at the rate of twelve percent (12%) per annum.
MARKETING AND PROMOTIONS

Section 1. Marketing and/or casino promotions for consultation with PAGCOR

(a) All marketing and/or casino promotions including the following shall be consulted with PAGCOR prior to implementation:

1. any membership or loyalty program by which:
   (i) points, credits or rewards may be earned from the playing of any game in a casino; or,
   (ii) points, credits or rewards may be redeemed within the casino premises whether for the playing of a game.

2. any contest, lucky or raffle draw or tournament in which:
   (i) a prize may be won directly or indirectly as a result of visiting any casino or playing any game in a casino; or,
   (ii) a prize may be redeemed on or used for the playing of any game in a casino.

3. any activity, program or incentive, or any combination of them, which gives publicity to, or otherwise promotes or is intended to promote:
   (i) the visiting of a casino; or,
   (ii) the playing of any game in a casino.

(b) A Licensee shall consult with GLDD all marketing and/or casino promotions by submitting the following documents at least five (5) business days before the implementation date:

1. a duly accomplished Marketing Promotions Form (Form 33) duly signed by the Licensee’s duly authorized signatory;

2. Implementing Rules and Guidelines (IRG) of the marketing and/or casino promotion containing the following:
(c) Requests with incomplete submissions shall not be processed and shall be returned to the Licensee.

(d) A Licensee shall only notify GLDD if the marketing and/or casino promotion is similar to a marketing and/or casino promotion which has already been consulted with GLDD. Notwithstanding, the Licensee shall submit a duly accomplished Marketing Promotions Form (Form 33) together with said activities’ Implementing Rules and Guidelines to GLDD at least one (1) business day before the scheduled casino promotion.

(e) Any modification to the IRG of the marketing and/or casino promotion shall require consultation with PAGCOR prior to implementation. As such, the Licensee shall submit the following documents to GLDD at least five (5) business days before the implementation date:

1. a duly accomplished Marketing Promotions Form (Form 33) duly signed by the Licensee’s duly authorized signatory, containing the revision notes;

2. Revised IRG of the marketing and/or casino promotion containing the information under subsection (b) of this section.

(f) No later than December 1 of each year, the Licensee shall submit to GLDD, a calendar of its marketing and/or casino promotions for the coming year.

All marketing costs to be incurred in any marketing and/or casino promotion shall be solely for the account of and shouldered by the Licensee.

(g) Special promotional events which to GLDD’s judgment shall require the oversight presence of the PAGCOR Monitoring Team shall be subject to an administrative fee of PhP50,000.00 per event. The Licensee shall remit said administrative fee prior to the conclusion of the event.

Section 2. Minimum Requirements for Gaming Vouchers and Promotional Coupons
(a) Gaming Vouchers and/or gaming tickets

1. Gaming vouchers or gaming tickets issued from a slot machine voucher system or ticket system (such as the Ticket-In-Ticket-Out System) shall contain the following information, at a minimum:

   (v) validation number/serial number assigned to the voucher/ticket;
   (vi) the serial number of the slot machine dispensing the voucher/ticket;
   (vii) a bar code which shall enable the system to identify the gaming voucher/ticket record;
   (viii) a conspicuous notice that the voucher/ticket must be redeemed for play within a period as the Licensee may require but not to exceed fifteen (15) days from the date of its issuance, otherwise the voucher/ticket shall be redeemed at the cashiering location; and,
   (ix) For vouchers/tickets to be redeemed from a cashiering location, a notice that the gaming voucher/ticket shall never expire.

2. It shall be the responsibility of the Licensee to:

   (i) ensure that gaming vouchers/tickets issued and redeemed are genuine;
   (ii) implement internal controls in the accounting and safeguarding of gaming vouchers/tickets.

(b) Promotional “chip coupons”

1. Promotional coupons issued by the Licensee to redeem complimentary chips and plaques (or “chip coupons”) shall be original instruments and shall contain, at a minimum, the following information:

   (i) name of the Licensee;
   (ii) trade name of the casino;
   (iii) serial number assigned to the coupon;
   (iv) bar code which shall enable a system to verify voucher record, if applicable;
   (v) value of the coupon, printed in both numbers and words;
   (vi) date of issuance;
(vii) the location or locations where the coupon may be redeemed;
(viii) a conspicuous notice when the coupon will expire;
(ix) any restriction regarding the coupon’s redemption such as non-cashable; and,
(x) signature of an authorized signatory of the Licensee.

2. Promotional chip coupons shall be designed and manufactured so that the denomination and type of coupon can be determined utilizing the surveillance system. The signature of an authorized signatory of the Licensee must appear on the coupon.

3. It shall be the responsibility of the Licensee to:

(i) ensure that promotional chip coupons issued and redeemed are genuine;
(ii) implement internal controls in the accounting and safeguarding of promotional chip coupons.

(c) Promotional “wager coupons”

1. Promotional coupons issued by a Licensee to patrons for wager in gaming tables (or “wager coupons”) shall be original instruments and shall contain, at a minimum, the following information:

(i) name of the Licensee;
(ii) trade name of the casino;
(iii) serial number assigned to the coupon;
(iv) bar code which shall enable a system to verify voucher record, if applicable;
(v) value of the coupon, printed in both numbers and words;
(vi) date of issuance;
(vii) the location or locations, gaming table or gaming tables where the coupon may be wagered;
(viii) a conspicuous notice when the coupon will expire;
(ix) any restriction regarding the coupon’s redemption such as non-cashable;
(x) contain a statement that the wager coupon is valid for only one hand of play or until lost.;
(xi) a match play coupon shall contain an area designated for the placement thereon of the required gaming chips, which area shall be located on the coupon so as not to obscure or interfere with visibility of the type and denomination of the coupon; and,
(xii) signature of an authorized signatory of the Licensee.

2. Promotional wager coupons shall be designed and manufactured so that the denomination and type of coupon can be determined utilizing the surveillance system.
3. It shall be the responsibility of the Licensee to:

(i) ensure that promotional wager coupons issued and redeemed are genuine;
(ii) implement internal controls in the accounting and safeguarding of promotional wager coupons.

Section 3. Inventory of Promotional Coupons

(a) The Licensee shall maintain a Promotional Coupon Control Ledger for each type of promotional coupon. Such ledger shall include the following information:

1. Type of promotional coupon (promotional chip coupon and promotional wager coupon i.e. match bet coupon and direct bet coupon);
2. Date Licensee received the coupons from a manufacturer;
3. beginning and ending serial numbers of coupons received;
4. Quantity of coupons received;

9. beginning and ending serial numbers of coupons issued;
10. quantity of coupons issued; and,
11. Signatures of Licensee’s representatives authorized to maintain the ledger, issue the coupons and receive the coupons.

The Licensee shall grant the PAGCOR Monitoring Team to access the Promotional Coupon Control Ledger upon prior notice to the Licensee.

(b) The Licensee shall submit a Report on Promotional Coupons Issued for each type of promotional coupon to the PAGCOR Monitoring Team at the beginning of each trading day. Such report shall contain the following information:

1. Type of promotional coupon (promotional chip coupon and promotional wager coupon i.e. match bet coupon and direct bet coupon);
2. date of issuance;
3. expiry date;
4. serial number of each coupon;
5. coupon value;
6. coupon status;
(i) Unredeemed or active, meaning the voucher or coupon is available for redemption;
(ii) Redeemed, meaning the voucher or coupon has been validated and wagered/exchanged for chip or plaque;
(iii) Expired, meaning the coupon has exceeded its specified redemption period and it is prevented from being redeemed at any location;
(iv) Voided, meaning the voucher has not been expired or redeemed, but has been cancelled in a way that precludes its redemption; or

7. date of coupon redemption;
8. location of coupon redemption.
9. quantity of coupons; and,
10. Signatures of Licensee’s representatives who prepared the report.

(c) At the end of trading day, the Licensee shall submit to the PAGCOR Monitoring Team the following reports:

1. Promotional voucher/coupon redemption summary;
2. Expired promotional voucher/coupon summary; and,
3. Promotional voucher/coupon soft count summary showing the quantity and value of vouchers/coupons contained in the drop box and counted in the count room.

(d) The Licensee shall prepare monthly inventory report of unused coupons/vouchers and agree the balance of coupons/vouchers on hand per physical count to the monthly inventory report. Any deviations between the physical count and the monthly inventory report will be immediately reported by the Licensee to PAGCOR.

(e) The PAGCOR Monitoring Team shall conduct cut-off procedures to audit the monthly inventory ledger of unused coupons/vouchers vis-a-vis the balance of coupons/vouchers on hand.

(f) At the end of each promotion, all unissued vouchers/coupons no longer valid shall be voided by the marketing department either by punching a hole in or by stamping “void” across the face of each unissued coupon/voucher. The PAGCOR Monitoring Team may verify the voided coupons/vouchers with the inventory ledger of unissued vouchers/coupons.

Section 4. Issuance and Redemption of Promotional Chip Coupons

(a) A Licensee may, for specified marketing purposes, provide its patrons with promotional chip coupons redeemable for complimentary chips and plaques.
(b) The Licensee shall be responsible for ensuring that the promotional chip coupons redeemed are valid legal tenders. A dealer shall verify that the coupon has not expired or is otherwise void on its face.

(c) Promotional chip coupons are non-cashable;

(d) Promotional chip coupons shall be redeemed in gaming tables only. Promotional chip coupons redeemed by players for complimentary chips and plaques shall form part of the Drop and shall reflect as part of the Gross Gaming Revenue.

(e) The Licensee shall furnish the PAGCOR Monitoring Team with a list of promotional chip coupons issued to players on a daily basis.

(f) Promotional chip coupons issued by the Licensee for complimentary chips and plaques can only be used once.

(g) All promotional chip coupons redeemed pursuant to this section shall be cancelled either:
   1. by the dealer upon redemption; or,
   2. by a duly authorized count team member.

Section 5. Gaming Points redeemable for chip coupons

(a) Gaming Points may be used to redeem coupons in exchange for complimentary chips and plaques subject to Section 4 above.

(b) Except as otherwise stated in subsection (a) above, gaming points are not redeemable for complimentary chips and plaques.

Section 6. Issuance and Redemption of Promotional Wager Coupons

(a) A Licensee may, for specified marketing purposes, provide its patrons with promotional wager coupons such as match play coupons or direct bet coupons, acceptable for wager in gaming tables only.

(b) The Licensee shall be responsible for ensuring that promotional wager coupons redeemed are valid legal tenders. A dealer shall verify that the coupon has not expired or is otherwise void on its face.

(c) Promotional wager coupons are non-cashable;

(d) Promotional wager coupons wagered by players in gaming tables shall form part of the Drop and shall reflect as part of the Gross Gaming Revenue. The PAGCOR Monitoring Team shall report the total amount of promotional wager coupons bet at gaming tables.
(e) The Licensee shall furnish the PAGCOR Monitoring Team with a list of promotional wager coupons issued to players on a daily basis.

(f) A wager coupon (for example, match play coupon or direct bet coupon) shall only be accepted at a gaming table in which patrons wager against the house.

1. The coupon shall be positioned as follows:
   
   (i) For all games other than craps or roulette, in the patron's betting area;

   (ii) For craps, only on the Pass or Don't Pass Line; or

   (iii) For roulette, only on outside bets.

2. Only one wager coupon shall be used per one hand of play.

3. If the wager wins, it shall be paid in accordance with the applicable rules of the game; and

4. Whether the wager wins or loses, the coupon shall be deposited into the drop box attached to the gaming table at the time the winning wager is paid or the losing wager is collected.

(g) For a match play coupon:

1. The coupon shall only be accepted if accompanied by the proper amount of gaming chips required by the coupon. The chips shall be placed on the coupon in such a way that the type and value of the coupon shall be visible at all times.

2. If the chips wagered by the patron are greater in value than the stated value of the match play coupon, the dealer shall exchange the player's chips for other denominations from the table inventory in order to match the value of the wager coupon.

(h) For a direct bet coupon:

1. A player may elect to increase the amount of his wager above the amount stated on the coupon by simultaneously wagering additional gaming chips in addition to the coupon. The chips shall be placed on the coupon in such a way that the type and value of the coupon remains visible at all times.

(i) All coupons accepted pursuant to this section shall be cancelled either:

1. By the dealer upon acceptance; or

2. By a duly authorized count team member.
CHIPWASHING AND JUNKET OPERATIONS

PART I
THIRD-PARTY CHIPWASHING AND JUNKET OPERATIONS

Section 1. Licensee may enter into junket agreements

(a) A Licensee may enter into agreements with third-party chipwashing and/or junket operators.

(b) The Licensee shall notify PAGCOR of such chipwashing and/or junket operator by submitting a duly accomplished Third-Party Chipwashing and Junket Operators Notification Form (Form 34) containing the following information:

In such instances:

(i) The Licensee shall notify the PAGCOR Monitoring Team:

- of the Junket Player’s arrival date and show proof thereof (e.g. Junket Program enrolment, player rating and/or surveillance coverage), and;

- of the enlistment of the Junket Player into the Junket Player Database pursuant to paragraph (g) 1. above, upon which the PAGCOR Monitoring
Team shall write down the date of enlistment in the Junket Players Eligibility Monitoring Form (Form No. 65).

(ii) The PAGCOR Monitoring Team shall accomplish the Junket Players Eligibility Monitoring Form (Form No. 65) which shall contain the following information:

- Date of Inspection
- Name of Junket Player
- Junket Player’s Date of Arrival
- Proof of Junket Player’s Arrival (i.e., per the Casino Management System or Surveillance coverage)
- Deadline for Junket Player’s Enlistment in the Junket Player Database (i.e., within 5 days from player’s arrival date in the Casino)
- Date of Enlistment of Junket Player into the Junket Player Database

(iii) The PAGCOR Monitoring Team shall access the Junket Player Database to verify the Junket Player’s enlistment.

(h) The Licensee shall:

1. grant the PAGCOR Monitoring Team access at all times to the:

   (i) Junket Player Database for purposes of determining the eligibility of the Junket Player

   (ii) Licensee’s relevant Casino Management System i.e. Junket program and player rating modules for purposes of determining the arrival date of the Junket Player.

2. attend before the PAGCOR Monitoring Team in relation to any matter relevant to its junket operations and to answer questions relating to those matters.

Section 3. Junket Player Eligibility

(a) A Junket Player shall be eligible to play in junket tables of the Casino only if he/she is enlisted in the Junket Player Database. Below is the process flow in determining the Junket Player eligibility.
(b) A Junket Player shall be adjudged by the PAGCOR Monitoring Team as ineligible to play in junket tables of the Casino if:

1. The Junket Player is not enlisted in the Licensee’s Junket Player Database within five (5) days from arrival date of the Junket Player in the Casino.

2. Information on the Junket Player (e.g., passport details, date of arrival, etc.) cannot be found in the relevant module of the Licensee’s Casino Management System at the time of the PAGCOR Monitoring Team’s inspection.

(c) If a Junket Player is adjudged by the PAGCOR Monitoring Team as ineligible to play in junket tables of the Casino pursuant to subsection (b) above, the junket table where that player played shall be classified
as a Non-High Roller table for the purpose of computing the License Fee.

Section 4. Records to be kept of Junket Players

(a) Notwithstanding the information contained in the Junket Player Database under Section 2 (b), the Licensee shall maintain a record of the following information pertaining to each Junket Player in a relevant module of the Licensee’s Casino Management System:

1. photo;
2. full name;
3. date of birth;
4. nationality;
5. passport number;
6. passport validity date;
7. junket program enrolment date and start of play date; and
8. name of the junket operator/agent, if any, accompanying the junket player.

(b) The Licensee shall, whenever requested by PAGCOR to do so:

1. produce to PAGCOR all records referred to in subsection (a) above and permit the examination of those records; and
2. furnish PAGCOR all such information as PAGCOR may require in connection with any such records.

Section 5. Allowed number of Junket tables and type of gaming chips and plaques

(a) The number of allowed Junket tables shall be determined based on the Bonus Gaming Table Capacity and Gaming Table Mix ratios prescribed under Regulation 3 Sections 1 and 3, respectively.

(b) Junket tables shall exclusively use and accept gaming chips and plaques designated by the Licensee as “Junket gaming chips and plaques”. Junket gaming chips and plaques are the only authorized gaming chips and plaques for use in Junket tables.

1. In addition to the specifications for gaming chips and plaques prescribed in Regulation 8 Section 2, the design and artwork of Junket gaming chips and plaques shall be separate, unique and distinct from all other gaming chips and plaques used in the Non-High Roller and High Roller tables of the casino.
Section 6. Video Streaming of Junket Tables

(a) Video streaming shall be allowed on both foreign currency and Philippine Peso denominated junket tables up to a maximum of twenty percent (20%) of the total junket tables installed at the Casino, subject to the following:

1. The Licensee shall notify PAGCOR of junket tables designated for video streaming by submitting the Video Streaming Notification Form (Form No. 4A) to GLDD at least seven (7) business days prior to the target implementation date;

2. The minimum betting limits of junket tables designated for video streaming shall be as follows:

<table>

<td>HKD2,000.00 per hand</td>
<td>HKD2,000.00 per spin</td>
</tr>
<tr>
<td>Philippine Peso</td>
<td>PHP10,000.00 per hand</td>
<td>PHP10,000.00 per spin</td>
</tr>
</tbody>
</table>

(i) Table limits shall be submitted to and approved by PAGCOR prior to implementation.

(ii) Table limits shall be displayed in each gaming table.

3. The minimum betting limits above are subject to PAGCOR’s review in consultation with the Licensees, every one (1) year.

(b) The Licensee shall be responsible for notifying players of the video streaming capability of such junket table(s).

(c) The Licensee shall grant access to video streaming only to foreign IP addresses enlisted with the Licensee.

1. The Licensee shall keep a record of every foreign IP address granted access.

2. The Licensee shall, whenever requested by PAGCOR, furnish PAGCOR all such information in connection with such records.

Section 7. Disciplinary actions on a Licensee concerning third-party chipwashing and/or junket operators

(a) A disciplinary action on a Licensee, in relation to a third-party chipwashing and/or junket operator means the issuance by PAGCOR of a letter of censure to the Licensee;
(b) A letter of censure may censure the Licensee and may include a direction to the Licensee to rectify within a specified time any matter giving rise to the letter of censure.

PART II
JUNKET RUNNERS

Junket runners\(^1\) assist the junket operator during the course of junket operations. Junket runners provide customer service including chip exchanges and cage transactions, verify wins; provide customers with a beverage, etc.

Section 1. Local Junket Runners

(a) A junket operator may hire local junket runners in the course of junket operations.

(b) The junket operator shall seek the accreditation of the Licensee in order to deploy local junket runners in the junket areas. The Licensee shall screen the junket runner and ensure that the junket runner is not a banned personality. Only persons who do not engage in gambling within the Philippines may be qualified as local junket runners.

(c) All junket runners must have obtained clearance certificates from the National Bureau of Investigation (NBI) prior to employment.

(d) The Licensee shall seek PAGCOR’s clearance on local junket runners which has passed accreditation pursuant to subsection (b) above prior to their deployment for junket operations. The procedures for seeking PAGCOR’s clearance is stated in Section 3 hereof.

(e) A Licensee shall not deploy a junket runner unless that person’s Junket Runner Clearance request has been approved by PAGCOR.

(f) The Licensee shall maintain a database of junket runners employed for junket operations, which shall include the following information:

1. name of junket runner;
2. address of junket runner;
3. date of birth;
4. nationality;
5. reference no. of NBI Clearance Certificate;
6. date of issuance of NBI Clearance Certificate;

\(^1\) Junket Runners definition see Regulation 1.
(g) Each Junket Runner shall be issued by the Licensee an Identification Card (ID) bearing the following information:

1. Junket Runner’s name;
2. Junket group the Runner is affiliated with, and

Section 2. Foreign Junket Runners

(a) A junket operator may hire foreign junket runners for a specific travel period in the course of junket operations.

(b) The junket operator shall seek the accreditation of the Licensee in order to deploy foreign junket runners in the junket areas. The Licensee shall screen the junket runner to ensure that the junket runner is not a banned personality.

As part of the screening for foreign junket runners, the Licensee shall see to it that the junket runner is a person of good repute, having regard to character, honesty and integrity, and that the junket runner has no pending criminal case or is a party to any criminal activity.

The Licensee shall cause to be carried out all such investigations and inquiries as it considers necessary to enable it to screen the junket runner properly. In particular, the Licensee may:

1. require the junket runner to consent to having his photograph, finger prints and palm prints taken; and
2. send a copy of any such photograph, finger prints and palm prints taken under paragraph 1 and any supporting documentation to the concerned authorities of the junket runner’s home country for verification purposes.

PAGCOR may request the Licensee to submit documents from the concerned authorities of the junket runner’s home country certifying that the junket runner has no derogatory record.

(c) The Licensee shall seek PAGCOR’s clearance on foreign junket runners which has passed accreditation pursuant to subsection(b) above prior to their deployment for junket operations. The procedures for seeking PAGCOR’s clearance is stated in Section 4 hereof.

(d) A Licensee shall not deploy a junket runner unless that person’s Junket Runner Clearance request has been approved by PAGCOR.

(e) The Licensee shall maintain a database of junket runners employed for junket operations, which shall include the following information:
1. full name;
2. address;
3. date of birth;
4. nationality;
5. passport number and validity;
6. flight departure date and time; and,
7. flight arrival date and time.

Each Junket Runner shall be issued by the Licensee an Identification Card (ID) bearing the following information:

1. Junket Runner’s name;
2. Junket group the Runner is affiliated with, and

Section 3. Application for Local Junket Runner clearance approval

(a) No later than February 28 of each calendar year, the Licensee shall seek PAGCOR’s clearance for its accredited Junket Runners by submitting the following to the Gaming Licensing and Development Department (GLDD):

1. accomplished Junket Runner Clearance Request for Approval Form (Form 35) duly signed by an authorized signatory of the Licensee; and,
2. Certified true copy of the NBI Clearance Certificate for each of the proposed junket runner. It is the Licensee’s responsibility to ensure that each of the submitted NBI Clearance Certificates is authentic and valid for the duration of the clearance period granted by PAGCOR.

The Licensee shall furnish GLDD with an address in the Philippines at which summonses, notices and other documents may be served on any junket runner.

(b) GLDD may refuse to consider an application under subsection(a) if the application is incomplete or the accompanying NBI Clearance Certificate is invalid.

(c) Validity period of Junket Runner Clearance

1. A Junket Runner Clearance approved by GLDD shall be valid until the end of the current year.
2. A Junket Runner clearance shall be automatically revoked when:
(i) the submitted NBI Clearance Certificate prove to be invalid upon verification with the NBI;
(ii) the junket runner ceases to be an accredited employee of the junket operator; or
(iii) the agreement between the Licensee and the junket operator employing the junket runner expires or is terminated.
(iv) the junket runner has been declared a banned personality;
(v) the junket runner has been convicted or found guilty of:

- an offense arising out of or in connection with his employment as junket runner; or
- the junket runner was found to be engaged in wagering activities in a casino premise;
- whether in the Philippines or elsewhere, an offense involving dishonesty or moral turpitude;

(d) An application for renewal of a Junket Runner clearance shall follow the same procedures prescribed under subsection (a).

Section 4. Application for Foreign Junket Runner clearance approval

(a) Application for Foreign Junket Runner clearance approval shall be done in two (2) stages:

**Stage 1:**

No later than seven (7) days prior to the arrival of the junket runner, the Licensee shall seek PAGCOR’s clearance for its accredited foreign Junket Runner by submitting the following to the Gaming Licensing and Development Department (GLDD):

1. accomplished Junket Runner Clearance Request for Approval Form (Form 35) duly signed by an authorized signatory of the Licensee. The Licensee shall indicate the duration/period of the deployment of the foreign junket runner in the casino premises; and,

2. Pre-manifest list of junket runners containing the following information relating to each junket runner:

   (i) full name;
   (ii) date of birth;
   (iii) nationality;
   (iv) passport number and validity; and
   (v) flight arrival date and time.
3. Photocopy of passport of junket runner showing the junket runner’s passport photo page.

The Licensee shall furnish GLDD with an address in the Philippines at which summonses, notices and other documents may be served on any junket runner.

**Stage 2:**

A foreign junket runner approved by PAGCOR under Stage 1 shall be allowed entry into the junket areas upon submission by the Licensee to the PAGCOR Monitoring Team of a copy of each of the following documents:

1. Manifest list of foreign junket runners containing the following information relating to each junket runner:
   
   (i) full name;
   (ii) date of birth;
   (iii) nationality; and
   (iv) passport number and validity

2. Passport of junket runners showing:
   
   (i) junket runner’s passport photo page; and,
   (ii) the latest arrival date as stamped by the Philippine Immigration on the passport arrival page.

(b) GLDD may refuse to consider an application under Stage 1 if the application is incomplete.

(c) A Junket Runner Clearance approved by GLDD shall be valid for the duration of the period indicated in the Junket Runner Clearance Approval Form.

**Section 5. Disciplinary actions on a Licensee concerning junket runners**

(a) A disciplinary action on a Licensee, in relation to a junket runner, means the issuance by PAGCOR of a letter of censure to the Licensee.

(b) “Grounds for disciplinary action” means any of the following grounds:

1. the Licensee accredited or continued to accredit a junket runner:
   
   i. who is a banned personality;
   ii. who has been convicted or found guilty of:
      
      ➢ an offense arising out of or in connection with his employment as junket runner; or
whether in the Philippines or elsewhere, an offense involving dishonesty or moral turpitude;

(c) A letter of censure may censure the Licensee in respect of a junket runner and may include a direction to the Licensee to rectify within a specified time any matter giving rise to the letter of censure.
BANNED PERSONALITIES

Banning is the act of prohibiting a person access into a venue. Certain individuals are banned from entering casinos due to various reasons. Pursuant to Presidential Decree 1869 as amended by Republic Act 9487 otherwise known as the PAGCOR Charter, persons under 21 years of age or students of any school, college or university in the Philippines are not allowed to play in casinos. Pursuant to Malacañang Memorandum Circular No. 8, the following persons are prohibited from entering, staying and/or playing in casinos:

(a) Government officials and employees connected directly with the operation of the Government or any of its agencies; and
(b) Members of the Armed Forces of the Philippines including the Army, Navy, Air Force or the Philippine National Police.

In addition, banning may come in the form of:

(a) Self-Exclusion
(b) Request of Kin
(c) Those that emanate from the Licensee

As a general rule, a banning order issued by a Licensee to ban an individual from the casino shall be specific only to the Licensee’s casino premises, unless the banning order is of the Self Exclusion or Request of Kin variety, in which case, the banning order shall be effected nationwide across all licensed casinos. These are discussed in more detail in Regulation 28 of this Casino Regulatory Manual.

Section 1. Banned Personalities not allowed to enter, stay, and/or play in the gaming areas

(a) A banned personality is a person who is:

1. In pursuance to the PAGCOR Charter and Malacañang Memorandum Circular No. 8,
   1. a Government official connected directly with the operation of the Government or any of its agencies;
2. a Member of the Armed Forces of the Philippines, including the Army, Navy, Air Force or the Philippine National Police; and

3. a Person under 21 years of age or student of any school, college or university in the Philippines.

From these are excepted the personnel employed by the casinos, special guests, or those who at the discretion of PAGCOR may be allowed to stay in the premises.

2. Banned by an Exclusion Order as contemplated under Regulation 28;

   (i) Self or Voluntary Exclusion Order;
   (ii) Family Exclusion Order; or,
   (iii) Exclusion Order issued by the Licensee for banning in its own gaming area(s).

(b) The Licensee shall not allow a banned personality to enter, stay and/or play in the gaming area(s).

(c) A Licensee or its employee who knows that a banned person is about to enter the gaming area(s) shall, using no more force than is reasonably necessary, prevent the banned person from entering the casino premises.

(d) A Licensee who knowingly fails to comply with subsections (b) and (c) above shall be liable to disciplinary action.

(e) The Licensee shall install signage(s) and/or standee(s) to notify the general public, stating in verbatim the prohibitions indicated under Presidential Decree 1869 as amended by RA 9487 otherwise known as the PAGCOR Charter and Malacañang Memorandum Circular No. 8.

(f) The signage(s) and/or standee(s) must be installed at the following areas:

1. Access point(s) to the gaming area;
2. Cage and/or Cashier’s booth and redemption kiosks; and
3. Other strategic locations in the gaming areas.

The signage or standee shall be made of a Stanchion post not higher than 37 inches with a fabricated frame (portrait orientation) measuring 16.5 inches x 11.7 inches (A3 paper size) that will house the warning sign/notice. Following is a sample of the warning sign/notice:
NOTICE

Pursuant to Presidential Decree 1869, as amended by Republic Act 9487, persons under 21 years of age or students of any school, college or university in the Philippines are not allowed to play in this gaming establishment.

Pursuant to Malacañang Memorandum Circular No. 8, the following are not allowed to enter, stay and/or play in this gaming establishment:

1. Government officials and employees connected directly with the operation of the government or any of its agencies; and
2. Members of the Philippine National Police (PNP) and Armed Forces of the Philippines (AFP).

(g) The Licensee shall submit a casino floor layout identifying and color-shading the gaming areas, and indicating the locations of the signage(s) and/or standee(s).

(h) A log of prohibited persons found in the gaming area shall be maintained by the Licensee which shall contain the name of the prohibited person, time, and date.

Section 2. Banning order issued by a Licensee

(a) A banning order issued by the Licensee shall contain the following information with regard to the banned person, where practicable: (Note: Licensee to suggest template of banning order to be attached as Annex to this Manual)

1. Name
2. Age
3. Address
4. Physical description
5. Photograph
6. **Reason for banning**

(b) As soon as practicable, the Licensee shall furnish CMED with a copy of banning orders issued by the Licensee.

(c) The Licensee shall, from time to time, furnish the CMED with a list of persons banned from casino premises by the Licensee.

**Section 3. Removal of Banned Personalities from casino premises**

Licensee shall be responsible for the removal of a banned personality if from the casino premises.
DETERMINATION OF GROSS GAMING REVENUES AND PAGCOR LICENSE FEES FOR GAMING TABLES AND OTHER REGULATORY FEES

Section 1. Determination of Gross Gaming Revenue (GGR)

(a) The following documents shall be used as basis for computing the Gross Gaming Revenues for gaming tables:

1. Table opener showing the beginning inventory of a table capital at the beginning of the trading day;
2. Table closer showing the ending inventory of a table capital at the end of the trading day;
3. Soft count report on drop boxes based on the soft count procedures stated in Regulation 16;
4. Fill Slip; and,
5. Credit Slip.

(b) Complimentary/Promotional Chips used as wagers shall form part of table capital and therefore included in the Gross Gaming Revenues.

(c) Redeemed non-negotiable chips wagered by the players shall form part of table capital and therefore included in the Gross Gaming Revenues.

Manual determination of GGR:

(d) Based on the documents listed in subsection (a) above, Gross Gaming Revenue (GGR) for table games operation shall be computed using the formula:

\[
GGR = \text{Ending Inventory} + \text{Drop} + \text{Credit} - \text{Fill} - \text{Beginning Inventory}
\]
(e) Gross Gaming Revenues as computed using the above formula shall be the basis for PAGCOR’s License Fees.

(f) Gross Gaming Revenues shall be computed on a daily basis and at the end of the trading day.

**Determination of GGR using a casino management system:**

(g) The Final Master Game Report shall be used in the determination of Gross Gaming Revenues (GGR) of gaming tables as basis for PAGCOR’s License Fee. GGR equals Ending Inventory plus Drop plus Credit minus Fill minus Beginning Inventory.

(h) On a daily basis and at the end of the trading day, the Licensee shall furnish the PAGCOR Monitoring Team with hard and soft copies of the Final Master Game Report.

**Section 1A. Determination of Rake from Cash Games, Tournament Entry Fees and Jackpot Administrative Fees**

(a) The following documents shall be used as basis for determining the rake from Cash Games, Tournament Entry Fees and Jackpot Administrative Fees:

1. For Cash Games
   
   (i) Daily Rake Report  
   (ii) Count report on rake drop boxes based on soft count procedures stated in Regulation 16

2. Poker Tournament Report

**Section 2. Gaming Tables Income Components**

(a) Gaming Tables income components are classified into three (3), namely:

1. High Roller Tables  
2. Non-High Roller Tables  
3. Junket Operation

**Section 3. PAGCOR’s License Fees from Gaming Tables**

(a) License Fees shall be an amount equivalent to the license fee rate on gaming tables Gross Gaming Revenues as prescribed in the License.
The License Fee from poker room tables shall be an amount equivalent to the higher between subsections 1 and 2 below:

1. the sum of the following:
   (i) percentage of rake from cash games;
   (ii) percentage of tournament entry fees; and
   (iii) percentage of jackpot administrative fees;

2. monthly minimum guarantee fee prescribed by PAGCOR.

(b) License Fees may be reckoned on a monthly or on a quarterly basis, as prescribed in the License. If on a quarterly basis, reckoning shall coincide with the quarterly periods of the calendar year, i.e. January to March, April to June, July to September, and October to December.

(c) For purposes of computing the Gross Gaming Revenue generated from Junket Operation, payments incurred by Licensee to settle chipwashing and/or junket commissions shall not be declared as gaming table losses to be drawn from table capital, but shall be accounted for separately as marketing expense by Licensee.

Section 4. Other Regulatory Fees of PAGCOR

(a) Beneficiary Foundation (for Licensees of PAGCOR’s Entertainment City only)

To meet the corporate social responsibility objectives of PAGCOR, the Licensee shall, with the approval of PAGCOR, identify a beneficiary foundation devoted to the restoration of cultural heritage (“Foundation”) not later than sixty (60) days from the signing of its License. The Licensee shall fund the Foundation by setting aside on a monthly basis, two percent (2%) of total Gross Gaming Revenues generated from non-junket tables. The Licensee shall remit to the Foundation the funds set aside for such purpose on a monthly basis, to be made on or before the 10th day of the next following month.

(b) Non-gaming Revenue (For Entertainment City Licensees)

Section 4. EGM Random Access Memory (RAM) Clear

(a) The Licensee shall notify and coordinate with the PAGCOR Monitoring Team prior to the conduct of a RAM clear of an electronic gaming machine. RAM clear shall be done by the Licensee in the presence of the PMT.

(b) Prior to RAM clear, the Licensee shall accomplish and submit the following CMED forms to the PAGCOR Monitoring Team:

1. Machine Verification Checklist Form (Form 44)
2. Job Order Form (Form 45)
3. Jackpot Certification Form (Form 46)
4. EGM history payout and meter data
5. Stress Test Checklist (Form 47)
6. Play and Bill Test (Form 48)
7. Slot Break Seal Form (Form 49)
8. Slot Seal Back Form (Form 50)

(c) The Licensee and the PAGCOR Monitoring Team shall jointly conduct a meter reading of the particular electronic gaming machines prior to RAM clear.

Section 5. PAGCOR and Licensee GGR Reconciliation and Variance Resolution

(a) The Licensee may reconcile its GGR figures (per Daily Actual Cash Flow Income Report) with PAGCOR’s GGR figures (per Turnover-based Income Report) on a weekly basis i.e. Monday to Sunday. For
reconciliation purposes, the Licensee shall furnish the PAGCOR Monitoring Team with the following:

1. Daily Actual Cash Flow Income Report
2. Documents to support variances between Turnover-based Income Report and Daily Actual Cash Flow Income Report

(b) The Licensee shall designate its point person for the reconciliation activity. Said point person shall be responsible for coordinating the results of the reconciliation activity to the Licensee’s Slots and Accounting departments.

(c) Variances and disputes if any, shall be resolved within five (5) days from the last day of each weekly period. The PAGCOR Monitoring Team shall prepare a Variance Resolution Report to document the nature and reasons/justifications for allowing the resolved variance/dispute as an adjustment to PAGCOR’s GGR figures (per Turnover-based Income Report).

Section 6. Sealing of EPROMs and Logic Doors of Electronic Gaming Machines

(a) All Erasable Programmable Read Only Memories (EPROMs) and logic doors of electronic gaming machines shall be sealed. The Licensee shall provide the PAGCOR Monitoring Team with serialized seals for this purpose. The sealing and unsealing of the EPROMs and Logic Doors of each electronic gaming machine shall not be undertaken without the presence of the PAGCOR Monitoring Team.

(b) All serialized seals shall be monitored and controlled by the PAGCOR Monitoring Team. Custody and safekeeping of unused serialized seals shall be done by the PAGCOR Monitoring Team.

(c) All serialized seals installed on EPROMs and logic doors of electronic gaming machines shall be intact and untampered.

Part II
USING CASINO MANAGEMENT SYSTEM/SLOT MANAGEMENT SYSTEM OR ONLINE SYSTEM

Section 1. Determination of Gross Gaming Revenues

(a) The Turnover-based Income Report generated by the casino management system or online system shall be used in the determination of Gross Gaming Revenues (GGR) of electronic gaming machines as basis for PAGCOR’s License Fee.

¹ Turnover-based Income Report definition see Regulations 1.
The Licensee shall furnish the PAGCOR Monitoring Team with the Turnover-based Income Report on a daily basis.

**GGR is equal to Turnover minus AP minus JP.**

(b) The Licensee shall provide the PAGCOR Monitoring Team viewing access to the following Slot Management system modules:

2. Audit Trail Transaction Report/Transaction File Log
3. Slot Analysis Report (including Stroke/Games Played)

(c) Licensee shall provide the PAGCOR Monitoring Team with a “Prompter” showing activation of any modification on the Turnover-based Income Report and Cash Flow Income Report\(^2\) meters. Modifications if any, shall have the prior written approval of PAGCOR.

(d) The PAGCOR Monitoring Team may conduct periodic checking of actual electronic gaming machine meter readings against the Turnover-based Income Report for verification purposes and in the event of system failure.

(e) Automatic Roll-Over of Electronic Gaming Machines: The maximum rollover constant values as certified by the electronic gaming machine manufacturers shall be applied on electronic gaming machines which have automatically reset.

**Section 2. Documentation and Reporting Requirements**

(a) The Licensee shall, from time to time, submit the following to the PAGCOR Monitoring Team:

1. Two (2) copies of updated layout plan (soft and hard copy) showing the electronic gaming machine location for each casino floor.
2. Two (2) copies of updated masterlist (soft and hard copy) of electronic gaming machines installed at the casino floor. The masterlist shall contain the following information:

   (i) Location ID
   (ii) Game Name
   (iii) Machine Serial Number
   (iv) PAGCOR Inventory Tag Number

---

\(^2\) Cash Flow Income Report definition see Regulations 1.
3. Machine Verification Checklist Form (Form 44). Contents of said form will vary depending on the EGM manufacturer/brand.

Section 3. EGM Random Access Memory (RAM) Clear

(a) The Licensee shall notify and coordinate with the PAGCOR Monitoring Team prior to the conduct of a RAM clear of an electronic gaming machine. RAM clear shall be done by the Licensee in the presence of the PMT.

(b) Prior to RAM clear, the Licensee shall accomplish and submit the following CMED forms to the PAGCOR Monitoring Team:

1. Machine Verification Checklist Form (Form 44)
2. Job Order Form (Form 45)
3. Jackpot Certification Form (Form 46)
4. EGM history payout and meter data
5. Stress Test Checklist (Form 47)
6. Play and Bill Test (Form 48)
7. Slot Break Seal Form (Form 49)
8. Slot Seal Back Form (Form 50)

(c) The Licensee and the PAGCOR Monitoring Team shall jointly conduct a meter reading of the particular electronic gaming machines prior to RAM clear. The Daily Meter Reading Form (Form 40) shall be used for this purpose.

Section 4. PAGCOR and Licensee GGR Reconciliation and Variance Resolution
(a) The Licensee may reconcile its GGR figures (per Cash Flow Income Report) with PAGCOR’s GGR figures (per Turnover-based Income Report) on a weekly basis i.e. Monday to Sunday. For reconciliation purposes, the Licensee shall furnish the PAGCOR Monitoring Team with the following:

1. Daily Cash Flow Income Report
2. Documents to support variances between Turnover-based Income Report and Cash Flow Income Report

(b) The Licensee shall designate its point person for the reconciliation activity. Said point person shall be responsible for coordinating the results of the reconciliation activity to the Licensee’s Slots and Accounting departments.

(c) Variances and disputes if any, shall be resolved within five (5) days from the last day of each weekly period. The PAGCOR Monitoring Team shall prepare a Variance Resolution Report to document the nature and reasons/justifications for allowing the resolved variance/dispute as an adjustment to PAGCOR’s GGR figures (per Turnover-based Income Report).

Section 5. Sealing of EPROMs and Logic Doors of Electronic Gaming Machines

(a) All Erasable Programmable Read Only Memories (EPROMs) and logic doors of electronic gaming machines shall be sealed. The Licensee shall provide the PAGCOR Monitoring Team with serialized seals for this purpose. The sealing and unsealing of the EPROMs and Logic Doors of each electronic gaming machine shall not be undertaken without the presence of the PAGCOR Monitoring Team.

(b) All serialized seals shall be monitored and controlled by the PAGCOR Monitoring Team. Custody and safekeeping of unused serialized seals shall be done by the PAGCOR Monitoring Team.

(c) All serialized seals installed on EPROMs and logic doors of electronic gaming machines shall be intact and untampered.
COLLECTION AND REMITTANCE OF PAGCOR LICENSE FEES

Section 1. Daily Collection and Remittance of PAGCOR License Fees subject to Monthly Reckoning

The following guidelines and procedures shall apply to Licensees who are required by the License to implement daily collection and remittance of PAGCOR License Fees:

(a) The PAGCOR Monitoring Team (PMT) shall witness the drop box and stacker collection and the soft and hard counts conducted by Licensee.

(b) The PMT shall ensure correctness of the income figure for the Casino operations declared by Licensee in the Win/Loss Report based on the soft and hard counts and on the procedures on the determination of Gross Gaming Revenues (GGR) for gaming tables and electronic gaming machines as provided under Regulations 22 and 23 for each of the following income components:

1. Special Table Gaming Area;
2. Electronic Gaming Machines; and,
3. Junket and/or chipwashing operations.

Where: Special Table Gaming Area shall pertain to Non-junket tables.

(c) The PMT shall prepare the Consolidated PAGCOR Collection Report (Form 49) and computes the Cash Amount Due to PAGCOR for the day using the following formula:

\[
\text{Special Table Gaming Area: License Fee \% \times GGR} + \text{Electronic Gaming Machines: License Fee \% \times GGR} + \text{Junket and/or chipwashing operations: License Fee \% \times GGR} = \text{Cash Amount Due to PAGCOR for the day to be remitted to PMT}
\]
In the case of Fontana, the Cash Amount Due to PAGCOR is computed as follows:

\[
\text{Special Table Gaming Area: License Fee } \% \times \text{GGR} \\
+ \text{Electronic Gaming Machines: License Fee } \% \times \text{GGR} \\
+ \text{Junket and/or chipwashing operations: License Fee } \% \times \text{GGR} \\
\text{Fontana's entitlement from third-party chipwashing and/or junket operations} \\
= \text{Cash Amount Due to PAGCOR for the day to be remitted to PMT}
\]

(d) All GGR and PAGCOR License Fees amounts indicated in the win/loss report for the day are still subject to audit, which shall be undertaken separately by PAGCOR and the Licensee.

(e) The PMT shall verify the accuracy and correctness of the amounts indicated in the Consolidated PAGCOR Collection Report against the win/loss report.

(f) In case of win and upon presentation of the Consolidated PAGCOR Collection Report, the Licensee shall take out from the daily collection the cash amount due to PAGCOR, which shall be equivalent to:

\[
\text{Special Table Gaming Area: License Fee } \% \times \text{GGR} \\
+ \text{Electronic Gaming Machines: License Fee } \% \times \text{GGR} \\
+ \text{Junket and/or chipwashing operations: License Fee } \% \times \text{GGR} \\
= \text{Cash Amount Due to PAGCOR for the day to be remitted to PMT}
\]

In the case of Fontana, the Cash Amount Due to PAGCOR shall be equivalent to:

\[
\text{Special Table Gaming Area: License Fee } \% \times \text{GGR} \\
+ \text{Electronic Gaming Machines: License Fee } \% \times \text{GGR} \\
+ \text{Junket and/or chipwashing operations: License Fee } \% \times \text{GGR} \\
\text{Fontana's entitlement from third-party chipwashing and/or junket operations} \\
= \text{Cash Amount Due to PAGCOR for the day to be remitted to PMT}
\]

Sample computations of Cash Amount Due are explained in detail in the following subsections (h), (i) and (j).

(g) United States Dollar amounts due to PAGCOR shall be remitted in United States Dollars.

(h) If any of the Philippine Peso Income components generates a loss for a particular day, PAGCOR’s share in such loss of that particular Income component shall be offset against PAGCOR’s License Fee in other Philippine Peso Income components. The residual amount of PAGCOR’s License Fee shall be remitted to PAGCOR on that day, in Philippine pesos. In addition, PAGCOR’s License Fee in the dollar
Income component shall likewise be remitted to PAGCOR on that day, in United States dollars.

Example:

Day 1 Gross Gaming Revenues (Loss) and corresponding Cash Amount Due to PAGCOR are as follows:

<table>
<thead>
<tr>
<th>GGR (Loss)</th>
<th>License Fee %</th>
<th>Day 1 Cash Amount Due to PAGCOR</th>
</tr>
</thead>
<tbody>
<tr>
<td>Special Table Gaming Area</td>
<td>Php2,592,435.00</td>
<td>30%</td>
</tr>
<tr>

<td>30%</td>
</tr>
<tr>
<td>Junket operations</td>
<td>US$23,255.00</td>
<td>15%</td>
</tr>
</tbody>
</table>

* License Fee % for purposes of illustration only. Applicable License Fee % as indicated in the respective Licenses shall prevail.

The Cash Amount Due to be remitted by the Licensee to PMT for the day shall be as follows:

| PHILIPPINE PESOS | Php691,385.70 |
| UNITED STATES DOLLARS | US$3,488.25 |

(i) If after offsetting among PAGCOR’s License Fee in the Philippine peso Income components for that particular day, the net amount results in a deficit, such deficit shall be offset against PAGCOR’s License Fee if any, in the United States Dollar Income component/s using the prevailing conversion rate for the day. Any residual amount in PAGCOR’s License Fee shall be remitted to PAGCOR on that day, in United States dollars. However, if the offsetting still results in a deficit, no amount shall be remitted to PAGCOR.

Example:

Day 1 Gross Gaming Revenues (Loss) and corresponding Cash Amount Due to PAGCOR are as follows:

<table>
<thead>
<tr>
<th>GGR (Loss)</th>
<th>License Fee %</th>
<th>Day 1 Cash Amount Due to PAGCOR</th>

<td>Junket operations</td>
<td>US$138,902.50</td>
<td>15%</td>
</tr>
</tbody>
</table>

* License Fee % for purposes of illustration only. Applicable License Fee % as indicated in the respective Licenses shall prevail.

Assuming further that the Philippine Pesos to United States Dollar conversion rate is Php45.57:US$1, the Cash Amount Due to be remitted by the Licensee to the PMT for the day shall be as follows:
** Computed as follows:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

(j) If the United States Dollar Income component generates a loss for a particular day, PAGCOR’s share in such loss shall be offset against PAGCOR’s License Fee if any, in the Philippine Pesos income components using the prevailing conversion rate for the day. The residual amount of PAGCOR’s License Fee shall be remitted to PAGCOR on that day, in Philippine Pesos. However, if the said offsetting results in a deficit, no amount for both Philippine Pesos and United States Dollar shall be remitted to PAGCOR for the day.

** Example:**

*Day 1 Gross Gaming Revenues (Loss) and corresponding Cash Amount Due to PAGCOR are as follows:*

(k) Cash Amount Due to PAGCOR in United States Dollar currency shall be remitted in United States Dollars. Cash Amount Due to PAGCOR in other foreign currency denominations shall be remitted in United States Dollar currency. In the case of Fontana Casino, other foreign currencies shall be remitted to PAGCOR in Philippine Pesos using the prevailing conversion rate for the day.

(l) The PMT shall likewise ensure that the following:

1. Cash Amount Due to PAGCOR for the day figure as indicated in the Advice of Remittance (Form 50) tallies with the Cash Amount Due to PAGCOR for the day figure as indicated in the Consolidated PAGCOR Collection Report; and,

2. The total amount turned over/remitted by the Licensee tallies with the Cash Amount Due to PAGCOR for the day figure as indicated in both the Consolidated PAGCOR Collection Report and Advice of Remittance.

(m) The Licensee may remit the Cash Amount Due to PAGCOR in the form of a cheque payment provided that the cheque payment shall be presented for payment to the PMT not later than 2:00 p.m. of the same day (the “cheque payment cut-off time”). In the event that the Licensee fails to meet the cheque payment cut-off time, the Licensee shall deliver and deposit the cheque payment to the PAGCOR-designated bank not later than 6:00 p.m. of the same day. The Licensee shall furnish the PMT with a copy of the bank-validated deposit slip evidencing the deposit of such cheque payment.

(n) The PMT shall place the money collected in a Refill Box and padlocks the box to secure the money inside the box. The PMT shall bring the Refill Box to the PMT Office and deposit the same temporarily inside the Vault until the representatives of the PAGCOR-designated bank arrives to pick-up the collection.

(o) Licensee shall allow the entry of the representatives of the PAGCOR-designated bank to the Casino premises to pick-up PAGCOR’s collection.

(p) Internal procedures pertaining to the Vault handling and the deposit of collections as well as bank pick-up arrangements involving the PMT shall be covered by a separate Implementing Procedures and Guidelines of the PMT.
(q) The PMT shall immediately furnish PAGCOR’s Finance and Treasury Department with a copy of the following documents:

1. Advice of Remittance; and,
2. Bank-validated deposit slip.

(r) An audit of the win/loss reports, refills and yield slips and other transactions and documents pertinent to GGR determination as described under Regulations 22 and 23 shall be conducted by PAGCOR on a periodic basis.

(s) Unless otherwise stated in the License, PAGCOR License Fees are reckoned on a monthly basis. The PMT computes for the PAGCOR License Fees for the month, which is the higher between:

\[
\text{Special Table Gaming Area: License Fee} \times \text{GGR} \\
+ \text{Electronic Gaming Machines: License Fee} \times \text{GGR} \\
+ \text{Junket and/or chipwashing operations: License Fee} \times \text{GGR} \\
= \text{PAGCOR License Fees}
\]

and

Monthly Minimum License Fee as stipulated in the License.

1. In case any loss arises from the monthly GGR from the income component, the License Fee percentage applicable to the loss amount of such income component shall be offset against the License Fee of the other income components. In particular:

\(i\) In case any loss arises from the monthly GGR from junket operations, the License Fee % applicable to the loss amount shall be offset against the License Fee of other income components.

\(ii\) In case any loss arises from the monthly GGR from Special Table Gaming Area or the electronic gaming machines, the License Fee % applicable to the loss amount shall be offset against the License Fee of other income components.

2. PAGCOR shall not share in any loss resulting from the consolidated computation of the monthly aggregate GGR from junket operations, Special Table Gaming Area and electronic gaming machines. In the event that the computed aggregate License Fee for the month results into a negative amount, the License Fee shall be deemed zero (0).

In the case of Fontana, the PAGCOR License Fees for the month is the higher between:
Special Table Gaming Area: License Fee % x GGR
+ Electronic Gaming Machines: License Fee % x GGR
+ Junket and/or chipwashing operations: License Fee % x Fontana’s entitlement from third-party chipwashing and/or junket operations computed per third-party chipwashing and/or junket operator

= PAGCOR License Fees

and

the Minimum Guarantee as stipulated in the December 23, 1999 Memorandum of Agreement, as amended.

(t) Within ten (10) days after the end of each month (the “ten-day period”), the PMT and the Licensee’s Accounting Section shall reconcile their respective computations of GGR as determined under Regulations 22 and 23, and the corresponding PAGCOR License Fee as computed under subsection (s) above.

(u) PAGCOR License Fees in United States Dollar currency shall be remitted in United States Dollars. PAGCOR License Fees on GGR from gaming tables utilizing other foreign currency denominations shall be remitted in United States Dollar currency.

1. In the case of Fontana Casino, other foreign currencies shall be remitted to PAGCOR in Philippine Pesos using the prevailing conversion rate for the day.

(v) For purposes of computing the PAGCOR License Fee for the month, the monthly minimum License Fee as well as any United States dollar amounts remitted daily by Licensee to PAGCOR representing the latter’s share, the prevailing conversion rate for the day shall be used. Any adjustment arising from the foreign currency exchange shall be effected on the daily collection of the following day.

(w) Any positive or negative adjustment in PAGCOR License Fees will be taken out from the daily collection of the following day. The PMT shall effect the necessary adjustments, if any.

(x) All amounts remaining unpaid after the ten day period shall earn interest at the rate of twelve percent (12%) per annum.

(y) In the event of an over-remittance by the Licensee of the PAGCOR License Fees for the month, such over-remittance shall be offset by PAGCOR on the daily collections of the succeeding month until such time that the over-remittance is fully applied.
(z) Failure of Licensee to comply with the aforementioned procedures shall be considered as a material default which shall automatically entitle PAGCOR to revoke/rescind the License.

(aa) For purposes of this Section 1, the prevailing conversion rate for the day shall be determined using the following guidelines:

1. The Bangko Sentral ng Pilipinas (“BSP”) day’s rate as of 5:00 pm published thru BSP’s website shall be used for recording the following day’s transactions.

2. During holidays and weekends, BSP’s rate of the preceding day shall be used.

Section 2. Monthly Reckoning and Monthly Remittance of PAGCOR License Fees

The following guidelines and procedures shall apply to Licensees who are required by the License to remit PAGCOR License Fees on a monthly basis:

(a) The PAGCOR Monitoring Team (PMT) shall witness the drop box and stacker collection and the soft and hard counts conducted by Licensee.

(b) The PMT shall ensure correctness of the income figure for the Casino operations declared by Licensee in the Win/Loss Report based on the soft and hard counts and on the procedures on the determination of Gross Gaming Revenues (GGR) for gaming tables and electronic gaming machines as provided under Regulations 22 and 23 for each of the following income components:

1. Non-high roller gaming tables;
2. High roller gaming tables;
3. Electronic gaming machines; and
4. Junket and/or chipwashing operations

For poker room tables, the PMT shall ensure correctness of the following amounts declared in the Licensee’s revenue reports:

1. Daily rake from cash games;
2. Tournament entry fees; and
3. Jackpot administrative fees.

(c) License Fees on GGR from tables and from poker room tables utilizing United States Dollars or any other foreign currency denominations, shall be remitted in United States Dollars.

(d) An audit of the win/loss reports, refills and yield slips and other transactions and documents pertinent to the determination of GGR, rake from cash games, tournament entry fees and jackpot
administrative fees as described under Regulations 22 and 23 shall be conducted by PAGCOR on a periodic basis.

(e) Unless otherwise stated in the License, PAGCOR License Fees are reckoned on a monthly basis. The PMT computes for the PAGCOR License Fees for the month as follows:

- Non-High Roller tables: License Fee % × GGR
- High Roller tables: License Fee % × GGR
- Electronic Gaming Machines: License Fee % × GGR
- Junket and/or chipwashing operations: License Fee % × GGR

= PAGCOR License Fees

1. In case any loss arises from the monthly GGR from the income component, the License Fee percentage applicable to the loss amount of such income component shall be offset against the License Fee of the other income components. In particular:

   (i) In case any loss arises from the monthly GGR from junket operations, the License Fee % applicable to the loss amount shall be offset against the License Fee of other income components.

   (ii) In case any loss arises from the monthly GGR from High Roller tables, the License Fee % applicable to the loss amount shall be offset against the License Fee of other income components.

   (iii) In case any loss arises from the monthly GGR from Non-High Roller tables, the License Fee % applicable to the loss amount shall be offset against the License Fee of other income components.

   (iv) In case any loss arises from the monthly GGR from Electronic Gaming Machines, the License Fee % applicable to the loss amount shall be offset against the License Fee of other income components.

2. PAGCOR shall not share in any loss resulting from the consolidated computation of the monthly aggregate GGR from junket operations, High Roller Tables, Non-High Roller Tables and electronic gaming machines. In the event that the computed aggregate License Fee for the month results into a negative amount, the License Fee shall be deemed zero (0), and there shall be no remittance by the Licensee of the License Fee.

(f) The PMT and the Licensee’s Accounting Section shall reconcile their respective computations of GGR as determined under Regulations 22 and 23, and the corresponding PAGCOR License Fee as computed under subsection (e) above.

(g) For purposes of computing the PAGCOR License Fee for the month as stated in subsection (c) above, transactions shall be converted on a daily basis such that the Bangko Sentral ng Pilipinas (“BSP”) day’s rate as of 5:00 pm published thru BSP’s website shall be used for recording the following day’s transactions. During holidays and weekends, BSP’s rate of the preceding day shall be used.

(h) The Licensee shall remit to PAGCOR the License Fee plus other applicable fees as provided under the License on a monthly basis.

1. The Compliance Monitoring and Enforcement Department shall bill the Licensee on the amount of License Fees plus other applicable fees due.

2. The Licensee shall remit to PAGCOR the amount of License Fees and other applicable fees due, on or before the 10th day of the following month.

(i) License Fees or applicable fees remaining unpaid after the due date stated in paragraph 2 above shall earn interest at the rate of twelve percent (12%) per annum.

Section 3. Quarterly Reckoning and Monthly Remittance of PAGCOR License Fees

The following guidelines and procedures shall apply to Licensees who are required by the License to remit PAGCOR License Fees on a monthly basis but the License Fees are reckoned on a quarterly basis:

(a) The PAGCOR Monitoring Team (PMT) shall witness the drop box and stacker collection and the soft and hard counts conducted by Licensee.

(b) The PMT shall ensure correctness of the income figure for the Casino operations declared by Licensee in the Win/Loss Report based on the soft and hard counts and on the procedures on the determination of
Gross Gaming Revenues (GGR) for gaming tables and electronic gaming machines as provided under Regulations 22 and 23 for each of the following income components:

1. Non-high roller gaming tables;
2. High roller gaming tables;
3. Electronic gaming machines; and,
4. Junket and/or chipwashing operations

For poker room tables, the PMT shall ensure correctness of the following amounts declared in the Licensee’s revenue reports:

1. Daily rake from cash games;
2. Tournament entry fees; and
3. Jackpot administrative fees.

(c) License Fees on GGR from tables and from poker room tables utilizing United States Dollars or any other foreign currency denominations, shall be remitted in United States Dollars.

(d) An audit of the win/loss reports, refills and yield slips and other transactions and documents pertinent to the determination of GGR, rake from cash games, tournament entry fees and jackpot administrative fees as described under Regulations 22 and 23 shall be conducted by PAGCOR on a periodic basis.

(e) The PMT computes for the PAGCOR License Fees for the month as follows:

\[
\text{Non-High Roller tables: License Fee } \% \times \text{ GGR} \\
\text{+ High Roller tables: License Fee } \% \times \text{ GGR} \\
\text{+ Electronic Gaming Machines: License Fee } \% \times \text{ GGR} \\
\text{+ Junket and/or chipwashing operations: License Fee } \% \times \text{ GGR} \\
\text{= PAGCOR License Fees}
\]

1. In case any loss arises from the monthly GGR from the income component, the License Fee percentage applicable to the loss amount of such income component shall be offset against the License Fee of the other income components. In particular:

   (i) In case any loss arises from the monthly GGR from junket operations, the License Fee % applicable to the loss amount shall be offset against the License Fee of other income components.

   (ii) In case any loss arises from the monthly GGR from High Roller tables, the License Fee % applicable to the loss amount shall be offset against the License Fee of other income components.
(iii) In case any loss arises from the monthly GGR from Non-High Roller tables, the License Fee % applicable to the loss amount shall be offset against the License Fee of other income components.

(iv) In case any loss arises from the monthly GGR from Electronic Gaming Machines, the License Fee % applicable to the loss amount shall be offset against the License Fee of other income components.

2. The aggregate License Fees shall be determined by getting the sum of the computed License Fees for each month during the Reckoning period as defined under Regulation 1.

3. PAGCOR shall not share in any loss resulting from the consolidated computation of the aggregate GGR from junket operations, High Roller Tables, Non-High Roller Tables and electronic gaming machines in a reckoning period. In the event that the computed aggregate License Fee for the reckoning period results into a negative amount, the aggregate License Fee shall be deemed zero (0).

(f) The PMT and the Licensee’s Accounting Sections shall reconcile their respective computations of GGR as determined under Regulations 22 and 23, and the corresponding PAGCOR License Fee as computed under subsection (e) above.

(g) For purposes of computing the PAGCOR License Fee for the month as stated in subsection (c) above, transactions shall be converted on a daily basis such that the Bangko Sentral ng Pilipinas (“BSP”) day’s rate as of 5:00 pm published thru BSP’s website shall be used for recording the following day’s transactions. During holidays and weekends, BSP’s rate of the preceding day shall be used.

(h) The Licensee shall remit to PAGCOR the License Fee plus other applicable fees as provided under the License on a monthly basis.

1. The Compliance Monitoring and Enforcement Department shall
bill the Licensee on the amount of License Fees plus other applicable fees due.

2. The Licensee shall remit to PAGCOR the amount of License Fees and other applicable fees due, on or before the 10th day of the following month.

(i) License Fees or applicable fees remaining unpaid after the due date stated in subsection (h) 2. above shall earn interest at the rate of twelve percent (12%) per annum.

(j) The computed aggregate License Fees for a Reckoning Period shall be compared against the actual monthly License Fees remitted to PAGCOR for the first two (2) months of each Reckoning Period.

1. In the event that the computed aggregate License Fees is higher than the actual amounts remitted, the Licensee shall remit the difference to PAGCOR on or before the 10th day of the month following the Reckoning Period.

2. If the computed aggregated License Fee is lower than the actual amounts remitted, the difference shall be applied against the License Fees of the succeeding month/s.

Section 4. Remittance of PAGCOR License Fees under protest

(a) In case Licensee disputes the computation of the applicable License Fee, the License Fee as computed by PAGCOR will be remitted by Licensee subject to protest.

(b) Only upon remittance under protest shall PAGCOR commence the process of reconsideration or reconciliation of the disputed License Fee.
PATRON DISPUTES

Section 1. Resolution of Disputes by Licensee or PAGCOR Monitoring Team

(a) Resolution of dispute as to winnings, losses or manner in which game conducted

1. Where a Licensee and a patron of the casino are unable to resolve to the satisfaction of the patron any dispute as to alleged winnings, alleged losses or the manner in which a game is conducted, the Licensee shall:

   (xiv) immediately notify the PAGCOR Monitoring Team (PMT); and,
   (xv) inform the patron of his right to request the PMT to conduct an investigation into the dispute.

2. Failure of a Licensee to notify the PMT or inform the patron as provided in subsection (a) is a ground for disciplinary action.

3. The PMT shall submit a report of its investigation to Gaming Licensing and Development Department (GLDD).

(b) Dispute Resolution Period

Within seven (7) days from the date a dispute arises between a Licensee and any of its patrons (referred to in these Regulations as the dispute resolution period), the Licensee shall endeavor to resolve the dispute to the satisfaction of the patron and to pay the patron’s claim, where applicable.

(c) Time-frame to notify PMT of unresolved dispute

1. A Licensee and a patron shall be taken to be unable to resolve a dispute to the satisfaction of the patron when:

   (i) the dispute remains unresolved at the expiry of the dispute resolution period; or
(ii) at any time before the expiry of the dispute resolution period, the Licensee and the patron agree that they are unable to resolve the dispute.

Section 2. Appointment of Patron Dispute Committee

(a) For the purposes of Section 1.(c) above, PAGCOR shall appoint a committee to be known as the Patron Dispute Committee, comprising a chairman and such other members as PAGCOR may appoint from among its ranks.

(b) A member of the Patron Dispute Committee shall be appointed on such conditions and for such term as PAGCOR may determine.

(c) PAGCOR may at any time revoke the appointment of the chairman or any member of the Patron Dispute Committee, and may appoint any person to fill any vacancy which may arise in the Committee.

(d) The chairman shall preside at proceedings before the Patron Dispute Committee, but if the chairman is absent or otherwise unable to participate in the proceedings, PAGCOR may appoint another member of the Committee to preside at those proceedings.

(e) A quorum of the Patron Dispute Committee shall consist of two (2) members.

(f) A decision of the Patron Dispute Committee may be made by a simple majority of the members present and voting at any proceedings, except that in the case of an equality of votes, the chairman or in his absence, the member presiding, shall have the casting vote.

(g) Where a member (including the chairman) of the Patron Dispute Committee is in any way, whether directly or indirectly, interested in any dispute, and the interest could conflict with the proper performance of the member’s duties in relation to the dispute, the member shall immediately disclose the nature of his interest at any proceedings of the Committee for a reconsideration in respect of that dispute, and shall not participate in the reconsideration.

(h) For the purpose of determining whether there is a quorum under subsection (e) for any proceeding for reconsideration, a member shall be treated as not being present at the proceedings if, under subsection (g), he cannot participate in the reconsideration.

(i) PAGCOR may appoint a secretary to the Patron Dispute Committee and such other officers as may be required to enable the Patron Dispute Committee to carry out its functions effectively and efficiently.
Section 3. Proceedings before Patron Dispute Committee

(a) A Patron Dispute Committee shall consider every request referred to it and, in relation to the dispute, shall determine whether payment should be made and by which party.

(b) All proceedings of the Patron Dispute Committee for reconsideration shall be conducted in an informal manner and held in private.

(c) The Patron Dispute Committee shall not be bound by the rules of evidence but may inform itself on any matter in such manner as it thinks fit.

(d) Except where the patron concerned in the dispute or the employee or officer authorized to represent the Licensee in the proceedings is himself a counsel, no party to any proceedings before a Patron Dispute Committee shall be represented by counsel.

(e) The Patron Dispute Committee shall give each party to the proceedings a reasonable opportunity to be heard (whether in person or otherwise) and shall consider any explanation so given.

(f) The Patron Dispute Committee may, in any proceedings by notice in writing, require any person to:

1. answer questions or supply information; or

2. produce any document, record, book of account or any other thing under his custody or control, which may be relevant to the proceedings within the time specified in the notice.

(g) Where any person fails to provide the necessary information or documents within the time specified in the notice in subsection (f), the Patron Dispute Committee may make its decision on the basis of the facts and information available to it.

(h) The Patron Dispute Committee may confirm, vary or reverse the PMT's decision.

(i) The decision of the Patron Dispute Committee shall be in writing and shall be served on the Licensee and the patron concerned.

Section 4. Record of proceedings to be kept

(a) The record of every proceeding before the Patron Dispute Committee for a reconsideration shall include:
1. the name and particulars of the patron, the Licensee and any employee of the Licensee concerned;

2. the particulars of the PMT’s decision to be reconsidered;

3. a summary of the evidence provided by the parties to the proceedings in sufficient detail to enable PAGCOR to comprehend the course of the proceedings;

4. any other information relevant to the decision of the Patron Dispute Committee; and

5. the decision reached by the Patron Dispute Committee and the reasons for its decision.

(b) The record of proceedings shall be signed by the chairman, or the member presiding, and the members of the Patron Dispute Committee who participated in the reconsideration; and

1. The secretary to the Patron Dispute Committee shall keep and maintain:

   (i) records of every request for reconsideration made under regulation B.1; and

   (ii) all records of proceedings before the Patron Dispute Committee under these Regulations.

2. The Licensee and the patron concerned shall not be entitled to any copy of records made or kept under paragraph (1) or (3).

Section 5. Payment of claim after decision

(a) Except as otherwise allowed by PAGCOR, a Licensee shall pay a patron’s claim within thirty (30) days of the decision of the Patron Dispute Committee;

(b) Failure of a Licensee to pay within the time specified in subsection (a) is grounds for disciplinary action.

Section 6. General provisions

(a) Costs of proceedings

Each party to any proceedings before a Patron Dispute Committee or any appeal shall bear his own costs and expenses incurred as a result of or in relation to the proceedings or appeal.
(b) **Trivial, frivolous or vexatious applications**

The Patron Dispute Committee or PAGCOR may at any time dismiss a request for reconsideration or an appeal, as the case may be, which it considers to be trivial, frivolous or vexatious.

(c) **Withdrawal of request for reconsideration or appeal**

Where a request for reconsideration or an appeal is withdrawn before the conclusion of the reconsideration or of the appeal, the Patron Dispute Committee or PAGCOR, as the case may be, may, notwithstanding such withdrawal, continue with its consideration of the matter and make a decision in respect thereof.
PREScribed oFFENSES

Section 1. General Notice

(a) All Licensees shall be subject to regulatory sanctions promulgated by PAGCOR.

(b) The Licensee shall be held responsible for the actions committed by its employees.

Section 2. Ground for the application of regulatory sanctions

A Licensee or holder of a Provisional License/Authority to Operate shall be held liable for acts or omissions which are violations of the permit or contrary to the provisions of said document and regulatory orders issued by PAGCOR.

Section 3. Particular Offenses

(a) Refusal to provide information, etc.

1. If a licensee or a person under its employ:

   (i) fails, without reasonable excuse, to produce for inspection any machinery, equipment or records in the possession or under the control of the person when required to do so by the PMT; or

   (ii) fails, without reasonable excuse, to attend before the PMT and answer questions or supply information when required to do so by the PMT, the licensee shall be liable to disciplinary action.

2. If a licensee or a person under its employ is charged with an offense under subsection 1 in respect of a requirement to
produce a document, it shall be a defense for it/him to prove that:

(i) the document was not in its/his possession or under its/his control; and

(ii) it was not reasonably practicable for it/him to comply with the requirement.

3. If a licensee or a person under its employ is charged with an offense under paragraph 1 in respect of a requirement:

(i) to provide information;

(ii) to provide an explanation of a document; or

(iii) to state where a document is to be found, it shall be a defense for it/him to prove that it/he had a reasonable excuse for failing to comply with the requirement.

(b) Destroying or falsifying documents

If a licensee or person under its employ who, having been required to produce a document to the PMT:

1. intentionally or recklessly destroys or otherwise disposes of it, falsifies it or conceals it; or

2. causes or permits its destruction, disposal, falsification or concealment, the licensee shall be liable to disciplinary action.

(c) False or misleading information

1. A licensee or any person under its employ who provides information to PAGCOR, a law enforcement agent, or any authorized person in connection with any application to PAGCOR or any function or duty of PAGCOR, the law enforcement agent or authorized person under these Regulations shall be guilty of an offense if:

(i) the information is false or misleading in a material particular; and

(ii) it/he knows that it is false or misleading in a material particular or is reckless as to whether it is so.

2. A licensee or any person under its employ who:
(i) provides any information to another licensee/person, knowing the information to be false or misleading in a material particular; or

(ii) recklessly provides any information to another licensee/person which is false or misleading in a material particular, knowing that the information is to be used for the purpose of providing information to PAGCOR, a law enforcement agent or any authorized person in connection with any application to PAGCOR or any function or duty of PAGCOR, the law enforcement agent or authorized person under these Regulations, shall be guilty of an offense.

3. If a licensee or any person under its employ is guilty of an offense under paragraph 1 or 2, the licensee shall be liable to disciplinary action.

(d) Obstructing officer of authority, etc.

If a licensee or any person under its employ refuses to give access to, or obstructs, hinders or delays:

1. any member, officer, employee or agent of PAGCOR authorized to act for or assist PAGCOR;

2. any inspector or person assisting the PMT; or

3. any authorized person, in the discharge of his duties under these Regulations, licensee shall be liable to disciplinary action.

(e) Modification of electronic gaming machines without PAGCOR’s approval

1. No licensee shall modify, or permit any modification of, any gaming machine approved by PAGCOR, unless the prior permission of PAGCOR has been obtained for the modification.

2. If a licensee or person under its employ contravenes paragraph 1, licensee shall be liable to disciplinary action.

(f) Modification of gaming equipment without PAGCOR’s approval

1. No licensee shall modify, or permit any modification of, any approved gaming equipment, unless the prior permission of PAGCOR has been obtained for the modification.

2. If a licensee or person under its employ contravenes paragraph 1, licensee shall be liable to disciplinary action.
(g) Refusal to allow access to accounting records

Any licensee or person under its employ who:

1. refuses or fails, without any reasonable cause, to allow PAGCOR or any person authorized by PAGCOR access to any accounting and other records of the casino in his custody or power;

2. refuses or fails, without any reasonable cause, to give any information possessed by him as and when required by PAGCOR or person authorised by PAGCOR; or

3. hinders, obstructs or delays PAGCOR or any person authorised by PAGCOR in the performance of his functions, shall be guilty of an offense and shall be liable to disciplinary action and, in the case of a continuing offense, such act shall constitute a fresh ground of disciplinary action for every day or part thereof that the offense continues after the first disciplinary action.

Section 4. Procedure in imposing a regulatory sanction

(a) After a determination by PAGCOR that the Licensee has committed acts or omissions in violation of these Regulations, terms and conditions of the license or a regulatory order, PAGCOR shall issue a written notice of violation/s to the Licensee.

(b) The written notice of violation/s shall contain the following:

1. Clear statement of the charges against the Licensee and the corresponding regulatory sanction thereof; and

2. Statement that the Licensee shall be given ten (10) days from receipt of the notice to submit its written answer to the charges.

(c) Failure to submit a written answer shall be deemed a waiver of its right to be heard and PAGCOR shall render a decision based on the available evidence.

(d) Within ninety (90) days from receipt of the answer, PAGCOR shall render a decision sustaining or reversing the written notice of violation/s against the Licensee. The decision shall include a statement of the facts upon which PAGCOR relied upon in making the same.

1. If PAGCOR determines that the Licensee is in violation, PAGCOR shall render a decision imposing the corresponding regulatory sanction.
2. If PAGCOR determines that the Licensee is not in violation, a decision shall be rendered dismissing the charges.

(e) The Licensee aggrieved by the decision of PAGCOR may, within fifteen (15) days from receipt of the decision, submit a written letter for reconsideration stating the reasons or arguments relied upon. Failure to file a letter for reconsideration of the decision within the period provided shall render the same final and immediately executory.

(f) Based on the letter for reconsideration, PAGCOR will then issue a decision affirming, reversing or modifying the decision.

Section 5. Late payment and/or underpayment of monetary regulatory sanctions

In case of monetary regulatory sanctions, the Licensee must pay to PAGCOR the corresponding regulatory sanction within a period of thirty (30) days from the receipt of the decision that has become final and executory. A ten percent (10%) penalty compounded monthly shall be imposed on any amount which remains unpaid after thirty (30) days from receipt of PAGCOR's decision.

Section 6. Failure to pay regulatory sanction

Failure on the part of the Licensee to pay the regulatory sanction to PAGCOR within six (6) months from receipt of the decision shall be a ground for suspension, revocation or cancellation of its license.

Section 7. Standards for the imposition of regulatory sanctions

(a) In considering appropriate sanctions in a particular case, PAGCOR shall consider:

1. The risk to the public, prejudice to the Government and doubt cast on the integrity of the gaming operations created by the conduct of the licensee;

2. The seriousness of the conduct of the licensee, and whether the conduct was intentional and with knowledge that it was in contravention of the provisions of the Articles of Gaming, the license, or any regulatory order promulgated hereunder;

3. Any justification or reason for such conduct by the licensee;

4. The prior history of the particular licensee involved with respect to gaming activity;

5. The corrective action taken by the licensee to prevent future
misconduct of a like nature from re-occurring; and

(b) It shall be no defense to a regulatory sanction before PAGCOR that a Licensee inadvertently, unintentionally, or unknowingly violated a provision of these Regulations. Such factors shall only go to the degree of the regulatory sanction to be imposed by PAGCOR, and not to a finding of a violation itself.

Section 8. Levels of regulatory sanctions

(a) Every offense is recorded and stored in the Licensee’s file. For purposes of determining the number of offenses committed by the Licensee, the reckoning point shall be from January 1 to June 30 for the first period and July 1 to December 31 for the second period. Once a period is over, the offense count shall revert back to zero (0) and shall be considered prescribed/proscribed.

(b) PAGCOR has the discretion to modify the penalties imposed depending on the appreciation of facts presented.

(c) In case of repeated violations of any of the provisions stated herein, PAGCOR may impose higher regulatory sanctions as the circumstances may warrant.

1. Records of gaming operations;
2. Financial and accounting records affecting Gross Gaming Revenue; and,
3. Surveillance tapes and records.

(b) If the Licensee maintains permanent records in a computerized or microfiche fashion, the Licensee shall make available to the PMT, a detailed index to the microfiche or computerized record which must be indexed in accordance with the Licensee's practices.

(c) The Licensee shall retain and maintain or cause such books and records to be retained, maintained or stored for at least six (6) years or such longer period as may be required by law.

(d) The PMT shall furnish the Licensee with a letter request listing the reports and records, and indicating the frequency of such reports and records that shall be submitted to the PMT.

1. The letter request shall be signed by the head of the department supervising the PMT.
2. Any amendment to the initial letter request and all other requests for other reports to be submitted to the PMT shall be signed by the head of the department supervising the PMT.

(e) A Licensee who wilfully misstates or without reasonable excuse refuses to provide any information or produce any report, record or copy thereof required of him by the PMT, shall be liable disciplinary action.

Section 4. Access to casino premises

(a) The Licensee shall give the PMT access to premises such as the CCTV monitoring room, training facilities and other such areas as may be required by PAGCOR from time to time.
1. As an alternative, the Licensee shall provide the PMT with a special monitoring room which is solely dedicated for such purpose and is equipped with CCTV monitoring equipment and adjuncts that are compliant with PAGCOR’s requirement for a full coverage/monitoring of the Casino operations, and that are capable of recording all video taken by the cameras.

Section 5. Provision of an office for the PAGCOR Monitoring Team

(a) The Licensee shall provide the PMT with an office, essential office equipment, duty meals and snacks as may reasonably be necessary for the performance of their duties.

(b) PAGCOR shall shoulder the compensation for the PMT.

ANCILLARY GAMES

A. BINGO

PART I IN-VENUE BINGO

The following Procedural Guidelines and Gaming Rules shall govern the conduct and operation of the traditional bingo games to ensure the integrity and fairness thereof:

Section 1. Gross Receipts from Sale of Bingo Tickets and Bingo Cards

Gross receipts from sale of bingo tickets and bingo cards shall be accounted for by the Licensee at the time the receipts are received from each player. The following methods are popularly used in the operational venues:

(a) Disposable Bingo Cards. Bingo cards may be used to record gross receipts from bingo operation if the following requirements are met:

1. The cards in use are approved disposable bingo cards.

2. Inventory control record required must be completed. All disposable bingo cards purchased or otherwise obtained must be controlled and accounted for by the Licensee. The control function must be accomplished by maintaining an inventory control record prepared in a format prescribed or approved by PAGCOR.

(i) All purchase invoices, or photocopy thereof for disposable bingo cards received must be maintained in the bingo premises.

(ii) Manufacture packing records shall be maintained as part of the inventory control record.
(iii) The following information must be recorded for disposable cards, sheets of cards or package of cards:

- Identification and inspection stamp number
- Serial number (Serial number of the top page for Package Cards)
- Number of cards in the series
- Type of card or package of cards
- Purchase invoice number and date

3. An inventory control system shall be prescribed, installed and implemented for all bingo cards.

(i) All disposable bingo cards shall be stored inside the cards storeroom which is properly secured.

(ii) All movements of bingo cards such as receipts from supplier, withdrawals for allocation, conversions and returns shall be duly witnessed by the PAGCOR Monitoring Team assigned in the venue and properly recorded by the venue card custodian in the bin cards. Pertinent records shall be maintained at the premises and available for inspection and checking/verification by the PAGCOR Monitoring Team.

(iii) Monthly Inventory Report shall be submitted to PAGCOR not later than the 10th day of the succeeding month. Said report shall be subject to checking/verification against actual inventory of cards on hand at the storeroom.

4. Cards or sheets of cards intended for playing a single game, the following shall be recorded for each set of cards: in the card preparation sheet:

(i) Serial number

(ii) Color and/or border pattern

(iii) Value of each card or sheet

(iv) Lowest consecutive card or sheet number

(v) Last card or sheet number issued

(vi) Missing cards or sheets per the manufacturer's/supplier's packing record
(vii) Number of cards returned

(viii) Number of cards issued

(ix) Total gross receipts from all cards

5. For package of cards to be sold and intended for playing a defined set of games within a session, the following shall be recorded for each set or package of cards in the cards preparation sheet:

(i) Serial number of the top sheet or page of the package

(ii) Color and/or border pattern of the top sheet or page of the package

(iii) Lowest consecutive card, sheet or package number for the first package

(iv) Card, sheet or package number of the last or highest package

(v) Number of package

(vi) Number of package returned

(vii) Missing package per the manufacturer's packing record

(viii) Value of each package

(ix) Total gross receipts from all packages

6. Each disposable card, sheet or package of cards from the same set or collation shall be consecutively issued at each individual sales point. Each card, sheet or package which is not issued consecutively during a session and the audit number is lower than the highest audit number issued shall be retained for a period of not less than one year. Provided that the cards, sheets or package of cards required to be retained may be sold at the next bingo session that the specific set of cards is used.

7. Disposable cards issued for each type of sale shall be recorded separately, provided that, when more than one card or sheet number appears on a sheet of cards issued, then the primary card or sheet numbering system designated by the manufacturer shall be used to
determine the beginning number sold and the ending number sold. Each time the numbering of the sheets breaks in the set, a separate entry shall be made in the records.

8. All bingo cards allocated for each regular session and floor sales for each game in a session shall be accounted in the following manner:

(b) Bingo Tickets. Bingo tickets may be used to record sales transactions from bingo operation. The following are required:

1. All tickets must be printed only by PAGCOR registered commercial printer with the following information:

   (i) Tickets must be serially numbered and;

   (ii) The peso value or the amount of money represented by each ticket.

2. Tickets shall be issued consecutively starting from lowest numbered ticket.

3. All tickets purchased must be accounted for by the Licensee. Copy of the invoice for these tickets shall be maintained in the premises and available for inspection.

4. All bingo tickets allocated for a certain bingo event or special game shall be accounted with the packages of cards issued in exchange for the tickets on the basis that each ticket entitles the holder of the corresponding package of cards. The accounting shall be done in the following manner:

   (i) Step 1. Account for the sold tickets, packages of cards and claim stubs.

If the Licensee shall employ the use of the Electronic Card Dauber, the following method is applied:

(a) Cash Register. Cash register may be used to record gross receipts from bingo operation under the following requirements:

1. A consecutively numbered receipt shall be printed and given to customer. The receipt shall contain the following information:

   (i) name of Licensee

   (ii) date

   (iii) amount of money paid for the opportunity to play each game type

   (iv) amount paid

   (v) customer receipt number.

2. The cash register has the ability to assign a consecutive four-digit customer receipt number. This number system must be of a type that can only be reset by service personnel and does not return to zero at the conclusion of any period of use or power interruption.

3. If the cash register is electronic, the memory unit must retain all transactions recorded during the session, regardless of whether or not its power source is interrupted.
4. All cash register tapes for voids, returns, “no sales” and any other receipts not issued to player must be retained with the daily bingo records.

5. All transactions, customer receipt numbers and control totals must be recorded on the tape retained in the cash register. This internal tape shall be retained with the daily bingo records.

(b) Point of Sale (POS). POS may be used to record gross receipts from bingo operation. It is computer-based system of recording bingo-related transactions, and monitoring and control of sales (by floor sellers and cashiers) and production of the required reports. It has two functions, namely:

1. Cashier Function. This handles the sales of cards to players. Once the player has selected the particular packs of cards or number of cards, a receipt is automatically generated where pack number and control number are printed on the top position of the receipt and the details of the transactions including the total amount of payment. If electronic player units (like Electronic Bingo Card Daubers) are connected to POS, the stored bingo cards are downloaded from the POS to the player units ready for play.

2. Manager Function. This handles the generation of reports on gross sales-quantity of packs of cards of each type sold and summary of all transactions for the session. If an electronic player unit is connected to the POS, the POS can reboot the individual player unit, void packs of cards, print winning cards and such other details.

Section 2. PAGCOR’s License Fees from Bingo Operations

(a) License Fees from bingo operations shall be an amount equivalent to a percentage of its gross receipts from sale of bingo cards/tickets.

(b) License Fees may be reckoned on a monthly or on a quarterly basis, as prescribed by PAGCOR. If on a quarterly basis, reckoning shall coincide with the quarterly periods of the calendar year (i.e., January to March, April to June, July to September, and October to December).

Section 3. Documentation and Reporting Requirements
(a) The Licensee shall file with PAGCOR not later than the third day of the succeeding calendar month a Statement of Sales and PAGCOR Share duly signed by the its authorized representative showing in detail the true and correct amount of gross receipts from the sale of bingo cards/tickets and PAGCOR Share for the previous month, and the amount of PAGCOR Share due and remitted.

(b) The Licensee shall make and maintain complete, accurate and legible records of all transactions pertaining to bingo operations and the applicable taxes thereon. The records required to be kept shall be in ink or any other permanent form of recording.

(c) The Licensee shall whenever requested by PAGCOR to do so:

1. produce to PAGCOR all records pertaining to bingo operations and permit the examination of such records, the taking of extracts from them and making copies of them; and

2. furnish to PAGCOR all such information as PAGCOR may require in connection with any such records.

(d) The accounting books and records of the Licensee shall be subject at all reasonable times for inspection or the conduct of a compliance examination by authorized representative(s) of PAGCOR. Said books and records shall be available on demand. Specific records for inspection and compliance examination include but are not limited to the following:

1. Report of sales and PAGCOR Share, prize payouts, remittances of PAGCOR Share and taxes and other supporting documents related to bingo operations.

2. Documents related to bonds secured by the Licensee in connection with bingo operations.

3. Latest financial statements.

4. Certificate of ownership or lease agreements related to the use of the bingo venue.

5. All records pertinent to the inspection and compliance examination.

Section 4. Bingo Cards

(a) Standards for Bingo Cards
Licensee’s bingo operation shall utilize the approved bingo paper cards and electronic bingo cards in the conduct and operation of bingo games. For better understanding, the following are the standards for bingo cards:

1. A bingo sheet may contain one or more cards or faces depending on the cut in a mastersheet of pre-printed paper cards. The permutation in one card is done in such a way as to avoid duplicate card.

   (i) Face – An individual bingo card.

   (ii) Duplicate Card – In the strictest sense of the term, duplicate cards have three (3) things in common:

   ➢ Same card serial number,
   ➢ Same production serial number and
   ➢ Identical permutation.

   Proper management of the bingo paper is the only solution to avoid duplication of cards in play.

   (iii) Mastersheet – An “uncut” sheet containing many bingo cards printed by the manufacturer such as 24on, 30on and 36on. The most common mastersheet is the 36ons (36 cards on one sheet).

   (iv) Number “ON” – The number of cards (faces) on one sheet. For example, “6-ON” means six (6) cards in a sheet of cards. The number “ON” cannot exceed the number of cards on a mastersheet.

   (v) Cut – The layout or orientation of cards on a sheet. There are three (3) major types of “cuts”:

   ➢ Vertical – more cards down on one side of the sheet than across the top.
   ➢ Horizontal – more cards across the top than down on one side of the sheet.
   ➢ Square – same number of cards across the top of the sheet and down on one side of the sheet.

2. Each card (face) has identifications which are basic elements of a card.

   (i) Card Serial Number – The identification number assigned by the manufacturer. This is located at the free space in the center of the card and usually
at the bottom of the card. The printing of the second card serial number is to discourage alterations of the card serial number at the free space. It identifies the uniqueness/identity of the permutation of a particular card in a series.

(ii) Production Serial Number – The number printed at the top of the card. This number is used by the manufacturer to identify which printing run or production the cards belong to. The number of cards (faces) printed bearing the same production number depends on the series being printed.

3. Bingo cards must have a distinct and separate color and design which belong to one series or set of cards.

(i) Series - A specific group of unduplicated cards (faces) with consecutive card serial number assigned by the card manufacturer (i.e. 1 to 9,000 series, 9,001 to 18,000).

(ii) Colors – An assortment of thirty-one (31) colors are available to choose from. However, shades of mixed colors that are almost identical to the other are discouraged to be used to avoid playing the wrong card. This will give rise to complaints by players who may have difficulty in color distinction.

Examples: Orange, Peach, Violet, Orchid etc.

(iii) Paper Design – There are two major design groups in bingo paper:

- Border Design – card has neutral background, with a color forming a border around the numbers on the card. It also includes stripes.
- Solid Design – card has the color background. It is also called as “screens” and “tints”.

(iv) Preprint Paper – Bingo cards with a design or pattern printed on it where players bingo on the said design or pattern.

4. Bingo cards may come in single card or collated into package of cards.

(i) Single card – A 1-on card.
(ii) Multi-faceted card – Bingo card in sets of two or more faces depending on the cut in a thirty six-face flat sheet of pre-printed bingo cards.

(iii) Loose cards – single or multifaceted card but which are sold separately and played simultaneously with the corresponding package cards in a regular game or played independently for a special or separate game.

(iv) Package of Cards – a group of two or more bingo cards, usually of different colors, padded into a package of cards for sale to the playing public. Generally, the different colored sheets are used to play different bingo games.

(v) Collate – The process of assembling bingo sheets from one or more sets of cards of different colors into a package of cards.

(vi) Color Rotation – A term used to specify the color sequence of the sheets in a collation. For example, a Licensee may order a “3-Up” collation and specifies the following colors in a package of cards:

- First sheet – Blue
- Second sheet – Red
- Third sheet – Yellow

(vii) Number “UP” – It designates the number of bingo sheets desired to be collated in a package of cards. For example, if a Licensee wants ten (10) sheets in a package of card, it is called a “10-UP”.

(viii) Lot – It refers to a group of cards from same product line having uniform colors and designs imprinted with same production number.

(ix) Product Line – A specific type of cards identified by features or characteristics that are unique for a particular product when compared to other cards.

Examples:

- Champion of Bingo King
- Unimax of Arrow International
- A-Line of American Games
5. Bingo cards when printed by the manufacturer follow certain standards in the imprinting of card serial numbering system depending on the product line and cut of the bingo cards.

(i) Skip – The standard spread or difference in the card serial number between cards on a sheet, or the first card of the top sheet and the first card of the last sheet in a package of cards depending on the base used.

(ii) Base – The standard skip used in the collation of cards or sheets into package of cards.

6. Types of Bingo Cards Used. The following are the types of bingo cards:

(i) Disposable (Throwaway) Bingo Cards – These are bingo paper cards that are one-time used in the bingo games and marked permanently by daubers, pens or crayons and thrown away every after each game except in continuous games where the same card is used for the games using continuous patterns. This card is used in the conduct of traditional bingo games.

(ii) Carbonized Duplicated Cards – A pre-numbered two-part carbonized or duplicated cards where letters – B, I, N, G and O and all numbers 1 to 75 are printed on its face grouped as follows:

<table>
<thead>
<tr>
<th>LETTER</th>
<th>ALL NUMBERS FROM</th>
</tr>
</thead>
<tbody>
<tr>
<td>B</td>
<td>1 to 15</td>
</tr>
<tr>
<td>I</td>
<td>16 to 30</td>
</tr>
<tr>
<td>N</td>
<td>31 to 45</td>
</tr>
<tr>
<td>G</td>
<td>46 to 60</td>
</tr>
<tr>
<td>O</td>
<td>60 to 75</td>
</tr>
</tbody>
</table>

These cards are used for special games only with the following requirements:

- Players are allowed to select and encircle their chosen numbers as required in the mechanics and rules of the game.
- They shall mark their numbers in a distinct, clear and legible manner on the original copy (on top of the duplicate) prior to separation of the duplicate and original copies.
No alterations are allowed.

The “fill-in-the-blanks” type of duplicated cards is not allowed for use in the conduct of traditional bingo games.

(iii) Break-open Cards – A bingo card concealed by being sealed in a manner that prevents revealing any part of the card or face. This type of card is generally used in Quickshot games.

As a requirement, the sheets must be constructed in a manner that all 24 numbers on each card or face cannot be determined from the outside of the sheet even using high intensity lamp or other means.

Player shall break-open the card and daub the numbers on the card against the pre-drawn balls to form a predetermined pattern that are posted on a game display board for this purpose.

Drawing of balls for the game may use the balls drawn for any game for the day or a special game to be conducted for this purpose. Mechanics and rules of the game shall contain the needed information.

(iv) Write-in Cards – A bingo card retaining the format of a bingo card but with blank faces in which a player writes any series of numbers of his choice from 1 to 75 under column headings – B, I, N, G and O. This type of bingo card is not authorized to be used in the Licensee’s bingo hall.

(v) Electronic Bingo Cards – Electronic bingo cards or electronically generated bingo cards are software generated random cards containing the same features as the disposable bingo cards but are stored in the computer data bases and displayed in the screen of electronic devices connected to the computer system. However, permutation depends on the manufacturer’s specifications. These cards are used in electronic bingo units and online computerized bingo system.

(vi) Push-outs – Bingo cards printed on heavy paper stock or lightweight card stock containing a half-circle die cut in the center of each number permitting the player to “mark” the card by
pushing-out and folding down the half-circle flap of paper or card. This type of bingo card is not authorized to be used in the Licensee’s bingo hall.

(b) Guidelines for Bingo Cards

1. The Licensee must use only approved bingo cards in the conduct of bingo games. Important considerations in the approval of the use of certain bingo cards are as follows:

   (i) Bingo paper cards are manufactured in a controlled environment using processes and procedures that ensure the integrity of the product and facilitate regulatory compliance with the requirements.

   (ii) Bingo paper cards must establish an audit trail system that requires:

       ➢ Each set of cards manufactured as a specific product line, using the same color and border, or solid design is assigned a unique production serial number which is imprinted by the manufacturer on each card or set of cards for the whole printing run or production.

       ➢ Each card or face must be identified by a card serial number imprinted on the face of the card.

       ➢ Each card within a set must be consecutively numbered.

2. All bingo cards must have a security measure required by PAGCOR such as in form of PAGCOR logo watermark imprinted on each card.

3. All bingo card requirements of the bingo venue shall be procured from the PAGCOR registered suppliers only.

(i) Custody and proper storage/safekeeping of bingo cards shall be the responsibility and accountability of the Venue Card Custodian who is accountable to the Venue Treasury Head or to the Head of Licensee’s warehouse operations at their central office (for Licensees with centralized warehousing system). As such, all bingo cards shall be secured in a cards storeroom exclusively for storage of bingo cards.

(ii) These cards can only be withdrawn by the Venue Card Custodian for a specific game and/or daily allocation as required. All cards withdrawn for allocation must be witnessed by and presented to the PAGCOR Monitoring Team in the venue for checking and verification prior to its use.

(iii) Movements of bingo cards such as receipts, issuances for allocation, returns of unused/unsold cards and conversions shall be recorded in a bin card maintained for the purpose. All movements are subject to checking and verification, and witnessing by the PAGCOR Monitoring Team assigned in the venue. All supporting records shall be made available for verification by the PAGCOR Monitoring Team.
(iv) The Licensee shall be responsible in maintaining the integrity of the inventory cards. Thus, the Licensee shall be required to submit a monthly inventory report to PAGCOR not later than the 10th day of the succeeding month subject to verification by PAGCOR Monitoring Team.

6. The Licensee shall not duplicate or make copies of bingo cards nor cut bingo paper sheets into separate cards or package of cards.

7. All bingo cards must be color-coded and have a distinct and a separate card serial numbers for each and every game with specified production serial number on all cards in play per bingo session relative to the type of card being used. Any single card to be used as extra card must have the same color but different card serial number and production serial number.

8. Sale of Bingo Cards. The following are the guidelines governing the sale of bingo cards:

(i) The Licensee shall be responsible for the sale of cards either as single card or package of cards and other similar paraphernalia and shall maintain a record thereof.

(ii) Licensees and their venue staff are not allowed to sell bingo cards outside of the bingo hall.

(iii) Each set of cards or package of cards shall be sold intact as a single unit with a single price.

(iv) All sales of bingo cards must be on a cash basis and take place during or immediately before the bingo session or game for which the bingo cards are being sold and paid before the start of the game. These cards shall be used during the game or session for which the cards are purchased. The Licensee shall not allow player to carry over purchased but unused bingo cards to a subsequent bingo session or day.

(v) The Licensee shall not offer free or discounted bingo cards, except during events such as inauguration and anniversary of the bingo venue only provided request has been previously approved by PAGCOR.
(vi) The Licensee shall not reserve bingo cards for any person.

(vii) Sale of additional cards on the floor increases the player’s chances to win the prize. However, any bingo card that is being selected, purchased or exchanged during a game that is in progress shall not be used in that game.

(viii) Bingo cards shall not be sold after the first ball is drawn for the game in which the card is going to be used.

(ix) The Licensee shall not offer for sale any bingo cards that were sold at the previous bingo game, session or day.

(x) Any single or extra/loose bingo cards that have not been sold shall be turned in and not be made available for sale upon the start of the game in which said cards will be used.

Section 6. Bingo Equipment

(a) Standard bingo equipment, other equipment and paraphernalia

To be able to facilitate the conduct of the bingo games and achieve reliable results therefore, Licensees are required to acquire a Bingo System and other equipment and paraphernalia to carry on this objective to ensure integrity and fairness thereof.

1. BINGO SYSTEM – means an electronic system powered by computer software capable of programming an entire bingo operation consisting of the standard bingo equipment housed in or connected to a bingo console for an integrated and easy management and operation. A bingo system is composed of the following equipment:

(i) Bingo Machine or Console – It houses the following:

- Electronic Verifier – A device powered by computer software used to verify or validate a winning bingo card through a computerized data bank that stores all cards and all patterns that can be used in bingo games.

- Ball Blower – A device used to mix the seventy five (75) bingo balls contained in the ball chamber either by air pressure or mechanical means giving each ball an equal opportunity to be drawn. The blower randomly draws the balls one at a time at a predetermined interval and devoid of interruption. This device should have the following features:

  - It should allow the players' full view of the mixing action of the balls; and
The device cannot be interrupted nor manipulated to change the random placement of the balls at the exit receptacle of the ball compartment, except when the device is shut-off.

- Automatic Timer or Pacer – A small electrical or electronic device which features a small light flashing or sound at a predetermined frequency to set the timing in drawing the balls.

- Ball Camera – An optical device mounted on the console used to capture the ball drawn onto the TV monitors for players' viewing.

- Operator's Monitor – A TV monitor mounted on the console that displays all pertinent game information for the machine operator's complete control of information onto all TV monitors installed inside the bingo hall.

- Machine Ball Rack – A receptacle that holds the seventy five (75) bingo balls before start of a game and each ball after it is being drawn and called by the bingo caller.

- Masterboard – A keyboard type of device wherein the machine operator encodes the drawn and called bingo balls which is then transmitted to the flashboard system.

(ii) Flashboard – An electronic device connected to the bingo machine or console showing the graphic presentation of the game information such as numbers drawn and called with the last number called flashing, bingo pattern in play, ball counter and prize

2. Other Equipment and Paraphernalia

(i) Bingo Balls – White or colored Ping-Pong balls marked with letters – B, I, N, G and O and numbers 1 to 75 used in the draw in the conduct of bingo games. Each ball is distinguished as follows:
Another type of bingo balls used in the draw is the multi-sided one that displays the letter and number in all sides of the ball or in all directions and marked up one color for the letter and number, and the line encircling the letter and the number. This is usually used in a “hands-free” bingo machine for the ball camera to capture in all angles the letter and the number during draw.

(ii) Public Address System – An audio system with amplification and speakers appropriate to the size and acoustics of the bingo hall to be utilized for purposes of game integrity and an opportunity for audience participation during the conduct of bingo games.

(iii) Document Video Camera – An optical device used to show to the players and concerned parties the possible winning card under verification onto the TV monitors.

(iv) Monitors – TV sets installed in the bingo hall to show the images picked up by the document video camera and the ball camera for viewing and verification of the playing public.

(v) Game Board – An electrical or manual representation of a bingo card which is used to show to bingo players the winning game pattern and numbers drawn and called.

(vi) Video Cassette Recorder (VCR) – Audio/video equipment used to record the conduct of bingo games. Its use is advantageous to venue management in decision-making in case of dispute or complaints thereof. This is also used to play video presentation for playing public’s consumption like showing/announcing of General Bingo Rules and Bingo House Rules and other
marketing gimmicks without need for bingo caller’s services.

(vii) Tables and Chairs – Tables and chairs are designed suitable for the players’ comfort while playing bingo games even for several hours. Each table can accommodate two players sitting opposite each other and a maximum of twenty players.

(viii) Weighing Scale – An electronic device used to accurately determine the weight of each bingo ball to ensure that its weight is within the tolerable range level to give an equal opportunity for each ball to be drawn. For this purpose, it is imperative to compute the average weight for all the balls in a set.

(ix) Ball Storage Rack (Transparent Type) – A depository where a complete set of bingo balls are placed after a day’s use or weighing for safekeeping and storage. This helps in checking the completeness of the numbered (1 to 75) balls before and after its use. Replacement of bingo balls on a regular basis and by set only must be implemented.

(x) Whistle – A wind instrument used by the venue personnel to call the attention of the bingo caller to stop calling the next ball whenever player shouts or yells “BINGO”.

(xi) Dropbox – A transparent plastic or acrylic box used to contain original copies of carbonized duplicated bingo cards. This is secured by a lock (the key to which is under the custody of the Operations Officer) and is placed right in front of the stage for playing public’s view.

(xii) Bingo Dauber – Tube containing colored ink used to mark/daub clearly and permanently the numbers in the bingo card corresponding to the number being drawn and called during bingo games to form the winning pattern.

(xiii) Bin Card – It is a control log used to record the movements (receipts, issuances and returns/conversion and balances on stock) of each type of bingo card in the inventory. This form is used to
countercheck the actual inventory of bingo cards on hand in the cards storeroom.

**(xiv)** Vest or shirt (with Licensee’s trade name on it) – A uniform issued by the Licensee to the venue sellers to identify them as the authorized sellers of the bingo hall.

3. **Electronic Bingo Card Daubers** – These are electronic equipment or appliances used by players to identify bingo cards that contain numbers input by a player. These devices shall meet the following required features:

   *(i)* It electronically stores preprinted electronic bingo cards purchased by a player;

   *(ii)* It provides a means for player to input numbers drawn and called by the bingo caller;

   *(iii)* It compares and daubs electronically the numbers drawn and called input by the player to electronic bingo cards previously stored in electronic database;

   *(iv)* It identifies to the player those stored cards that contain the numbers input by the player and;

   *(v)* It gives signal or warning sound to the player that a certain card wins in a game for the player to yell “BINGO”.

**(b)** Guidelines for bingo system, other equipment and paraphernalia

1. All bingo halls must use the prescribed bingo system, other equipment and paraphernalia required in the proper conduct and operation of bingo games.

2. Manual devices such as “shakers”, “hourglass” and other similar types of number generators or devices shall not be allowed for use in the conduct and operation of bingo games.

3. The bingo system and paraphernalia should only be sourced from PAGCOR accredited supplier(s) of bingo cards, equipment and paraphernalia to ensure its quality and unhampered bingo operation. The purchase should be accompanied by manufacturer’s warranty certificate to ensure of its after-sales services.
4. All bingo equipment and paraphernalia prescribed and those to be prescribed in the future must be inspected, tested and approved by PAGCOR prior to commissioning in the bingo operation.

(c) Guidelines for electronic card dauber

1. Electronic bingo card dauber will not be deemed to provide players a material advantage and may be used by players in bingo games when operated in the following manner:

(i) The player must perform at least the following functions:

- Input each number called by the bingo caller into the memory of the dauber unit by the use of a separate input function for each number. Automatic or global marking of numbers is prohibited.
- Notify the bingo caller when a winning game pattern or “bingo” occurs by means that do not utilize the dauber unit or associated system and;
- Identify the winning card and display the card to the bingo caller or machine operator for verification.

(ii) Each player using an electronic card dauber is limited to playing a maximum of one hundred fifty (150) cards during any game to limit the advantage of player using an electronic card dauber device over those using paper bingo cards.

(iii) The Licensee shall not reserve electronic card daubers for any player. Assignment scheme of daubers to players shall allow players an equal opportunity to use the available units. If drawing is used to assign dauber units to players, the Licensee shall ensure that each player participating in the drawing has an equal chance to win.

(iv) If the Licensee charges the players a fee for use of the electronic card daubers, such fees must be a flat fee as rental and shall not be based on the number or peso value of cards purchased.
(v) Each player utilizing electronic card dauber must have the cards (as printed) in his/her possession. Electronic images of cards (as printed) stored in such devices are for players’ convenience only.

(vi) If electronic daubers are leased to Licensees, lease cannot be based on the amount of bingo card sales or rental income derived from such devices.

(vii) Use of electronic daubers is prohibited when a Licensee utilizes any marketing scheme for cards that results in a decrease in the per unit price of each card as the number of cards purchased increases. Provided that a single discount level is authorized for each type of card sold if:

- The Licensee has a minimum purchase agreement.
- Discount applies to all cards purchased.
- “All you can play” scheme is prohibited.

2. Electronic bingo daubers must meet the following standards:

(i) Be manufactured by licensed manufacturers;

(ii) Be sold, leased and serviced by a PAGCOR registered licensed distributors or manufacturers;

(iii) Be not be capable of accessing the electronic computer system in any manner that would allow modification of the program which operates and controls the dauber units or the cards stored in the electronic data base and;

(iv) Be capable of complying with the applicable requirements and guidelines for electronic card daubers.

Section 7. Bingo Hall and its Facilities

(a) The Licensee shall conduct and operate all kinds of approved bingo games only at the approved bingo hall.

(b) The Licensee shall allow the PAGCOR Monitoring Team unrestricted access to the bingo premises and facilities at
anytime during reasonable hours of the day or operating time of a bingo day for examination and inspection.

(c) No person shall interfere with, prevent, or refuse a duly authorized representative of PAGCOR to make an inspection of the bingo hall and facilities used for bingo operation by the Licensee.

(d) The Licensee shall provide a storeroom for securing the bingo tickets and cards for use of the bingo operation. As a security measure, the storeroom shall be secured with two (2) locks, keys to each lock shall be handled by the Licensee or his authorized venue staff and the PAGCOR Monitoring Team assigned in the venue.

Section 8. Conduct of Bingo Games

(a) Guidelines and gaming rules for the conduct of bingo games

1. Bingo game shall be played by drawing bingo balls from a pool of seventy-five (75) balls through an electronic ball blower and using bingo cards to form a predetermined pattern in order to win a prize.

2. The Licensee shall be responsible for the integrity of the bingo games as well as the training of venue personnel, who will be staffing the games.

3. The Licensee shall notify PAGCOR of its internal control measures to ensure the integrity of the bingo operations. Any modifications in the internal control measures shall likewise be notified by the Licensee to PAGCOR.

4. No live coverage, either by radio or television network in the conduct of bingo games shall be allowed.

5. The Licensee shall not be allowed to solicit, accept or receive OFF-SITE BETTING or remote betting for traditional bingo games.

6. Only valid bingo cards shall be in play during conduct of the bingo games. To establish its validity, card production serial number and card serial number shall fall within the approved card allocation for the particular game.

7. To avoid problem that may be created through the use of duplicate cards, no two (2) sets of bingo cards shall be allowed to be sold for use of the same game if the cards
have the same production serial numbers and card serial numbers. Should there be any; the Licensee commits to award the same prize resulting to double payment. Use of duplicate cards can only be avoided through proper card management.

8. Neither the Licensee nor the players are allowed to separate/split the bingo cards in a multifaceted cards or package of card. Split cards are not entitled to be verified, thus, are not entitled to win in the game.

9. A player must be present and playing at the bingo hall during a game to be entitled to win and claim the corresponding prize.

10. The Licensee shall require a game pattern to be covered or marked by a dauber or pen and completed in order to win in a bingo game which bingo pattern must be clearly described in the bingo program and verbally explained or announced to the players immediately before the start of the game.

11. Winner shall be determined when a game pattern designated for a particular game is covered or the predetermined required numbers by the first player on a valid bingo card and is properly verified by the authorized venue personnel.

12. It is the responsibility of the player to notify the venue staff of his/her “BINGO”. Failure on his/her part forfeits his/her right to win and the game shall continue until a valid winner is declared.

13. Bingo game shall start when the first bingo ball is drawn and called and end when a player declares “BINGO” and his/her winning bingo card is verified to be a valid winner. To establish the ownership of the said card, the player shall affix his/her signature over printed name at the back of the card upon its submission for verification.

14. When a player declares “BINGO”, the Licensee shall undertake steps to close the game under the following requirements:

(i) The game must be stopped before calling the next ball.

(ii) The probable winning card must be submitted for validation/verification.
(iii) The probable winning card must have the last number called.

(iv) The probable winning card must be a valid card (falling within the approved allocated cards for the game).

(v) The game shall then be closed when the said card is declared winner.

15. In the event that the probable winning bingo card is declared not valid, the next ball out of the bingo machine’s exit receptacle shall be the next ball called. In the case of a continuation game, the said ball shall be used as the first ball drawn for the next game or pattern to be played.

16. The PAGCOR Monitoring Team shall be given a free hand in observing and monitoring the bingo operations.

17. Compliance form as prescribed by PAGCOR which identifies persons responsible for the bingo operation must be filed every year or upon change of person(s) in key position(s) with PAGCOR within seven (7) days from effectivity date(s) of appointment.

18. The Licensee shall commit to adhere/abide in the implementation of the General Bingo Rules and Bingo House Rules for the orderly conduct of bingo games. The Licensee shall display them in a conspicuous place inside the bingo hall to inform the playing public of their obligation to observe them while inside the bingo hall and participating in the games.

19. Conduct and operation of the bingo games via Closed Circuit Television (CCTV) and Computer Links commonly known as Bingo Link within the linked bingo halls, although part of the traditional bingo, are governed by a separate set of procedural guidelines included in this Regulation.

(b) Bingo program

1. The Licensee should have the flexibility to introduce any new game that falls within the current policy definition of a bingo game, provided that PAGCOR approves the new game prior to implementation.
2. New daily bingo program wherein usual and ordinary changes such as but not limited to the price of cards, prize, game pattern, ball bracket and the like, and new game scheme must be submitted to PAGCOR at least seven (7) days and fifteen (15) days, respectively, prior to the date of implementation. For special bingo events, the Licensee must submit to PAGCOR its proposed scheme at least fifteen (15) days prior to its intended start of pre-selling.

3. The Licensee, when mounting bonanzas and other bingo special events, shall consult PAGCOR when formulating and establishing prize payout schemes and other pertinent arrangements, game rules and mechanics, and operating systems and procedures defined and used in the operation of bingo games provided that the terms are not inconsistent with the herein guidelines.

4. All bingo programs shall contain the essential elements and subject to the following:

(i) The Licensee shall disclose in a bingo program all information to all persons contemplating to participate in the bingo games, including the price of cards and prizes for distribution before start of bingo session. Notification must be made prior to requiring players to make payment for the opportunity to participate in the game.

(ii) Bingo programs for each bingo day or bingo session must always be made available to all players prior to the start of the bingo operations for the day and include at a minimum the following information:

- A written description of each bingo game to be offered, including illustration of each winning game pattern and the order that games will be played.
- The prizes to be offered, including jackpot and consolation prizes, any factors used or conditions set in determining the manner of winning the prize such as but not limited to ball bracket and prize leveling for each game.
- Description of the bingo cards to be used including:
  - Color and design
Number of faces on each sheet
Number and type of sheets in a package of card

Price of cards or package of cards for each game or session.
Duration of the program.

5. The Licensee may make changes to approved program provided that:

(i) PAGCOR must be notified in advance for any necessary/immediate amendments to their approved daily game program, as such the Licensee is committed to abide and pursue the amendments as initiated and announced.

(ii) The amended bingo program must be approved within the time frame prior to implementation.

(iii) No amended bingo program shall be approved for implementation until the jackpot prize in a current regular bingo game or special game with high ball level is won. High ball level refers to the number of balls at which the probability of winning or chances the prize will be won is great.

(iv) The progressive jackpot prize with fixed ball bracket of a particular game is maintained.

6. Licensees’ approved new games/schemes introduced in the bingo hall must undergo post evaluation by the PAGCOR Monitoring Team for recommendation to the Gaming Licensing and Development Department together with the corresponding recommendation whether to continue or not in the implementation of the said game(s).

Section 9. Categories of Traditional Bingo Games

(a) Regular Bingo Games. The games in the bingo program using regular game package with a specific number of cards corresponding to the number of games in the particular session. Regular bingo games have a separate and distinct payout scheme.

(b) Special Bingo Game. Games that are introduced in between games or sessions which the players have the option to participate in. The cards are sold separately and are not
included in the package of cards offered for the day or special bingo event. Players pay extra to play such games.

(c) Hidden Face Bingo Games (Quickshot). Games played using hidden face bingo cards that allow a player to form a pre-determined pattern from pre-drawn number combinations.

1. All games must be completed during a single bingo day and only involved cards that are sold during that day.

2. Players that have paid to participate in the game need not be present when the numbers are drawn/selected.

3. Drawing of balls shall be done before the first session in the presence of the PAGCOR Monitoring Team and players in the bingo hall.

4. Record of balls/numbers drawn and called shall be duly signed by the Licensee's staff, PAGCOR Monitoring Team and a player selected by the venue management as witnesses to the draw.

5. The Licensee must provide a separate gameboard visible to all players for displaying the numbers drawn and called.

6. Winning patterns shall also be displayed close to the gameboard (containing the drawn numbers) as guide to winning the game.

7. The requirements of what constitutes a completed game must be documented and clearly posted for players' review. As such, the drawn numbers must be displayed constantly until the game is completed at the closing of the particular bingo day.

Section 10. Types of Bingo Games

(a) Bingo Game with Odd/Even Scheme. A special bingo game with separate card sales generally played to a full card pattern in which players pre-daub either the odd or even numbers in the bingo card prior to the game being played. The first ball drawn determines the numbers to be covered.

(b) Bingo Games with Multiple Prize Schemes. Bingo games where players have the opportunity to win one of the various, alternative prize levels are allowed provided the Licensee must describe in its bingo program any bingo games, the various alternative prize levels including the factors to be used in
determining the prize level to be won and the value of the prize levels.

(c) Continuation Bingo Games. Continuation bingo games are allowed where multiple game patterns may be played on one bingo card/face. Each pattern shall be considered single game even though the bingo balls are not returned to the ball chamber, after a winner has been declared. The drawing of balls continues until the last game in the series of games.

(d) Player Selection Bingo Games. Player selection games may be offered by Licensee in which players are allowed to select their own numbers, if the following conditions are met:

1. The cards used to conduct the games must have controls that provide an audit trail adequate to determine all winning combinations are valid. A two-part disposable (carbonized duplicated) cards may be used if:

   (i) The cards are printed on two-part, self-duplicating paper that provides for an original and a duplicate copies;

   (ii) The disposable card method of receipting for gross receipts from bingo operations is used;

   (iii) Players shall mark their numbers on each card in a distinct, clear, and legible manner prior to separation of the duplicate and original copies. No alterations are allowed before or after the separation of the duplicate and original cards. The marking shall not in any manner prevent reading of bingo numbers or any data imprinted on the card or obscure the determination of their encircled chosen numbers. The Licensee may exchange the card with an entry added, deleted or changed prior to or after separation for a new card provided errors are discovered prior to the start of the game or before the separation of the duplicate and original cards, or the original copy is dropped into the wrong dropbox. In this case, the duplicate copy shall be marked “VOID” and the card number of the replacement card must be indicated to effect cancellation of the replaced card if original copy has been dropped, or marked “VOID” on the original and duplicate copies when discovered before separation. In all cases, player shall initial the cards;
(iv) All original cards shall be placed in the designated transparent dropbox/es that shall be physically locked and controlled to assure that no cards are placed into the dropbox at the start of the game (that is after the first bingo ball is drawn and called). If more than one (1) dropbox is utilized for this purpose, a number to each box. Players must indicate the dropbox number in both the original and duplicate cards prior to dropping of the original copy.

(v) Players shall retain and play the duplicate copy.

(vi) To declare a winning card, a player’s selected numbers must have all been drawn and his/her card must be declared “BINGO” on the last ball called. Otherwise, the “Sleeper Rule” shall apply. A winning card is where the entries in the duplicate copy must exactly match with those of the original copy in its entirety.

(vii) In addition to the requirements, a winning card shall be verified by the winner’s signature at the back of the card. (This is intended to avoid switching of cards and establish its ownership)

2. All winning cards, original and the duplicate copies shall be retained by the Licensee as part of its daily bingo records upon payment of prize.

3. Incomplete cards, cards with alteration, and cards for which all required imprinted data is not displayed and legible shall not be paid as winners. Incomplete, altered and unreadable cards are the player’s responsibility and refunds shall not be allowed.

4. Replaced card duplicate copy shall be attached to the replacement card and maintained as part of the daily bingo records.

(e) Bingo Games with Progressive Scheme. Progressive bingo games are allowed. A progressive bingo game is one in which the established prize levels and/or ball limit may be increased from one bingo day to another if no player completes the required game pattern within the specified number of ball limit or bracket.

(f) Wild Number Bingo Game. A special bingo game played in which the last digit of the first ball drawn becomes the wild
number so that all balls having an ending with the last digit shall be covered.

(g) Promotional Bingo Games. Promotional bingo is a bingo game conducted during any occasion for promotional purposes in which the bingo tickets or the right to participate in the game is given away at no value to the player(s) in exchange for the bingo cards. Only merchandise or other tangible products may be given away as prizes and no cash prize may be offered or awarded in any promotional bingo game.

Section 11. Game Designs

There are over a hundred different game designs available for bingo games. They come in various forms and ways to play from simple patterns to complicated ones, combination of patterns or coverall (blackout) to add spice or excitement to bingo games.

(a) Types of Bingo Patterns

1. Fixed Bingo Patterns. Patterns that are stationary and game is won one-way. Examples are:

   (i) Any straight line – vertical, horizontal or diagonal (single or double)

   (ii) Block of 9, postage stamp (cluster or double cluster)

2. Moving Bingo Patterns. One pattern but displayed in more ways than one. Once a particular card or face in a multi-faceted sheet is declared “sleeper” under the “Sleeper Rule”, the same card or face is not anymore qualified to form or win that same moving pattern in other way(s). Thus, the same card or face shall be marked “cancelled” to invalidate it. Examples are:

   (i) Crazy patterns – T, arrow

   (ii) Postage Stamp – 2 ways

3. Continuous Patterns. Patterns that are played from one game to another in a session starting from one simple pattern and progressing to a complicated one and ending with a coverall pattern with an individual prize payout. Example of such is:

   (i) Start: Four Corners, then: Large Frame, Finish: Coverall
4. Multiple Patterns. Different patterns are to be formed in any single game. Each pattern has its own corresponding prize. For a game with multiple patterns (as contained in the game mechanics), the consolation prize for each pattern formed must be awarded to the winner, whether won separately or simultaneously with another pattern. Thus, a bingo card earlier awarded with a consolation prize in a particular game still eligible to win another consolation prize or jackpot prize in that same game. The total guaranteed prize payout declared for a game with multiple patterns must be awarded to the winner(s) in full, as in any other regular game. However, in the case of a jackpot, the full amount of the jackpot prize must be awarded to the winner, thereby nullifying his right to the consolation prize for that particular game.

(b) Designing a game should take into consideration the statistical number of balls drawn in which a “BINGO” will occur, given a number of cards in play for that particular game.

Section 12. Prizes

(a) Guidelines for Prizes

1. The Licensee shall allocate for prizes, either in cash or kind except liquor, beer, guns, ammunition and other contrabands, to be awarded to winner(s) in each bingo game in any bingo session shall be at least thirty percent (30%) of the projected, reasonable and acceptable gross receipts from sale of package cards and extra cards. For prizes in kind, proof of the retail value of the merchandise or goods must be submitted/furnished to PAGCOR in order to ascertain its value upon submission of the bingo game program for approval.

2. Before start of any scheduled bingo game, the Licensee must announce to the playing public the specific prize(s) to be awarded in full to winner for each game. The Licensee commits to award the prizes as announced/indicated in the bingo program. In case of multiple winners, prize shall be shared equally.

3. Prizes for bingo games shall be made available for release or payment to the winner(s) upon claim after each bingo game or bingo session but within the bingo day’s operating time. For this purpose, the Licensee shall put up a prize fund.
4. All prizes won in the bingo games must be claimed by the winners within the month. Unclaimed prizes at the end of the month shall be forfeited. These shall be set aside to form a common prize fund to be given later as prizes for special game(s) or as bonus prize in any regular or special game upon PAGCOR’s prior approval. For this purpose, the PAGCOR Monitoring Team shall account for all prizes to determine those prizes that remain unclaimed as of the end of the month.

5. The PAGCOR Monitoring Team must witness awarding of jackpot prizes and prizes amounting to more than Ten Thousand Pesos (P10,000.00).

6. Any single prize of more than Ten Thousand Pesos (P10,000.00) when awarded to a winner is tax-paid. In effect, all prizes are net of the applicable taxes. Total gross amount of the prize as computed includes the applicable taxes. The Licensee, as the withholding agent shall file the appropriate tax return and remit the total prize taxes for the period covered.

7. The aggregate value of all prize payouts awarded to winners and those forfeited, and the applicable tax imposed on these prizes must be at least thirty percent (30%) of the total gross receipts from sale of bingo cards/tickets for the month. If the average actual payout percentage falls below the required, the difference in amount shall be set aside to form a common prize fund to be given later as prizes for special game(s) to be conducted for this purpose or as bonus prize in any regular or special game upon PAGCOR’s prior approval.

8. Prizes in multi-level payout scheme may be adopted in bingo games using multiple types of cards priced at different amounts provided all information and game mechanics of the scheme necessary for the players’ understanding shall be made available to them as announced/explained by the bingo caller and as indicated in the bingo program or posters of the game with the scheme.

9. Prizes in a progressive bingo games are the ones in which the prizes continue to grow until a player wins the game. There are selected criteria to win the prize provided such criteria are indicated in the bingo program/game mechanics and fully explained when announced. If the prize is not won using these criteria, the prize shall continue to accumulate and remain
available until the game is won or approved revisions in the said criteria are made.

10. The value of donated or purchased prizes in kinds shall be based on its current market or purchased price.

11. Real or personal property/ies offered as prizes shall have been paid for in full and free for all claims and obligations, such as but not limited to interest, liens, encumbrances, etc., prior to the bingo session in which said real or personal property/ies is/are offered.

12. The Licensee may offer a progressive prize scheme in bingo games. However, prize shall be subject to capping at a specified maximum amount and to be played off once that cap has been reached. A maximum 14-day timeframe for the pay-off to occur, during which time another pot may be accumulated. The amount to be awarded is the prize pool consisting of the cap plus the accumulated amount after the cap is reached. The PAGCOR Monitoring Team shall strictly monitor the development of this scheme especially it involves high stake prizes accumulated over a specific period of time allowed.

13. Jackpot prize for regular or special games which remain “unwon” on a specified period of time of its implementation must be returned to the players by way of introducing “must go” mini-jackpot prize to be awarded per game to which the jackpot prize is attached to. The mini-jackpot prize shall be deducted from the jackpot prize until the total amount is exhausted. Another option is to set a schedule for a one-time special game wherein the jackpot prize will be given away.

(b) Record of Winners of Bingo Prizes

1. All payments of prizes for bingo games shall be accounted for and documented in a manner that affords independent verification of the amount paid and the manner of distribution to winners. Payment shall be properly supported by a pre-numbered duplicated prize voucher or receipt containing all information as follows:

   (i) Date
   (ii) Game number/session
   (iii) Complete name and address of the winner
(iv) Valid ID (to be photocopied for attachment)

(v) Tax Identification Number, if single prize is more than P10,000.

(vi) Amount of cash prize, or cash equivalent if in kind and item description. If the item is not divisible in the case of multiple winners, substitute item of same value shall be awarded instead.

(vii) Approval of authorized venue staff original copy of the prize voucher or receipt shall be furnished to the winner and duplicate on file).

2. Prize vouchers or receipt together with the winning card and the required supporting documents shall form part of the bingo records.

Section 13. Cancellation of Bingo Games

Cancellation of bingo games shall adhere to the following rules:

(a) Conduct of uncompleted bingo games may be allowed by PAGCOR to be cancelled provided the following conditions are met:

1. Fortuitous events such as fire, earthquake, floods and events of similar nature, circumstances although foreseen but unavoidable such as riot, strike, civil disobedience and the like, or events that are avoidable but justifiable such as prolonged power failure and;

2. Low estimated sales turnout to be able to cover up at the least to the extent of the prize payout for the particular game, session, or day.

(b) If cancellation is due to fortuitous events and circumstances although foreseen yet unavoidable, the following shall apply:

1. When bingo games have started, the Licensee, in consultation with the PAGCOR Monitoring Team may opt to cancel the game and shall refund the price of the bingo cards to the players and announce the schedule of resumption of bingo operation.

2. During special bingo events with pre-sold bingo tickets, the Licensee shall reset the scheduled event and request for cancellation shall be submitted to the PAGCOR Monitoring Team who in turn shall submit the same to the
Gaming Licensing and Development Department together with his/her Incident Report on the subject cancellation. No refund shall be given.

(c) If cancellation is due to prolonged power failure, the following shall apply:

1. If the game has not started yet in the venue without back-up power supply system, the Licensee, in consultation with the PAGCOR Monitoring Team may suspend bingo operation only after a lapse of at least thirty (30) minutes from the start of scheduled bingo game, session or day.

2. If the game is ongoing, the Licensee in consultation with the PAGCOR Monitoring Team shall continue “manually” the drawing of balls until winner is declared after manual verification of the probable winning card. Succeeding games shall be automatically cancelled if the power is not restored within thirty (30) minutes from start of the next scheduled game. The Licensee shall refund the price of the cards for the game or session in accordance with the formula developed for this purpose as shown in the refund schedule in subsection (e) below.

3. In cases when power is repeatedly interrupted during a game, rule in paragraph 2 above shall likewise apply.

4. In all cases the PAGCOR Monitoring Team shall submit the Incident Report thereof to the Gaming Licensing and Development Department.

(d) If cancellation is due to circumstances although avoidable but justifiable other than power failure, the following shall apply:

1. During special bingo events with pre-sold bingo tickets, the Licensee shall submit notice of rescheduling of said event(s) at least two (2) days in advance to the PAGCOR Monitoring Team who will submit the same together with his/her recommendation or objection and reasons thereof to the said cancellation or re-scheduling. No refund shall be given.

(e) In those cases where refund is allowed, the amount of refund shall be based on the price of the bingo card, or pro-rata price of package of cards determined by using the following formula developed based on the prize(s) in the games in a session:
REFUND = \frac{PRIZE\ PER\ GAME}{TOTAL\ PRIZES\ IN\ A\ SESSION} \times \text{PRICE OF PACKAGE CARDS}

Example:

1. Given information:

- 3-Game Package Cards of P20.00 each
- 1st and 2nd cards have been played
- Game 3 is cancelled
- Prizes: Game 1 ------ P1,500.00  
  Game 2 ------ 2,500.00  
  Game 3 ------ 5,000.00  
  Total ------ P9,000.00

2. Application of formula:

\[
\text{REFUND} = \frac{P\ 5,000.00}{P\ 9,000.00} \times P\ 20.00
\]

\[
\text{REFUND} = P\ 11.11\ or\ P\ 11.00
\]

(f) In cases where few players are present in a session(s) with higher/bigger payout, the Licensee may be allowed to set aside the regular bingo program and implement an existing bingo program with lower/smaller payout scheme in order to minimize loss for the said session in lieu of cancelling the game(s). Cancelling the games without meeting the prerequisites for cancellation will affect the players especially the regular ones who may lose confidence in the Licensee which may translate to business opportunity.

Section 14. Disputed Bingo Games

The Licensee shall adhere to the following rules in disputed games:

(a) If it is discovered that the correct numbered balls, 1 to 75, are not in the bingo ball chamber, more than 75 balls are found to be present, or a ball is so badly damaged that it is unable to be properly mixed to ensure an opportunity to be drawn, the following shall apply:

1. If discovered before the start of the game, then, the necessary changes/corrections shall be implemented and start the game.
2. If discovered while the game is in progress, then, that game is void and shall be played over at no cost to players.

3. If discovered after a bingo session is completed, then, no game shall be replayed.

4. If the number of cards each player is playing during the affected game can be determined, then each player shall receive the same number of cards for the replay of the game. If the number of cards cannot be determined for all players, then an equal number of bingo cards shall be given to each player.

(b) If it is discovered that a ball was incorrectly called, or improperly placed or entered into the masterboard, then one of the following shall apply:

1. If discovered immediately, then the game shall be stopped. The error shall be corrected clearly restating the incorrect call or indicating the improper placement and indicating what the correct call or placement should have been and continue the game.

2. If discovered after additional balls have been called, then the game shall be stopped. The Licensee shall determine whether the game can be reconstructed by recalling the game from point of error and continuing. If game cannot be reconstructed, the game shall be declared void and replayed. If disposable cards were being used, then the Licensee shall issue replacement disposable bingo cards of equivalent value at no cost to the players to play the make-up games. If the number of cards cannot be determined for all players, then an equal number of bingo cards shall be given to each player.

Ball sequence report done manually shall be used in the precise reconstruction of the balls drawn and called.

(c) In the case of a disputed game, if the prize has been paid to a player before the discovery of the error, then the prize shall remain the property of the winner.

(d) If the payment of prize is in accordance with the rules, then the cause shall be noted in the game records. Repeated overpayments may be considered a violation of the bingo procedural guidelines and gaming rules and regulations.
(e) In the investigation of disputed game, PAGCOR may instruct the Licensee to pay the disputed prize if the preponderance of the evidence is in favor of the player.

Section 15. Activities Conducted as Part of Bingo Games

Only activities authorized by PAGCOR shall be conducted inside the Licensee’s bingo hall. The Licensee may award prizes to winners of activities authorized by PAGCOR when such activities are conducted as part of bingo games. Such activities shall be deemed to be bingo games if all players paying to participate are allowed to compete equally and all prizes awarded are treated as bingo game prizes. The following activities are authorized:

(a) Raffle. The Licensee shall be allowed to award prizes that are determined by a random drawing of tickets or by other random selection methods involving the numbering system with the following requirements:

1. Rules regarding these drawings including requirements to qualify for participation are clearly posted and distinctly explained to the players;

2. Tickets or other facsimiles used to enter such drawings are awarded only to players purchasing cards to play in bingo games;

3. Tickets, from which the winners of any such drawings are selected, shall not be accumulated for a period that is no longer than ninety (90) days from start of the said promotion to the intended draw date;

4. The Licensee may award prize to the raffle winner, if the following conditions are met:

   (i) The winning player shall be present during the draw date. Otherwise, he forfeits his chance and the Licensee has the right to draw another ticket entry to give other present participants to the game the opportunity to win.

   (ii) The winning player shall be required to present upon claim of the prize the claim stub (of the winning ticket entry) to establish the rightful winner.

   (iii) In the event that the winning player is unable to present his/her claim stub, any valid ID must be presented to establish the true identity of the
claimant by matching the information contained in the presented IDs with that of the winning ticket entry as follows:

- Name of ticket holder/owner
- Signature of ticket holder/owner
- Address of ticket holder/owner

(iv) In the event that the possible winner/s fails to present any of the abovementioned requirements, he/she is automatically disqualified to claim the prize.

(b) “Good Neighbor” Prize Scheme. The Licensee may award prizes based upon the seating location of a player or players in regards to a winner of a bingo game. The following requirements must be observed prior to the awarding of “good neighbor” prizes.

1. Rules regarding this prize scheme and requirements to qualify for a prize must be clearly posted and distinctly explained to the players and;

2. A record shall be completed setting out the criterion for awarding such prizes during each session, and maintained as part of the daily bingo records.

(c) Creativity and Originality Contests. The Licensee may conduct contests in which players may demonstrate the best costume, other activities requiring skills such as bingo tournament and the like.

(d) Second element of chance schemes may be used to increase the minimum prize for a bingo game has been determined by calling numbers or letters if:

1. Schemes do not involve the use of prohibited gambling devices.

2. This scheme is attached to or rider of a regular bingo game. It is a separate game, but a prize pool offered with a regular bingo game. It is a progressive prize scheme played with regular bingo games in a bingo program. The ability to win is tied to the winning of a regular bingo game on a specific number or bingo ball.

3. The scheme does not require the player to risk any portion of a prize already won.
4. Every possible outcome of the scheme provides the player with an additional prize.

5. Rules of the game are clearly posted and distinctly explained to the players. The Licensee may award prizes/gifts in promotional games to bingo players if:

   (i) The merchandise gifts with a cost to the Licensee of no more than P100.00 per gift are awarded and;

   (ii) A record shall be completed for each session setting out the criterion for selecting recipients, number of gifts and total cost of the gifts. Such records shall be maintained as part of the daily bingo records.

Section 16. Additional Guidelines for Licensee’s Employees

(a) No employees of the Licensee in the bingo hall shall communicate or have direct contact during the conduct of bingo games with the employee’s immediate family members who participate as players to preserve the integrity of the game. Immediate family members refer to spouse, children, parents and siblings.

1. Employees holding vital positions such as callers, machine operators and command officers are strictly restricted from communicating in any form with their and the Licensee’s immediate family members and friends.

(b) The Licensee or its employees shall not engage in any act, practice or course of operation that manipulates the outcome of any bingo game.

(c) Bingo staff engaging in theft or other illegal activity associated with bingo should be prosecuted and reported in writing to PAGCOR as to the following:

1. Name of the employee;

2. Position of the employee;

3. Offense committed and;

4. Licensee’s action taken

Upon receipt of written report, PAGCOR, at its discretion may conduct an inquiry to establish the veracity of the report prior to circulating the name of erring parties to other Licensees.
(d) PAGCOR may circulate to Licensees in the bingo industry information about the convicted parties or those whose offense has been established to help prevent those same individuals from working in other bingo halls.

Section 17. General Bingo Rules and Bingo House Rules

The following general bingo rules and bingo house rules shall be posted in a conspicuous place inside the bingo hall in full view of the players, or contained in a tape or compact disc (CD) shall be played before the start of a game in order to inform and bind the players to abide by the said rules.

GENERAL BINGO RULES

(a) Before the start of the game, the production and series numbers, and type, color and design of cards to be used for a given game must be announced as the only valid cards for the game to win a prize. All players must check that their cards are of the correct specifications for valid cards for the particular game. In case of discrepancy, player must surrender the same to the Command Station for exchange of new cards. The following must also be announced:

1. Pattern, ball bracket, prize payout and price of cards or package cards/single card.

2. Splitting of multifaceted sheets (e.g. 2ons, 3ons, 4ons, etc.) is prohibited. A face is an individual card. Split cards are not entitled to be verified, thus not entitled to win a prize.

(b) A bingo ball is not officially drawn until the letter and number are completely called. The bingo ball with its corresponding letter and number as actually shown on the video screen is used for reference only.

(c) In the event of incorrect call or incorrect ball number displayed on the flashboard, the actual ball drawn and placed on the rack (of the bingo machine) shall be deemed the official ball.

(d) Should there arise, in any game played, a discrepancy between the number of the bingo balls called or announced, displayed on the flashboard/TV monitors, and the actual number of the balls drawn and placed on the rack, the last shall be deemed the official number of balls drawn and called.
(e) Balls called must be daubed or marked with a ball pen, highlighter, or bingo dauber on a bingo card to form the winning pattern. Unmarked cards are not valid and disqualified to win a prize. This rule does not apply to carbonized duplicated cards.

(f) To declare a “BINGO”, the player must shout “Bingo” loud enough for the bingo caller to hear. It is the responsibility of the player to shout “Bingo” to prevent the bingo caller from calling the next ball.

(g) A possible winning card must be presented to the verifier for validation prior to declaration of “Good Bingo”/winner.

(h) To declare a winning card, the winning pattern must be formed on the last ball called. Otherwise, it must be declared “sleeper” under the “Sleeper” Rule.

**Sleeper Rule:** “Possible winning card without the last number called in the required winning pattern is invalid and disqualified.”

1. Moving Pattern. A moving pattern is one pattern but displayed in more ways than one. Once a particular card or face of a multifaceted sheet is declared “sleeper” under the “Sleeper” Rule, the same card is not qualified to form or win that same moving pattern in other way(s).

2. Multifaceted Sheet. Bingo cards may be in sets of one or more faces depending on the cut in a mastersheet of pre-printed bingo cards. Each face has an individual serial number and production serial number, which are the basic elements of a bingo card. Once a particular face of a multifaceted sheet is declared “sleeper”, under the “Sleeper Rule”, remaining faces of the same sheet can still qualify to form or win that same moving pattern. Once a card or a face of a multifaceted sheet is declared as “sleeper”, under the “Sleeper Rule”, the same shall be marked “cancelled” to invalidate it.

3. Multiple Patterns. Different patterns are formed in a single game. Each pattern has its own corresponding prize payout. For games with multiple patterns, the consolation prize for each pattern formed must be awarded to the winner, whether won separately or simultaneously with another pattern. Thus, a bingo card earlier awarded with a consolation prize in a particular game is still eligible to win another consolation or jackpot prize in that same game. The total guaranteed prize payout declared for a game with multiple patterns must be awarded to the winner/s in full, as in any other regular game. However,
in the case of a jackpot, the full amount of the jackpot prize must be awarded to the winner, thereby nullifying his right to the consolation prize for that particular pattern/game.

(i) A possible winning card must be shown on the TV monitors with the use of a document camera during verification. Once it is declared a “Good Bingo”, the winner must be paid the corresponding prize. The Licensee commits to award the approved prize as announced or as indicated in the bingo program.

(j) In case of two or more winners, the prize/s shall be divided as follows:

1. Cash prize/s shall be divided equally among the winners.
2. In the case of non-cash prizes, value of these prizes shall be declared and properly disseminated to inform all concerned.

(i) In case of multiple winners, the following options shall be available:

- Winners may agree on how the prize should be divided either by throwing of dice, drawing of lots, or purchase of the prize by one of the multiple winners and the final winner will be awarded the said prize; or
- Winners shall be awarded the non-cash prize and/or receive their equal share of prize based on the declared value of the item.

(ii) For this purpose, the Licensee must be required to submit the sales invoice and official receipt as proofs of purchase of the prize showing its true value/amount. (In the event that no purchase of the item has been made, the cash equivalent must be awarded to the winners equally). Should the Licensee fail to present any proof of purchase for said non-cash prizes, the prize based on the fair market value of the item or similar item must be paid in cash and divided equally among the winners.

(k) Once the game is officially closed, no other winner/s shall be considered. The players are then advised to discard their cards.

(l) Carbonized Duplicated Card.
1. A carbonized duplicated card is a two-part carbonized type of card where all numbers 1 to 15 under letter B, 16 to 30 under letter I, 31 to 45 under N, 46 to 60 under G and 61 to 75 under O are serially printed.

2. Before the start of the game, the series numbers, and color of cards to be used for a given game must be announced as the only valid cards for the game to win a prize. All players must check that their cards are of the correct specifications for a valid card for the particular game. In case of discrepancy, player must surrender the same to the Command Station for exchange of new cards.

3. Players must encircle their chosen numbers on the carbonized duplicated card with the original copy on top of the duplicate copy. The original copy must be dropped into the designated dropbox for the particular game. In case the original copy is dropped into the wrong dropbox, it shall be cancelled and replaced with a new one; its serial number shall be indicated in the replacement card.

4. To declare a winning card, a player’s encircled chosen numbers must have all been drawn and declared on the last ball called. Otherwise, the “Sleeper Rule” shall apply. A winning card is where the entries in the duplicate copy must exactly match with those of the original copy in its entirety. Cards with alteration, erasure or correction shall be declared invalid and disqualified to win. However, unnecessary markings shall not void the winning card provided such markings do not obscure the identification of the chosen numbers.

(m) In case of dispute or discrepancy, the venue management shall have the final decision upon proper consultation with the PAGCOR Monitoring Team in a manner deemed fairest to all concerned, and that the decision shall be binding to all players.

BINGO HOUSE RULES

(a) All persons allowed entry inside the bingo hall shall be obliged to observe all the rules and regulations prescribed by the management.

(b) No person below twenty-one (21) years of age or student in uniform is allowed entry to the bingo hall, except when accompanied by a parent or guardian. Neither shall they be allowed to purchase bingo card, play, and claim a prize.
(c) Persons under the influence of liquor or with infectious/transmittable diseases are not allowed to enter the bingo hall.

(d) Bringing of firearms and other deadly weapons inside the bingo hall is not allowed.

(e) Management has the right to deny entry of banned personality/ies.

(f) Bringing or serving of drinks in glass container inside the bingo hall is not allowed.

(g) Players are advised to observe the designated smoking and non-smoking areas inside the bingo hall.

(h) No person shall be allowed to participate in a bingo game unless personally present at the bingo hall at the time the bingo games are being conducted.

(i) No refunds on unused cards shall be allowed except when the game is cancelled due to unavoidable/justifiable circumstances as determined by the venue management upon proper consultation with the PAGCOR Monitoring Team.

(j) Silence must be observed while the game is in progress in order not to distract others in their playing of bingo.

(k) Game programs are subject to change without prior notice. However, all programs are approved by PAGCOR prior to implementation.

(l) No employee of the Licensee, their affiliates, distributors, advertising and other promotion agencies, companies involved in the operation of the bingo venues shall be allowed to join in the bingo games and other related bingo games operated by their company and affiliates, whether in person or through another person in his/her behalf, or in behalf of others.

PART II  BINGO GAMES VIA CLOSED CIRCUIT TELEVISION (CCTV) AND COMPUTER LINKS

The following procedural guidelines shall govern the conduct and operation of the Bingo games via Closed Circuit Television (CCTV) and computer links, commonly known as Bingo Link to ensure integrity and fairness thereof:
Section 1. Equipment for the Bingo Games via Closed Circuit Television (CCTV) and Computer Links

(a) The Videoconferencing Equipment. The videoconferencing equipment establishes video linkage of the other remote sites to the host site, where the core activity of drawing is held.

(b) The Audio/Video Equipment. The audio/video equipment establishes the audio linkage of other remote sites to the host site.

(c) The Back-up System. The telephone back-up system provides the required link-up among the various sites. It also serves as a back-up audio channel via the telephone network in the event that the videoconferencing/audio equipment fails.

(d) Main Control Center (MCC). The Main Control Center serves as the technical control site for the entire link system. The MCC provides the grouping of clusters, facilitates inclusion of new linked sites, monitors the progress of games for synchronization and faster response if link system fails.

Section 2. Gaming Parameters for Bingo Games via Closed Circuit Television (CCTV) and Computer Links

General Bingo Link Rules shall apply to the conduct and operation of bingo games via Closed Circuit Television (CCTV) and computer links or link games:

(a) Before the start of the game, the production and series numbers and color and design of cards to be used for a given game must be announced as the only valid cards for the game to win a prize. All players must check their cards and surrender the same to the Command Station for exchange of new cards in case of discrepancies. The following must also be announced:

1. Pattern, ball bracket, prize payout and price of cards or package of cards.

2. Splitting of multifaceted cards (e.g. 2ons, 3ons, 4ons, etc.) is prohibited. Split cards are not entitled to win a prize.

Each site should use a different set of bingo cards with distinct serial numbers from each other. The host site must exercise control in the assignment of sets of cards to prevent duplication of serial numbers, and thus producing multiple winners with cards bearing same serial numbers.
(b) A Bingo ball is not officially drawn until the letter and number are completely called. The bingo ball with its corresponding letter and number as actually shown on the video screen is used for reference only.

(c) In bingo link games, host site caller should allow a four (4) second interval before repeating the calling of the currently drawn ball, and a ten (10) second interval in between the calling of bingo balls in order to give ample time for the players with multiple cards to daub their cards, and at the same time to give allowance to the response time of the remote sites to the ball calling at the host site.

(d) In the event of an incorrect call or incorrect ball number displayed on the flashboard, the actual ball drawn and placed on the rack shall be deemed the official ball.

(e) In the remote sites at the start of the game, the local machine operator must place all the 75 balls in the machine ball rack and must remove the corresponding ball called/announced by the host site to prepare the site to continue the game off-link under Section 3 below.

(f) Should there arise, in any game played, a discrepancy between the number of the bingo ball called or announced, displayed on the flashboard/video screen, and the number of the ball drawn and placed on the rack, the last shall be deemed the official number of the ball.

In case of discrepancy between balls placed on the racks of the host site and remote site/s, the balls on the rack of the host site shall prevail.

(g) Balls called must be daubed or marked with by a ballpoint pen or highlighter to form the winning pattern. Unmarked cards are not valid and disqualified. This does not apply to carbonized duplicated cards.

(h) To declare a “Bingo”, the player must shout “Bingo” loud enough for the bingo caller to hear in order to relay to the host site said “Bingo” to prevent the calling of the next ball. It is the responsibility of the player to prevent the bingo caller from calling the next ball.

(i) To declare a winning card, the winning pattern must be formed on the last ball called. Otherwise, it must be declared a sleeper under the “Sleeper Rule”.
(j) Possible winning card must be presented to the verifier for validation prior to declaration of “Good Bingo”/winners. Host site caller shall allow enough time for possible winners at the remote sites.

(k) No payment of a prize shall be made until a possible winning card is verified/validated by the host site.

(l) In case of two or more Bingo winners at the same or different sites, the prizes shall be divided as follows:

1. Cash Prizes shall be equally divided among the winners.

2. Value of the non-cash prizes shall be declared and properly disseminated to inform all concerned in the case of multiple winners.

3. In case of multiple winners, the following options shall be available to the winners:
   (i) Winners may agree on how the prize should be divided either by throwing of dice, drawing of lots, or purchase of the prize by one of the multiple winners and the final winner will be awarded the said prize.
   (ii) Winners shall receive their equal share of the prize based on the declared value of the item.

(m) Once the game is closed, the players are then advised to discard their cards. No other winner/s shall be considered after.

(n) In case of dispute or discrepancy, the Licensee shall have the final decision upon proper consultation with the PAGCOR Monitoring Team.

Section 3. Guidelines in case of Technical Failure in the Bingo Link System

As a matter of procedure during bingo link games, the remote site’s machine operator shall remove the corresponding ball called from the machine ball rack and set it aside in a separate box so that in case of a technical breakdown on the video link, the remote site disconnected from the link can continue the game locally without any delay using the audio link system. The following procedures shall be observed in case of failure of video link system:
(a) In the event of a technical breakdown during the bingo link games via Closed Circuit Television (CCTV) and computer links resulting in the failure of video link system, the disconnected site shall continue playing the game through live audio. To continue the game off-link (without video), balls called relayed through the back-up audio system must be shown by the remote site's machine operator to the camera to register the ball called on the TV monitors.

(b) In the event of technical breakdown during bingo games via Closed Circuit Television (CCTV) and computer links resulting in the failure of video and audio system, re-establishment or reconnection shall be attempted within fifteen (15) minutes. In the meantime, the game shall be momentarily suspended until reconnection within 15 minutes is established with the host site.

1. If reconnection is established within 15 minutes, game is resumed.

2. If reconnection fails after 15 minutes of attempt, the disconnected remote site or sites shall proceed with the game locally independent of the link games. All balls remaining on the rack of the disconnected site will be used as basis in drawing of balls to continue the game.

3. If reconnection is established after 15 minutes, the disconnected site shall rejoin only at the start of the next link game.

(c) In the event of technical failure in the bingo link system, prize payout shall be as follows:

1. Guaranteed prize (“must go”- no ball limit).

   If no reconnection is established after 15 minutes and the disconnected site continues the game locally, the prize pay-out under the link game shall be divided equally among the participating sites, provided that the equivalent share of the guaranteed prize must not be less than the prize of a regular local game with the same price of card.

2. Jackpot prize (with ball limit)

   If no reconnection is established after 15 minutes and the disconnected site continues the game locally, a separate jackpot prize of the same amount under the link game shall be maintained by the disconnected site for that particular game only.
Section 4. Tickets Allocation and Sales

The following procedures shall be observed in the allocation of tickets and sales thereof:

(a) Ticket Allocation. Each site shall be assigned a particular color of tickets in order to determine ticket source and accounting of tickets issuance and sales if players choose to play in other venues cluster-wide or metro-wide.

(b) Ticket Issuance. Monitoring of tickets issuance shall be based on serial numbers and estimated quantity of tickets to be sold.

(c) Ticket Returns. Tickets that are not sold at cut-off date shall be returned and accounted for in order to determine the number of tickets sold.

B. SPORTS BETTING

Section 1. Manner of Operation

(a) The Licensee may operate Sports Betting within the confines of the casino gaming area. The Licensee’s types of games, the kind of betting formats, the size of wagers and the rules of play for each game offering shall be subject to PAGCOR’s approval and shall be thereafter attached as appendices to the Implementing Rules and Regulations. Any additional sports betting game to be introduced by the Licensee over and above of what has been approved by PAGCOR shall require the prior evaluation and express written approval of the latter prior to implementation.

(b) The Licensee shall set-up and operate a number of sports betting POS throughout the licensed casino, subject to PAGCOR’s evaluation and written approval prior to implementation.

(c) All wagering, financial and administrative software to be implemented in connection with the Licensee’s Sports Betting offering shall be subject to PAGCOR’s evaluation and approval. Testing and inspection of the wagering system shall be conducted by PAGCOR prior to implementation.

(d) PAGCOR shall not be liable for the payment of winnings to players. This clause must be clearly and prominently displayed on all sports betting POS.
(e) All marketing and promotional activities and collaterals related to the Licensee’s sports betting offering shall be done in consultation with PAGCOR.

Section 2. Undertakings of the Licensee

The Licensee undertakes to:

(a) Provide all wagering, financial and administrative software including but not limited to, the proprietary Sports Betting game content and software subject to PAGCOR’s evaluation and approval, and further develop and test the integrity and security of the same. The Licensee shall ensure the efficiency of all wagering, financial and administrative software at all times, free of glitches or errors. Any losses and/or damages resulting therefrom shall be shouldered by the Licensee.

(b) Design, develop, test, implement and monitor the integrity and security of the computer and network systems for the Sports Betting offering.

(c) Provide all hardware equipment to be utilized in the Sports Betting operations all of which shall be subject to PAGCOR’s evaluation and approval. The Licensee shall not install, modify, decommission, remove, or destroy any such equipment without written authority from PAGCOR.

(d) Assume responsibility for all aspects of its Sports Betting operation including advertising and promotions.

(e) Assume all betting risks and undertake the payment of all payouts.

(f) Provide PAGCOR the necessary equipment such as but not limited to, monitoring tools/systems and connectivity acceptable and at no cost to PAGCOR for the purpose of allowing PAGCOR to log, search and generate various reports and monitor all Sports Betting transactions.

(g) Install an offsite back-up database server at a location not within the same power grid line as its main database server; subject to PAGCOR’s approval, to ensure additional security and data integrity in the event of catastrophic or force majeure occurrences.

(h) Update and improve the hardware and software components of the Sports Betting system from time to time as the need of PAGCOR arises to keep at par with the gaming industry.
(i) Conduct preventive maintenance on the hardware equipment, software system, communication system and its adjuncts.

(j) Submit to PAGCOR all required reports in accordance with the schedule of submission and format specified by PAGCOR.

(k) Be solely responsible for any action or suit brought about by any third party for violation of such party’s intellectual property rights.

(l) Hold PAGCOR free and harmless from any claim, damage, or liability which may arise from any cause in connection with any agreement, dealings, or transactions (including financial or currency arrangements) which the Licensee may have with its players. The Licensee warrants to hold PAGCOR free and harmless from any claim and/or liability from any tax obligation which may be imposed by any taxing authority on the fees or earnings which the Licensee may derive from its operations.

Section 3. License Fees

(a) The Licensee shall remit to PAGCOR on a monthly basis an amount equivalent to a percentage of Gross Bets as License Fee from Sports Betting operations.

(b) The License Fee shall be subject to review and, based on such evaluation, may be increased by PAGCOR as deemed necessary. The determination by PAGCOR of the appropriate License Fee shall be final.

(c) The License Fee shall be remitted by the Licensee automatically and without need of demand from PAGCOR when it falls due.

Section 4. PAGCOR Monitoring Team

(a) The PAGCOR Monitoring Team shall be given access to the Licensee’s server, database and other such areas/aspects as may be required by PAGCOR from time to time, for the purpose of ensuring compliance by the Licensee of the terms and conditions of this IRR. For this purpose, the Licensee shall make available to the monitoring team and at no cost to PAGCOR the following:

1. records of gaming transactions;
2. financial and accounting records; and,
3. all other records and/or reports as may be required by PAGCOR.
(b) Failure of Licensee to provide PAGCOR full access to its server, database and other such areas/aspects as may be required by PAGCOR from time to time as well as records required by PAGCOR as mentioned in items (a) to (c) above, shall constitute a material default, which default may be a ground for suspension or revocation/termination of this authority to operate Sports Betting.

Section 5. Warranty

The Licensee shall hold PAGCOR harmless from all claims, accounts, demands, or actions arising out of accidents, injuries, and damages whether to property or to persons, caused by Licensee’s Sports Betting operations, its systems, facilities and equipment.

Section 6. Revocation/Termination

(a) The authority granted by PAGCOR to OFFER Sports Betting is a mere privilege and not a right and may be revoked or suspended at any time at the sole option of PAGCOR by giving written notice to the Licensee of such revocation or suspension stating therein the reason(s) for such revocation or suspension.

(b) Upon the revocation of the authority to offer Sports Betting, the authority granted to the Licensee shall thereupon cease and become of no further force and effect, without prejudice to the settlement by the Licensee of any of its liabilities to PAGCOR or to any third party as of such date of revocation.
CRUISE SHIP CASINO

Section 1. Prohibition on operating a casino

(a) The operation of a casino on a cruise ship while in Philippine territorial waters is prohibited and subject to (b) and (d) in this Section 2.

(b) Onboard casino operations shall cease at least one (1) hour prior to arrival at the Pilot Station or port limit.

(c) The procedures involved during cessation of casino operations shall have recorded surveillance coverage.

For gaming table operations:

1. Inventory of Table Capital
2. Locking of the Capital Box
3. Securing of Gaming Paraphernalia

For EGM operations:

1. Turnover meter reading
2. Drop procedures
3. Machine Shutdown / Power Off

(d) For cruise ships departing from a Philippine port and bound for a foreign port, onboard casino operations shall only be allowed to commence at least one (1) hour after departure from the Pilot Station or port limit.

Section 2. Ship Arrival Notification

At least one business (1) day prior to the ship’s intended arrival date at the Philippine port, the cruise line shall submit to PAGCOR a Cruise Ship Arrival Notification Form (Form No. 64) containing the following information:
1. Name of Cruise Ship
2. Port of Origin
3. Port of Destination
4. Philippine port to call on / berth
5. Estimated Date and Time of Arrival at the Philippine port
6. Estimated Date and Time of Departure from the Philippine port
7. Number of gaming tables onboard
8. Number of EGMs onboard
9. Artwork copies of the following gaming paraphernalia used in the onboard casino:
   (i) Playing cards
   (ii) Gaming Tokens, Chips and Plaques

Section 3. Casino Closing Data / Information

Upon cessation of operations of the onboard casino prior to berthing, the following data shall be recorded:

(a) Expected time of berth in the Philippine port
(b) Time of cessation of operations
(c) For gaming tables
   1. Table number
(d) For Electronic Gaming Machines (EGM)
   1. EGM Brand
   2. EGM Serial Number
   3. Game theme
   4. Turnover meter reading

Section 4. Onboard Inspection

(a) PAGCOR reserves the right to inspect the onboard casino upon berthing at a Philippine port.

(b) In case of an inspection, the cruise line shall allow the PAGCOR inspection team to board the cruise ship and examine the casino.

(c) The inspection team shall verify the information contained in the submitted Form No. 64 as part of the inspection process.
(d) The cruise line shall grant the inspection team access to the casino surveillance system for the purposes of verifying the time the casino ceased operations prior to berthing.
